NOT MAKING PLANS FOR A THIRD PARTY
Senator LaFollette Denies He Has Any Such Intent in Calling Conference This Week.

Washington, Nov. 27.—Senator LaFollette, republican, Wisconsin, declared in a statement tonight that reports from Phoenix, Arizona, concerning a telephone conversation with Governor Hunt were "absolutely without foundation in fact" and "misleading in every detail."

"In my telephone conversation with Governor Hunt, I made no reference to a third party, but, on the contrary, was particularly to emphasize the fact that the conference to be held on December 1 and 2, to which Governor Hunt had been invited is called solely to consider a program of progressive legislation, both state and national. I stated that both democratic and republican governors, senators and representatives were invited to the conference."

"I told Governor Hunt what I had said in every interview given to the press and in the letters of invitation which had been sent out over my signatures and which I have reiterated in all personal interviews, namely that the conference on Friday and Saturday of this week will be absolutely non-political and bipartisan in character."

"I am convinced that this alleged interview with Governor Hunt is spurious or fabled. It is the second instance of gross misrepresentation of fact relating to the progressive conferences."
