## Building for the Future!

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum. Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce. Thus a bank builds your wealth. Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

## 'FORD FOR PRESIDENT' MOVE DENIED AT LINCOLN

Lincoln, Nov. 26.—A report that petitions were being circulated in Lincoln looking to the filing of the name of Henry Ford as a presidential candidate in 1924 was "discredited" tonight by men whose names were connected with the report.

F. L. Bollen, prominently connected with the progressive party in Nebraska, whose name was associated with the reported movement, said he did mention in a casual street conversation several days ago the possible availability of Mr. Ford as a candidate, but that was as far as his activities went. ## NO LOWERING BARS TO EUROPE SURPLUS ENTIRE BOWL MAY BE BUILT NEXT YEAR

No Intention of Discussing Modification of the Present Stringent Immigration Law.

Plan to Complete University Stadium in Time for the Fall of 1923 Homecoming Game.

Washington, Nov. 24.—President Harding has no thought now of discussing in his forthcoming annual message to congress a modification of the act sharply limiting immigration to the United States. White House officials said today. Almost simultaneously with the White House statement, announcement was made in the house by Chairman Johnson of the house immigration committee, that hearings would be started by his committee early in December with a view to correcting the quotas of immigration permitted under the present laws. Mr. Johnson indicated that a plan was under consideration for amending the law to restrict the admission of undesirable and deny permanent residence to aliens not eligible to citizenship.

The result of the canvass for funds for the University of Nebraska stadium has been so encouraging that the alumni officers in charge now plan to build the entire structure with seats for 40,000 in time for the homecoming game of the fall of 1923. Secretary Holtz states that various plans are under consideration for obtaining the money needed in building without waiting for subscriptions to be paid in full. The plan is to complete the bowl, but not the ornamental entrance.

"Care of foreign-born in prisons and institutions in the United States now costs 7 per cent of the gross income of the state governments," Mr. Johnson asserted, "and yet the cry goes up that we need more immigrants to supply cheap labor. Joining in the chorus are those who would bring the stricken population of the near east to our shores. What are those who are demanding cheap labor thinking about—profits, population or posterity? Must they always have a hole big enough at Ellis Island to admit a million and a half immigrants a year so they may give wretched employment to one-fourth that amount?"

A conference was held Friday afternoon at the alumni office with the architects and athletic heads present. The architects were asked to prepare preliminary working plans to be considered at a meeting next Wednesday. These are to provide for a baseball diamond of certain dimensions and other definite requirements for athletics. An effort will be made to have the contract let and work ready to begin by February 1.

The alumni of thirty of the ninety-two counties of the state have already subscribed their full quota. In a number of these counties the quota has been considerably over-subscribed. Six counties have been given no quota as there are only fifteen alumni in the entire six. These will be reached as individuals. Those in charge want every alumnus in the state to have some part in the building, even if he can afford to contribute no more than a dollar.

### A GREAT VALUE

(Omaha News Radio Service)  
Lincoln, Nov. 29.—The total value of all Nebraska farm products, grain, hay, live stock, poultry, dairy products, eggs and apples, is \$1,600,000,000, says Governor S. R. McKelvie's statement issued today. He says indications for prosperity's return are strong, but chides the people of the state because, he says, "the people of Nebraska spend \$1,000,000 annually for pleasures and non-essentials."

Uncle Robert Young was speaking of fifty-four years ago last Tuesday and said that on that anniversary that two feet of snow fell and remained on the ground until late in March of the following year and that many times there were days which registered as low a temperature as 40 degrees below zero. He told of him and the late L. G. Todd having one hundred head of cattle to feed and the country being open with no trees when the wind came it was almost unbearable. Mr. Young said that the price of corn at Plattsmouth the only town was 12 1-2 cents per bushel and that he hauled three thousand bushels there for sale which was loaded on boats when spring came for shipment south.
