From Wednesday's Daily. Last evening the review of the W B. A. of the Maccabees held a very pleasant meeting at the M. W. A. hall and which was very largely attended and one of the most delightful that the order has held in a number of weeks.

The review had as their guest, Mrs. Della Hall of Fremont, state commander of the order and who, with the assistance of the degree team conducted the initiation ceremonies that received the six new WIRE SERVICE IS members of the order into the review. NOT SO BAD

From Wednesday's Daily. There has been more or less discussion of the effect of the unsettled condition of affairs the past year on property value but the fact remains that Plattsmouth property is still bringing a very good price. J. P. Falter, the real estate man, a few days ago made a sale of a part of the Bauer property at Seventh and Vine street 59x60 to the Standard Oil Co., for a filling station and which brot \$4,500, so that is not so bad after all and indicates that the general effect of the times are getting better and better every day.

The address which is one of the series of sermons of the Lenten season, was enjoyed by a very large congregation and was more than usually inspiring to the members of the church
