

THE GREAT MAJESTIC

**"The Range With a Reputation!"**

The rust-resisting body, the air-tight construction that gives absolute heat control and perfect baking conditions, the abundant supply of hot water ready when wanted—these are but a few of the features in which the new Majestic leads.

Some of the tests of the Majestic range have been made by your neighbors and friends. Ask them if their Majestic has given them the splendid service promised. Find out from them about its superior cooking and baking and its real economy.

**GREAT MAJESTIC RANGES**

12-gallon copper reservoir holds water through large pocket extending into flue. Furnished without pump feed if desired. Oven 22 inches deep—either 18 or 20 inches wide. Can also furnish in White, Blue or Gray Enamel trim. White Porcelain Enameled floor rests protect the nickel legs and add to the fine appearance of this stove.

**Jess Warga**

TELEPHONE 400

Heating—Plumbing—Hardware—Wiring—Tin Work.

**PURCHASED A HOME AND ARE MOVING TO TOWN**

Mr. and Mrs. Chris Gauer have purchased the home of the late Judge and Mrs. J. P. Wood on Gospel Hill and are having it decorated and papered preparatory to moving to town in the near future. This is a splendid location and has a beautiful and commanding view and the new owners will find themselves enjoying it more and more as do the property owners who reside on the hills of the town. The consideration was \$4,500 which is surely a bargain as there are six good lots with shade trees of oak and some fine shrubbery and garden plot.

Mr. Gauer and wife have retired from active farm life and have surely earned the right to enjoy a rest from the strenuous work of past years and their many friends will be glad to know that they have selected such a pleasant location and will wish them every happiness in their new home. They will receive a hearty welcome from the people of Louisville, who are glad to see such substantial and splendid citizens move to town.—Louisville Courier.

**A FINE TRIP**

Dr. J. B. Hungate and wife arrived here Friday in their car, from Quantico, Va., where they spent six weeks with their daughter, Mary, and family. Mary's husband, Lieut. F. W. Bennett of the navy, is stationed at Quantico, so the Hungates had the pleasure of getting a taste of life in the "quarters" and they were delighted. The doctor went hunting and fishing to his heart's content and Mrs. Hungate was delightfully entertained by the ladies. She says everybody plays bridge and golf, and if you do not do either you have no social asset to recommend you.

They also visited their daughter, Charlotte, Mrs. K. C. Dodderidge, at Council Grove, Kan. They met Mrs. Hungate's son, William Miller there, who is a civil engineer located at Denver. He is at present in charge of the highway through Turkey Foot canyon which begins at Mt. Morrison and is a big contract. Will has been working on that same job ever since he got back from overseas. He is making good and we are proud of him, for he belongs to us, being for a number of years one of our boys, really growing up in Weeping Water. The Hungates were guests of Mr. and Mrs. Thomas Murty during their stay and had a most enjoyable time visiting all the old friends.

They remained until the roads dried up sufficiently to make it safe to travel. They found some bad roads in Nebraska before they got here.—Weeping Water Republican.

**FROM OUT OF THE ETHER**

A column devoted especially to Radio Fans and appearing each week on Saturdays.

Lots of static now.

Well, we have had a week of Station WOAW. What do you think of them by this time?

Fort Worth Star-Telegram is continuing its re-broadcast experiments with a great deal of success.

Telephone radio parties are becoming quite the thing now when Omaha is broadcasting.

Have you sent in your choice of a silent night to WOAW? Remember, it's being left to a vote of the listeners in by next Saturday.

We are thinking of offering a prize to the person who is able to tune out the Woodmen station satisfactorily.

"Swat the fly" time will soon be with us and it might also be well to swat the guy who rambles thru the greater part of his evening's program without announcing who he is.

For the present at least, WOAW advises they will not be able to furnish weekly programs in advance for publication. Their daily programs, however, appear in the Omaha papers and are accessible to most of our readers.

**With Static Trouble**

Four-year-old Bobby was being taken for a walk on the street and he and his mother passed a gang of Italian workmen jabbering excitedly in their native tongue.

"Oh, mamma," he ejaculated, "it sounds just like the bedtime story on our radio."—Am. Legion Weekly.

**A Set to be Proud Of**

We have received a copy of last Sunday's Fort Worth (Texas) Star-Telegram containing a large picture of the receiving set owned by Harvey L. Gamer, the Cedar Creek electrical wizard. With the inquiry, "How'd you like to own this set?" the Star-Telegram describes it in detail. Seven radio frequency tubes, a detector, one audio frequency and one oscillator tube comprise this set, which receives broadcast programs from all parts of the country, as well as CW signals on wave lengths from 1,000 to 25,000 meters.

**A Worth While Suggestion**

ETAO is advised that a little later in the Woodmen of the World campaign will extend the scope of its programs to talent secured from surrounding towns. Plattsmouth might be arranged. The offering could well include splendid singers, a tip top orchestra, whistling solos, stringed numbers and choruses by the high school students, splendid readings, and the variety that goes to make up the fine community programs offered by the Fort Worth Star-Telegram station with talent from surrounding Texas towns. Why not have someone take up the matter of arranging such a program (1½ hours duration) and proffer it to Station WOAW? It would certainly be a great success and help to advertise Plattsmouth to the four corners of the earth. What do you say?

**For Lightning Protection**

As spring and summer approach with their accompanying electrical storms a word of warning about the placing of a lightning arrester in the antenna circuit of your receiving set is not untimely. Many sets were installed late last fall after the danger from lightning had passed and as a result no precautions were taken in this respect. Underwriter's specifications call for an absolutely safe and approved arrester, located outside the building and well grounded and failure to provide this not only subjects you to the attendant danger of being struck by lightning but renders your insurance void in case your home should be destroyed in this manner. There is no danger whatever from lightning if your set is installed according to rules laid down, a copy of which may be had free upon request from the National Board of Fire Underwriters, 76 Williams street, New York City. Better be safe than sorry.

**WOC's Advance Program**

WOC, at Davenport continues right on the job with good programs all the time. Next week's, as follows, is no exception:

Sunday—Pipe organ concert, 6 p. m. Church service at 7, by F. A. Sword, the "Return Date" evangelist of Lanark, Ill. Subject, "Home—Your Home, My Home and the Other Fellow's Home." Two hour orchestra program by P. S. C. orchestra, commencing at 8 o'clock.

Chimes concert each week day except Wednesday, 5:45 to 6 p. m.

Sandman's visit each week day except Tuesday, 6:35 to 7 p. m.

Monday—Musical program by Coe College Glee club, Cedar Rapids, Ia., 7 to 8, followed by educational lectures at 8 and 8:30, the latter in the Greek language.

Tuesday—Quiet night.

Wednesday—Concert by Mt. Ida Presbyterian church choir, Davenport, 7 to 8. Program furnished by Swedish Baptist church choir, Moline, Ill., 10 to 11.

Thursday—Musical program and evening educational lecture furnished by Rock Island, Ill., Chamber of Commerce, beginning at 7 p. m.

Friday—Orchestra program by P. S. C. orchestra, 7 to 8.

Saturday—Musical program by Girls' Glee club, Penn college, 7 to 8 p. m. Educational lecture at 8. One hour dance program by P. S. C. orchestra, beginning at 9:30.

Subscribed and sworn to before me this 5th day of April, 1923.

Good morning, London; Good evening, Hong-Kong.

—ETAO Signing Off.

**STATE SUPERINTENDENT GIVES VIEWS ON LAW**

Decides that Qualifications for Electors at School Elections Same as Other Elections.

The question of what constitutes qualification for voting at the school elections in the state has been given much publicity in the past few weeks and especially since the publication of the opinion of Deputy Attorney General George W. Ayers on the subject. In a circular letter to the school officers of the state last year, Superintendent Matzen held that the same qualification would apply to school electors as otherwise provided for the electors at other elections.

The letter of Superintendent Matzen will be the basis of the qualification for voters at school elections in Cass county and is as follows: My dear County Superintendent:

Following is the opinion of the attorney general defining the qualifications of a school elector:

"In our opinion the restrictions of Section 6733, Revised Statutes, 1913, restricting the right to vote at school elections to citizens of the United States over 21 years of age who either own property assessed in the district or who have children of school age and who are not in conflict with and are superseded by Section 1, article VI, of the new constitution of Nebraska, which extended the right of suffrage to every citizen, man or woman, over 21 years of age. In such case the constitution takes precedence.

When the statute was first enacted it operated as an extension to women of the right of suffrage in school elections, our state constitution at that time granting the right to vote to men only. Since the adoption of the new constitution, what was formerly an extension of the right to vote now becomes a restriction of the right to vote. This interpretation is substantiated by Chapter 92 of the laws of 1921, which provides that every person 21 years of age shall have the right to vote for all officers to be elected to public office and upon all questions and propositions submitted to the voters at any and all elections, authorized or provided for by the constitution or laws of Nebraska. The language of Judge Maxwell in the Cones case, 15 Neb. 444, when considered apart from the actual determination in such case, would lead one to think that the constitutional provisions do not apply to school elections. Such language, however, was not necessary to the decision.

The new constitution granting an absolute right to vote, out of question, cannot be changed or restricted by legislative enactment.

"Therefore, our conclusion is that every citizen, man or woman, over 21 years of age, who has resided in the district forty days, has the right to vote at school elections regardless of whether he or she owns property or has children. The legislature may extend the right of franchise but it cannot restrict it. The property and parentage restrictions in Section 6733 are superseded by the absolute constitutional grant of suffrage to all citizens."

The above opinion is concurred in by this department.

Yours very truly,  
JOHN M. MATZEN,  
State Superintendent.

Mrs. John W. Falter and children of Falls City, who have been here visiting with relatives and friends departed this morning for Omaha where they will visit at the home of Mr. and Mrs. J. H. Donnelly and family.

The Ladies Home Journal for April is now ready at the Journal Stationery department. Call and secure your copy while possible.

**DELIGHTFUL TIME AT CHURCH PARLORS ENJOYED BY MANY**

Mesdames J. W. Crabill, J. E. Wiles, F. R. Gobelman, L. L. Wiles, A. J. Beeson Entertain.

From Saturday's Daily

One of the most delightful social gatherings of the spring season was held yesterday afternoon at the parlors of the First Methodist church when Mesdames J. W. Crabill, J. E. Wiles, F. R. Gobelman, L. L. Wiles and A. J. Beeson entertained some 160 of their lady friends at two most delightful gatherings.

The parlors of the church had for the occasion been transformed into a very attractive and homelike atmosphere and the decorative features were on a most elaborate scale. The color scheme was in pink, this color being used extensively throughout the room and through the pink shades of the windows over which were placed the snowy white curtains, the soft tints blending in a very attractive manner and on the tables baskets of the beautiful pink roses and pink candles aglow made a scene of attractiveness and charm and the handsome rugs and the comfy rockers placed throughout the room gave it a most delightful touch. Over the electric lights soft tinted shades of pink added to the beauty of the scene and the art place cards of white and pink indicated the guests to their seats.

The hostesses were in the receiving line and met the guests as they entered the parlors and assisted them in the enjoyment of the delightful hospitality offered.

The first of the entertainments was in the nature of a 1 o'clock luncheon and was attended by some eighty of the ladies of the city. The hostesses had prepared a very delicious four course luncheon that was enjoyed to the utmost and the serving was in the hands of a bery attractive and charming ladies whose youthfulness added to beauty of the surroundings. The young ladies serving at both the afternoon and evening courses were Misses Virginia and Helen Beeson, Marguerite and Helen Wiles, Sarah Beeson, Alice Louise and Helen Wescott, Helen Pfoutz, Harriett Northcutt and Miss Kirkpatrick of Omaha.

At the afternoon luncheon the ladies were entertained by a very delightful and well arranged program, one of the features of which was the readings of Mrs. John W. Evans of Omaha, who gave a number of character and dialect sketches that were most enjoyable. Mrs. Roy O. Cole also gave one of her artistic piano numbers and Miss Olive M. Quinn who occurred selections that added much to the beauty of the program.

The second of the luncheons was at 6:30 and attended by 80 guests to enjoy the rare hospitality arranged for them and following the luncheon the ladies were entertained by the program. Mrs. Evans giving her series of sketches that had so pleased the guests at the afternoon and Edna Marshall Eaton gave two very delightful vocal selections, being accompanied by Mrs. Christine Coughlin at the piano and Mrs. A. D. Caldwell on the violin and these features were much appreciated by the guests of the evening.

The out of town guests at the luncheon were Mrs. Jesse L. Root and Mrs. Harry H. Northcutt of Omaha.

**BOY SCOUTS ENJOY AN OUTING AT NEW CAMP SITE**

Hike to F. B. Shopp Farm and Spend Several Hours Very Pleasantly In "Roughing It."

From Saturday's Daily.

Yesterday afternoon the Boy Scouts headed by C. H. Peden and George Brinklow as scoutmasters, hiked to the Frank Shopp farm southeast of the city along the bluffs of the Missouri river and there spent several hours in a most delightful manner in the crisp spring afternoon and evening.

The boys arrived at the farm after their hike and soon were engaged in looking over the surroundings where it is proposed to have a scout camp made the coming summer if possible. The boys also enjoyed a number of out of door games which gave them excitement and amusement and later they prepared large campfires over which they prepared their suppers and the members of the party enjoyed their repast as only youngsters with appetites whetted by the sharp spring winds could do.

After the supper the jolly party played games such as follow the leader until the shades of night had fallen when they took up their journey back to the city tired, but well pleased with the delightful outing.

**Preventative Medicine**

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle. Weyrich & Hadraba.

Sell those articles you no longer have use for by advertising them in the Journal.

**Wholly Socks—**

A whole ad to tell you bachelors how to avoid holey socks. Wear Holeproof Socks—either silk or lisle.

Price 40c, 50c, 75c and \$1

And a thought for thoughtful married men—

Wear our Darnproof Socks. Buy them by the box of 6; guaranteed till next November.

Price \$1.15 and \$1.50 the Box.

"ON THE CORNER"

**SAYS AMERICANS SEEKING GERMAN RAIL CONTROL**

Charge is Made by German Engineer in Speech at Berlin — Also Fears "Mining" Trust.

Berlin, April 6.—Charges that American interests have been trying to get control of the German railroads and that there is imminent danger of a Franco-Berlin combination for a world mining monopoly as an outgrowth of the Ruhr occupation, were made in an address today by Dr. Neuhausen, a well known mining engineer, before the Association of German Engineers.

"Before the war," Dr. Neuhausen said, "Germany led in heavy industry surpassing the English and Americans. The result was the war. Had Germany won and the ore basins of Longway and Briey been made available to her, then the American heavy industry would begin to combine.

"Now it appears a near possibility that France may assume Germany's position. For this she needs coke and the industry of the Ruhr district. America cannot and will not permit France to dominate absolutely in the European mining industry."

"In accordance with its old trust, America is interested primarily in getting hold of German industrial railways. Therefore it is now most highly dangerous to speak of 'prizing' the German federal railways.

"Mr. Lloyd George's plan for Germany, France and England to combine economically against America was shattered through the policy of the foreign minister, Dr. Simmonds. There are well known trust foundations among the Belgians, who perhaps have participated in the Ruhr occupation, just for that reason.

"We face the great danger that out of the natural rivalry between France and America there will eventually develop at Germany's expense a world mining trust, through which Germany would be dollarized and in which England will play the part of him who laughs last and best."

The Ladies Home Journal for April is now at the Journal Stationery department and filled with many interesting and valuable articles by the leading writers of the nation.

**NEW DESIGNS ON PAPER MONEY RECOMMENDED**

Washington, April 6.—Recommendations for a general revision of the designs of all paper money have been almost completed by a special committee of treasury officials and are expected soon to be turned over to Secretary Mellon. If the findings of the committee are adopted the two dollar bill—shunned by the gambler and mutilated by the superstitious to get rid of any ill omen—will be the first to go.

The committee will propose a standardization of designs of all paper money of the same denominations so that the United States and federal reserve notes, gold certificates and other legal tender currency will appear the same except for the designation of its source. These plans call for similarity of color and portraits, which are adopted as the greatest protective feature of modern currency and of general markings.

Abolishment of the two dollar bill is not suggested because of any superstition, the protective features gained by carrying away with it being the influencing factor.

**SEARCHING FOR BODY**

From Saturday's Daily.

The authorities at Omaha and Council Bluffs were busy today in calls to this city trying to fix a report of the finding of a head of a woman in the Missouri river at this place, but the report seems to have been without any foundation. There has been no foundation for the report as far as could be learned here. Residents at the ferry state that they have not seen traces of any floaters in the river and if a body has been found it has been at a point farther up the river. The body is supposed to be that of a woman who committed suicide by jumping from the Douglas street bridge in Omaha.
