GOVERNMENT ALLEGES LUMBER COMBINATION

And Files Suit Against Western Pine Manufacturers' Association, Fifty Concerns.

Washington, April 30.—Injunction proceedings asking that the federal courts put an end to certain operations of the Western Pine Manufacturers' association, comprising about fifty corporations, were filed by the federal government in St. Paul, Minn., today at the direction of Attorney General Daugherty.

The petition charges that the association is a "combination and conspiracy of restraint of interstate trade and commerce in lumber," operating by means of a basic price list arrangement which "never purported to reflect the actual market." The result, it is alleged, is to eliminate competition and form a fictitious price level.

The attack on the Pine association by means of injunction proceedings is in line with the legal policy pursued by the attorney general in the sugar case in New York. The court in St. Paul was asked, as in the sugar proceedings, to enjoin perpetually the association, its member corporations, its officers, directors and agents, individually and collectively, from "further engaging in, carrying out, or maintaining the said combination or conspiracy or any other of like character and effect."

Eighty-six individuals are named as defendants in the case which was submitted after long investigation by the department of justice.

The petition states that many of the defendant manufacturers are incorporated under the laws of Minnesota, and maintain their principal offices within that state, altho a large amount of the lumber manufactured by them is shipped in the course of interstate trade and commerce from the states of Washington, Oregon, Idaho and Montana, in which it is produced, in to the Minnesota district, there sold to wholesalers.

It is there sold to wholesalers and retailers, who in turn sell it to consumers within this district or again ship it into the neighboring states of Iowa and Washington, for sale to dealers or consumers.

The petition charges specifically that the defendant association has for many years prepared, copyrighted, published and sold "basic price lists" which are uniformly adopted and used by the defendant manufacturers.

"The primary purpose of said basic lists," it is alleged, "has been and still is to fix and establish relative values for all the many items of lumber produced and sold by the defendant manufacturers and they also prescribe extra working charges and extra charges for special sizes and lengths on all items furnished which do not conform strictly to the standard grades and specifications adopted by the defendants."

It is charged further that the members of the association maintain uniform practices with reference to the manufacture and sale of their lumber which are contrary to law and operate in restraint of interstate trade and commerce.

COUNTY RECORDS BURNED BEFORE AUDIT

MYSTERIOUS FIRE WIPES OUT COURT HOUSE AT NORTH PLATTE, NEBRASKA.

North Platte, Neb., April 30.—Within a few hours after auditors had arrived from Chicago and Milwaukee Sunday night to examine Lincoln county affairs, practically all county records were reduced to ashes in a blaze of mysterious origin which completely destroyed the old courthouse.

Flames broke out from within the old two-story brick structure shortly after midnight and had spread beyond control at 3 a. m.

Among the ruins was found the old-fashioned safe where county records, bonds and cash were kept. It's time lock had been sprung and its contents were missing.

Insurance of \$20,000 is considered adequate to cover the loss of the building, while the bond issue of \$60,000 can be replaced by the county without loss.

Marshal to Investigate
Citizens here have been assured that a state fire marshal is on his way to conduct an investigation. He is expected to arrive tonight. A probe has been requested by citizens here.

A premonition that the records might be destroyed before being placed in the hands of professional auditors for examination, caused J. H. Edmiston, local attorney and head of the Taxpayers' league to petition county commissioners four days ago for a guard about the old court house. His request was refused even after he had offered to furnish the necessary men and pay them with Taxpayers' league funds.

Some Officials Twelve Years
For twelve years the same officials have been in control of political affairs in Lincoln county.

Four years ago the Taxpayers' league, composed mostly of farmers, demanded financial accounting for the time they had been in office. Shortage of funds for completion of the new \$100,000 court house, now under construction, caused the county voted \$17,000 in bonds to pay for a complete audit of all county records.

Clerk Was Ousted
County Clerk Allen was ousted from office last fall following an audit of his accounts which showed a \$3,000 shortage in funds and is awaiting trial on criminal charges arising out of the investigation.

It is also alleged that there have been irregularities in letting of bridge contracts and in purchase of county supplies.

NELSON WAS OLDEST MEMBER OF SENATE

Washington, April 28.—The death tonight of Knute Nelson, senior senator from Minnesota, aboard a train en route to Chicago, removed from the senate its oldest member and one of those with the longest service record. He was 89 years old, and had served twenty-eight years.

Senator Nelson, although ill last winter with influenza, was active during the last session of congress, and today when he left Washington for his home he appeared in excellent health, although the death of his wife a year ago had greatly distressed him. Those who were closest to him said he never fully recovered from that blow.

President Harding received the news of the sudden death of Senator Nelson, while attending the dinner tonight of the American Society of Newspaper Editors and immediately issued a statement saying that the Minnesota senator was "a stalwart American and performed a most useful public service with a record of great work accomplished."

LINCOLN MAN INHERITS BIG ENGLISH ESTATE

Lincoln, April 28.—John Roberts, 82, Lincoln pioneer, who for a quarter of a century lived in two rooms adjoining his little machine shop, sailed from New York Saturday for his old home at Newport, England, to share the benefits of an estate of nearly \$100,000 left to him by his brother, Henry, stockholder in the Kimberly diamond mines in South Africa. Henry Roberts died last December, leaving an estate valued at \$2,000,000, which was divided equally among survivors.

Mrs. Annie Griffiths of Newport, Monmouthshire, England, came to Lincoln several days ago to accompany her aged uncle back to his boyhood home where he will bank his riches for the remainder of his life.

CHESTER CONGRESSION SIGNED UP AT ANGORA

Great Grant to Americans That Has Excited British and French Capital is Discussed.

London, April 30.—The convention under which Rear Admiral Colby M. Chester, retired, and his associates are granted development concessions in Anatolia has been signed at Angora, the Turkish nationalist dispatch from Constantinople today.

Announcement of ratification by the Turkish nationalist assembly of the Chester railway and mining convention was made at Angora on April 19. Intense interest was aroused by the announcement that an American enterprise had been successful in obtaining development rights of such magnitude. Opposition to anything in the grant that might conflict with the rights of the nationals of other countries which had made commercial developments with the Turks has been strongly in evidence since, notably from French and British quarters, and the subject has been discussed at the Lausanne Near East peace conference.

WERE IN THE GAME EARLY
Although church services by radio are very common now, it may be interesting to recall that a year ago when the first receiving sets were being installed in Plattsmouth, the idea was brand new. The Atlanta Journal station, WSB, was the first to enter this field, installing the required relay apparatus from the station to the First Presbyterian church of Atlanta and morning worship by radio has been a regular Sabbath feature ever since. The anniversary services included a special sermon by the pastor, Rev. J. Sprue Lyons, on "The Voice in the Air."

You will find nearly every magazine published on sale at the Journal office.

SOCIALISTS ASK TAFT TO RESIGN

Because He Continues to Accept Annuity From Carnegie Fund—Unethical and a Menace.

Chicago, April 30.—The national executive committee of the socialist party announced today that it had adopted a resolution urging the resignation or impeachment of William Howard Taft, chief justice of the United States, because of his continued acceptance of a \$10,000 annuity from the late Andrew Carnegie.

"Said William Howard Taft has continued to accept said annuity since his appointment to the supreme court of the United States," said the resolution, "and the acceptance of this annuity, coming indirectly from the steel trust, the most powerful and predatory corporation in the United States, is not only unethical, but a menace to the integrity of our courts and detrimental to the best interests of the American people."

The resolution concluded with a demand "that congress take steps to secure his resignation or impeachment."

INSURANCE MEASURE IS KILLED IN SENATE

Lincoln, April 28.—The state senate by a vote of 18 to 10, Saturday, killed H. R. 722, which would allow fraternal companies to write group insurance the same as old line concerns.

House amendments to S. F. 197, the Osborne beet sugar mill district bill, were concurred in by the upper branch.

These bills were passed: H. R. 165, amended. Barbour's water power and irrigation district bill.

H. R. 147, amended. Allows bonds for new building in larger school districts on three-fifths vote, proposition not to be resubmitted for a year.

H. R. 359, amended. Raises requirements for pupils to attend a nearer school in another district.
