## EAGLE BOYS WIN IN STATE CONTEST

Final Standing Gives Eagle High School Highest Rating Among 23 Contestants.

Thursday and Friday of last week the boys of the agriculture classes of the Eagle high school represented Eagle in the judging contests at the college of agriculture, where about 125 boys, representing twenty-three schools, participated in contests judging livestock, poultry, dairy, grain and woodwork. The final standing gave Eagle the highest rating and therefore state champions for the year, an honor coveted by all but merited only by the best. The pride of the community should be unbounded in such achievement. Alden Colbert of the local school was rated highest of all individual contestants.

The following boys represented the Eagle school: Melvin Beach, Alden Colbert, Howard Spahnle, Geo. Weyers, Albin Welberg, Carl Handrock, Clyde Wenzel, Cecil Jacobson, Donald Snoke, Rudolph Umland, Walter Umland.—Eagle Beacon.

### UNION SHOPMEN ASK RAISE ON THREE ROADS

New York May 10.—The wage increase demands by union shopmen aggregating about \$50,000,000 annually have been presented to three big roads through the railway employes department of the American Federation of Labor, preparatory, it was understood, to taking the case before the United States railroad labor board, the New York Herald said today.

The roads affected are the Pittsburgh & Lake Erie, Baltimore & Ohio and New York Central, which recognize the shopmen's unions. The employes have asked for an increase of 20 cents an hour from 70 to 90 cents "for all machinists, boiler-makers, blacksmiths, electricians, sheet metal workers and carmen."

Most of the 400,000 railroad shopmen of the nation were not concerned in the movement, as they have individual agreements with their roads.

## NEBRASKA TOWN IS HIT BY TORNADO

BUILDINGS DAMAGED AT GRAND ISLAND—HAIL PELTS ALFALFA INTO GROUND.

### A HEAVY SNOW AT BELMONT

Cold Rain in Vicinity of Norfolk—Fear for Grazing Cattle—Wire Service is Demoralized.

Grand Island, Neb., May 11.—A terrific wind and hail storm visited this county, doing considerable damage to buildings, uprooting trees and flooding the country. Both as to the wind and rain it was the severest storm in years.

The gymnasium building at the Grand Island college was totally wrecked by the wind. Its dimensions were 80x60, built of cement blocks. At the American Beet Sugar factory, a section of the roof of the warehouse was carried away and most of the smaller buildings were unroofed. In the city several of the largest trees were uprooted. A number of windows were shattered in the business district.

At the baseball grounds, at least 800 people were huddled in closed cars and underneath the grandstand.

**Cairo Hard Hit**  
At Cairo a Mrs. Hullupp was slightly injured when the wind carried her several feet. At Ravenna the hail is said to have pelted alfalfa into the ground, shattered farm house windows, and to have razed many barns and outbuildings. The telephone and telegraph wires are out west of here on the Burlington.

### Snow at Belmont

Belmont, Neb., May 11.—It is snowing hard at this point and the storm appears to be general throughout this section of the state. The thermometer has made a decided drop.

There is danger to stock at this time of year owing to their weakened condition due to having just started grazing on new grass.

### Temperature Drops

Norfolk, Neb., May 11.—A heavy rain fell all over north Nebraska making automobile roads almost impassable. The opening of the state baseball league here was postponed after the annual parade took place. The temperatures in north Nebraska took a big drop.

### Gale Sweep Galena

Galena, Kan., May 11.—Damage estimated at several thousand dollars was done by a wind storm which hit Galena tonight. Power lines are down and the city is in darkness. So far as reported no one was injured.

All concerned are doing nicely and a smile graces the face of Grandma Earhardt over the pleasurable event.

Earl Wiles has been plowing up a good deal of his wheat this spring, which he is putting to corn, he having at this time converted an eighty acre wheat field to corn, and is liberating on taking the same action on some sixty acres more. This will make Mr. Wiles something over two hundred acres of corn, and will keep him hustling.
