

Listen to Common Sense!

When the Nebraska Clothing Co., who are recognized as the foremost retailers of clothing in the Middle West, pay out their good money for valuable space to say to the world as they did in last Wednesday morning's World-Herald, "THAT MEN'S AND BOYS' CLOTHING PRICES WILL NOT BE LOWER LATER," it looks very much like the period of "watchful waiting" was at an end, and that NOW was the time for ACTION! If you have been putting off the purchase of that much needed new suit for a more favorable market, let us say to you, that the most favorable time is right now. We do not look for clothing to reach the dizzy war time heights, but it will make advances that are quite worth while saving. Our prices now are the lowest since the war and we say with "The Nebraska"—THEY WILL NOT BE LOWER LATER.

TEACHERS LEAVING CITY

The high school teachers who reside at a distance are gradually leaving the city to visit their homes and enjoy the vacation season or a part of it at least, as many of them will take up summer work that will occupy a large part of their time.

Miss Mahel Pollard left yesterday for University Place and from there she will later go to New England. Miss Olive Quinn departed for Gothenburg, where her parents reside and will spend the summer there. Miss Mona Keith departs today for Omaha, Nebraska, to spend the summer there and will teach the coming year in the Alliance schools. Miss Mary Kirkpatrick is at her home in Omaha and will be one of the teachers who will not return here this

coming year. Mr. and Mrs. B. C. Doolen have departed for their old home in southern Illinois, where Mr. Doolen will attend summer school and prepare to resume his school work in the fall, although he will not be back at the local school.

LAND CASE IS TAKEN UNDER AD- VISEMENT TODAY

Trial Lasts Two Days; Many Witnesses Examined to Determine Change in the River.

From Saturday's Daily.

For the past two days the case of the city of Plattsmouth vs. the C. B. & Q. R. R. et al. has been on in the district court before Judge Begley and it was not until late yesterday afternoon that the final testimony was completed for the defendants, the settlers on the land east of the C. B. & Q. right of way, on the bottom land where once the mighty Missouri river flowed.

A greater part of the old residents who were living here in the 80's prior to and during the time of the change in the course of the Missouri river were called upon to testify in the case and gave their respective versions of the incidents connected with the transfer of the main channel of the river from the Nebraska bank to the Iowa side and which at the time caused the destruction of a great many bottom farms on the Iowa side of the river and corresponding land formations adjacent to the Nebraska shore line. One of the main questions in the case was whether the land formed on this side of the river had been onto the main land or from an island that formed in the river.

These changes in the river occurred in the late 80's and there are not a great many here at this time who have been familiar with the changing of the stream and all that could be found were placed on the stand as witnesses in the case on trial.

After the evidence was all submitted the matter was taken under advisement by Judge Begley and will be decided by the court next Saturday.

OIL BOOM IS STILL GOING VERY STRONG

Large Number of Land Owners in Vicinity of Nehawka Lease Land For Drilling Purposes.

James T. O'Hara who has been in this community for several days is progressing rapidly in securing leases of land and expects to have the drilling of a well in progress within the next month or six weeks. He went to Lincoln Tuesday afternoon where he had two maps made of the leased land showing the land formations which he is to furnish to the company which expects to drill here.

Mr. O'Hara informs us there are a few land owners who have hesitated to sign leases and this alone is the only discouragement he has encountered. He must have certain formations to be started and we sincerely trust those who have failed to sign will do so at once. It will cost us nothing to have these test wells put down as the company to do the drilling pay all expenses. While we have a prospect to ascertain whether or not there is oil in this territory we would like to see everyone come in on the proposition and not hold back. "He who hesitates is lost," and while we have such a splendid start let's see it through.

Following is a list of those who have leased land to date: Christian Ross, P. C. Schomaker, Leo Switzer, Carl Balfour, F. A. Cox, R. C. Pollard, Elmer Philpot, J. W. Stoll, G. C. Sheldon, R. H. A VERY RELIABLE INSTITUTION

The Elmwood Mill and Elevator company, of Elmwood, which has recently changed hands, but is remaining under the former efficient management, that of Mr. Boyd, and which is now owned by Messrs. Boyd and Schlanker, is an institution that is doing much business and producing two justly celebrated brands of the best of flour. They are "Golden Gate" and "Cala Lily" and are among the very best on the market, regardless of price. By reason of being located in this vicinity they can sell their product at a price that will more than save the freight difference, which item alone amounts to quite a little on each sack shipped in from more distant points. See their ad in this issue of the Journal and the next time you go to buy flour, just ask for one of the other of these popular Elmwood mills brands—both are good and absolutely guaranteed to give baking satisfaction.

Yesterday afternoon in Omaha Miss Yolanda Alix and Mr. Charles Tilton, both of this city, were united in the bonds of holy wedlock. The event came as a surprise to the relative and friends of the contracting parties as they had kept the fact of their approaching marriage a close secret and it was not until they returned home that the news of the happy event was revealed.

RECEIVES GOLD DOLLAR AS GRADUATION GIFT

Bernice Colbert is the proud possessor of a gold dollar 63 years old. Her grandmother, Mrs. Ira Bosworth having known of their existence many years ago conceived the idea of obtaining one, but it proved a long and difficult proposition.

After inquiring at the two banks of Weeping Water and the bank of Wabash, the Wabash banker, Mr. O. Thomas, kindly consented to give his attention to the matter. He proceeded by writing to the government at Washington, D. C., and several mints, but still was not able to locate one. After inquiring at several banks in Lincoln he found a cashier who was the possessor of one. He finally consented to part with one at a premium.

The dollar is much smaller than a dime and is about one-half as thick. Bernice would be glad to show anyone the dollar who expresses such a wish.—Weeping Water Republican.

SHOPMEN HAVE AN EVENING OF SPORT LAST NIGHT

Wrestling and Boxing Features of Meeting of the M. D. A. at the Modern Woodmen Hall.

From Saturday's Daily.

Last evening after the business session of the Mechanical Department association of the Burlington had concluded the members enjoyed a fine sport program at the Modern Woodmen hall where they are holding their sessions. The events consisted of boxing and wrestling events that were all fine and kept the audience on their feet cheering and urging on their favorites.

The first was a wrestling match between Howard Fackler, 169, and John Heyerman, 170, a nine minute exhibition which went the limit without a fall.

George Schmaeder, 140, and Fritz Manners, 135, gave a fast exhibition in what was to have been four rounds but which was stopped in the second frame because Schmaeder was giving the blows a little too swift, which was against the rules adopted. Whiteman, 145, and Fulton, 155, gave two, two-minute rounds of exhibition sparring with no decision.

Frank Marche, 150, challenged anyone in the house for any kind of a match at any weight and his challenge was accepted by Charles Green, 140, to wrestle to a fall. Marche won in seven minutes.

Tom Hotchkins, 170, challenged anyone in the house at any weight over his own, to go on with him and the offer was accepted by Oliver M. Harvey, 220, and as the result Harvey won a fall in one minute and later efforts on the part of the wrestlers failed to give either another fall.

The main event of the evening was Harry (Swede) Hentz, 140, and Jim Hart, 185, which was fixed for 10 three-minute rounds. Both of the boxers have a brilliant record and proceeded to mix it very lively from the first sound of the gong. The "Swede" was the aggressor from the start and in the first round showered a number of blows on Hart that made him groggy. In the opening of the second Hart came back strong but was soon punished by the punches of the "Swede" and was knocked to his knees by the stiff punches of Hentz and when the round had progressed for a minute and a half Hart was knocked out for the count.

FAREWELL PARTY AT HENRY BORN HOME

Senior Class of High School Indulge in Last Party at the Home of One of its Members.

From Saturday's Daily.

The last gathering of the senior class of 1923 of Plattsmouth high school, occurred last evening at the beautiful country home of Mr. and Mrs. Henry Born, when Leonard Born, one of the seniors, was the host to the other members of the class in the farewell party of the year.

The members were conveyed to the scene of the pleasant gathering in autos and enjoyed to the utmost the occasion when they were gathered together as a class for the last time. With only the exception of two members all were assembled at the hospitable Born home.

The evening was spent in games of all kinds, a number of them being played on the spacious lawn and which were enjoyed to the utmost by all of the members of the class.

At an appropriate hour a dainty two course luncheon, served by the committee composed of Marie Hunter and Bernice Aull, added to the enjoyment of the members of the jolly party.

FIXING BAD ROAD

The changes in the roadway just south of the town of Elmwood, which have been considered for some time, are now being pushed to completion and before the full stream of the summer auto travel is on, the road will be one of the best and safest in the county. The road has been straightened on this part of the "O" street road and instead of making the short turn there the road will run on straight instead of making it necessary to make a turn when coming from the east or west along the highway. There have been a number of accidents there in the past and it was to eliminate this that the commissioners have been laboring for the past year. It is stated that the grading there will require some four or five weeks and will then connect up the road in fine shape as a large concrete bridge was put in there some time ago, north of where the present bridge is located.

Whooping Cough

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take. Weyrich & Had-raba.

William and Edward Mutschulatt, who have been attending the state university at Lincoln, came in last evening to spend the summer vacation here visiting with their parents and friends.

PROBABLY half the motorists of America ride on Fabric Tires. By the hundreds of thousands they have stuck to "Usco" year in and year out. If there ever was a tested money's-worth "Usco" qualifies—and to spare.
