

### Acme Pig Meal Equal to Milk

Protein 28 1/2%

If you could buy milk for 3 to 3 1/2c per gallon how much would you buy? ACME PIG MEAL is fed as a slop for 3c to 3 1/2c per gallon (or dry in self feeders), and

### Does All Milk Will Do

When fed to the suckling pigs, it so takes the place of the MOTHER'S MILK, that the pigs wean themselves at 8 weeks of age, RETAINS THE BABY FAT, and prevents the RUNTS and SET-BACKS so common at the weaning time.

### What More Can Milk Do?

These WINTER PIGS were fed ACME PIG MEAL and mother's milk. ONLY (no other feed), when 90 Days Old Weighed 71 Lbs. Each

Were fattened Sept. 28th, 1921. Fed by Blaine Moore, Sheridan, Indiana. Weaned at 8 weeks.

The Cost, With Mother's Milk, Was \$1.66 Each

### Acme Pig Meal is a Complete Ration

Prof. Henry says "Rations high in protein carry the MINERAL ELEMENTS which grow the bones and frame." Acme Pig Meal contains double the protein of other rations. \$9c to \$1.00 worth of ACME PIG MEAL and grass feeds each pig until 90 days of age.

For your brood sows, a gallon of Acme Pig Meal slop is equal to a gallon of milk.

Send for free books and prices.

### Acme Manufacturing Co.

who also makes Acme Milk Food (for chicks)

Acme Calf Meal (equal to milk)

Acme Worm Bouncer

Acme Louse Powder

Acme Minerals (for hogs)

### READ THIS TESTIMONIAL

Here's Home Proof

Weeping Water, Nebr., May 18th, 1923.

ACME MINERAL CO., Wheaton, Illinois.

I am raising hogs on my farm some six miles from Weeping Water, Nebraska, and have been having considerable trouble with my hogs. I have been feeding a so called Stock Food, or Stock Powder for some time, and my hogs look sick. I lost five large hogs, had three large sows down behind and all of my hogs were off feed.

After reading some of your literature, I sent to your agent at Union, Nebraska, Mr. Joe Lidgett, and secured a hundred pound sack of Acme Minerals.

Ten days from the time I began feeding your Acme Minerals, my hogs were on full feed again, and the three sows that were down in the back, were up on their feet and show no signs of weakness.

I sure cannot say too much for your needs and will recommend your Acme Minerals and Pig Meal to all my hog raising friends.

Mr. C. M. Jenkins, your agent, called on me after my hogs were all up and on feed again and I purchased Acme Minerals and Acme Pig Meal and will continue to feed same as long as I am in the hog raising business.

Very truly yours, MARY E. SHIPMAN.

### Remember ACME Minerals are NOT a Stock Food

Beware of anybody selling other minerals claiming they are like Acme Minerals. Be sure and buy only Acme Minerals made at Wheaton, Ill., which are SOLD ONLY BY DEALERS MENTIONED IN THIS ADVERTISEMENT. We are making up a carload of ACME MINERALS and ACME PIG MEAL. Order your season's supply NOW and save freight over local rates. All prices on ACME MINERALS and ACME PIG MEAL are f. o. b. factory, Wheaton, Illinois.

DEALERS

Joe Lidgett... Union, Nebr.

C. M. Jenkins. Weep'g Water

Carl A. Prince... Eagle, Nebr.

D. B. Gunn, Fieldman

Chamberlain's Colic and Diarrhoea Remedy

Every family should keep this preparation at hand during the hot of the summer months. It is almost sure to be needed, and when that time comes, is worth many times its cost. Buy it now. Weyrich & Had-raba.

### FROM OUT OF THE ETHER

Radio News Broadcasted each Saturday by Station ETAO.

Obsolete radio term, "45 miles from Wahoo."

Nebraska City will broadcast a good program Tuesday night.

J. H. Sweet will give the "three-minute" talk on Nebraska City.

A new station opened in Omaha Monday night, operated by Central high school. Their programs will be broadcast on a low meter wave.

The voice of ETAO has been "lino-typed" prior to departure of ye announcer for a few days' recreation up-state. So this may be sort of "canned music," so to speak.

Other towns to broadcast in the next few weeks from WOA-W are: Wood, Iowa, June 18; Farragut, Iowa, June 23 and Weeping Water, with a religious program on Sunday night, July 22nd.

Just as we are beginning to get the term "meter length" fixed in our minds, the Bureau of Standards proposes to do away with it this winter and talk in nothing but terms of "kilo cycles" whatever they be.

We have been asked to secure quotations on carload lots of the "Golf-er's Special" receiving set we mentioned last week, as none of the local golfers want to let their new sport hinder their usual (?) hearing of the Sunday morning sermon.

A friend calls our attention to the fact that it was August last year before the DX stations began coming in, and expresses belief that it isn't static that hinders them so much as the "growing" season when plant life is vigorously pushing its way skyward and incidentally absorbing a lot of radio energy.

Here's ETAO's highest wave length (12-pitch, damped and undamped). If you can't get us on this, you are certainly in need of about three stages of Eye Glass amplification.

Plattsmouth's second broadcasting night from WOA-W will be Tuesday night, July 10th, 1923. Two previously assigned dates proved unacceptably because members of the band could not get away on the nights specified to fill their engagement. Watch for further announcements on this program.

Last Call on This

For the third and last time, we're telling you, better install a lightning arrester on your aerial—if you have not already done so.

You Meet Them Every Day

Radio, like golf and fishing, is quite an "Ananias" man's game. A certain class in each "spoot" you over the length of their teeing drive, the size of their catch, and the wonders of their receiving range, depending upon which division of the "club" they happen to be actively interested in just now.

Extra—Extra—Extra

The following radio message has been received by ETAO from the new Plattsmouth golf course:

"Just leaving the first tee, when heavily built man (no names) holding handful of perfects, approached his caddy and said: 'Do you smoke, sonny?' 'Yes, sir,' said the boy eagerly, 'noting the cigars.

"Guess I'll carry them myself, then," said h.b.m., walking away."

Candy Fans, Sit Tight

Hold your candy taste in check a little longer—that is if your guess was close to 1,300 miles. A message has been received prior to the departure of ETAO from the city Thursday announcing The Dalles, Oregon, winner of the long distance prize in Plattsmouth night contest, and that the distance was exactly 1,300 miles.

The candy winner will be announced as soon as committee checks up the guesses.

Open Air Radio Concerts

Station WSB at Atlanta has fitted up two large receiving sets with loud speakers in Atlanta's two leading parks and each night when "The Voice of the South" is in the air, the out-door throngs at these recreation centers are entertained by radio. It is an idea that might well be copied in other large cities and will prove much more popular with the public than the old style band concerts which, of necessity, were limited to once a week frequency. The radio concerts are maintained by WSB entirely without cost to the municipal government.

Later Broadcasting Hours

WOC at Davenport has moved its Sunday night orchestra program up another hour since last week, beginning at 9 and ending at 11. This will be a great improvement over the country generally. But of course in this immediate vicinity, WOA-W's offering will drown them out, as on Saturday nights when they broadcast a dance program simultaneously with the hours WOA-W is in the air. There are no evening programs on WOC's new summer schedule on Monday, Tuesday, Thursday or Friday evenings. Wednesday night's pipe organ concert begins at 8 and from 10 to 11 this coming Wednesday night the Galva (Ill.) military band will furnish the program. Following this WOC broadcasts a "Tourists' Road Report" service for its traveler-listeners at 11 o'clock. Saturday night the regular dance program is given from 9:30 to 10:30.

### LOCAL NEWS

From Thursday's Daily.

John W. Falter of Falls City is here to spend a few hours looking after some matters of business.

Mrs. Frances Valley of Lincoln was here over Decoration day visiting with her relatives and friends.

DRIVE AN OVERLAND AND REALIZE THE DIFFERENCE

### MARRIED AT PARSONAGE

From Saturday's Daily. This morning at the Methodist parsonage, Mr. Charles Van Scoyoc and Miss Mary McGrew, both of Louisville, were united in marriage by the Rev. Frank E. Pfoutz. The newly weds returned after the wedding to Louisville where they will make their home in the future and where they will be at home to their many friends. Mr. Van Scoyoc is well known in Louisville where he has made his home for a great many years and is engaged as a brick mason. The bride has been one of the very successful teachers in the Louisville schools. The many friends of the newly weds will join in showering them with congratulations.

W. E. KEENEY.

### CARS START WEST TO MOVE THE WHEAT CROP

Railway Commission Certain of a Good a Supply as Last Year—May Not Be Enough.

Lincoln, June 1.—A substantial movement of empty cars westward is forecasting a supply on hand when the wheat crop begins to move to market in Nebraska by mid July, it was announced this morning by Thorne Browne of the state railway commission. Commissioner Browne's information was based on a telegram received by the commission this morning from M. J. Gormley, head of the car service bureau of the American Railway commission. Gormley's telegram informed the commission that 20,000 empty cars were already started west and that the movement was increasing so that by the time the wheat crop begins to move there should be cars here to move it with. "That does not mean that we will have enough cars to haul all the crop to market, however," Mr. Browne cautioned. "The fact is that there will probably be no more plentiful supply than there was last year. But it will be as good as last, very probably."

The Home of the Soul

In olden times, it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter. Weyrich & Hadraba.

ROUNDING UP JURORS

From Friday's Daily. Sheriff Quinton was out today rounding up additional jurors for the petit jury panel for the May term of the district court which will convene on June 4th and which will be opened by the Cotton trial, which will probably be the main task of the jury for the term.

### HARDING WILL NOT CUT SUGAR TARIFF TO REDUCE PRICE

Decides This After He is Advised Inquiry into Reasonableness of Rates Not Finished.

Washington, June 1.—President Harding will not consider a modification of the tariff rates on sugar as a means of bringing down the price of that commodity, it was said today at the White House after the executive had discussed the general tariff situation with Chairman Marvin of the tariff commission. Modification of the sugar schedule in the opinion of the president, could not affect the present situation to any considerable degree and, moreover, would discourage further development of the American domestic sugar industry, which the president believes provides the surest way to remedy conditions that now prevail. Chairman Marvin of the tariff commission was called to the White House by the president, who inquired as to the progress of the commission in several rate inquiries under way. Afterward the chairman said that recommendations in the case of two or three schedules and possibly of four or five, would be ready to submit to the executive prior to June 20, when he will leave on his trip. The rates involved were said to be of

importance to the industries involved.

Mr. Harding is expected to devote one of his western speeches to the tariff, dwelling particularly upon the flexible provisions which he regards as one of the most valuable sections of the act. By having acted on recommendations for alterations in rates as provided under the flexible provision, the president would have specific instances to cite as examples of the usefulness of the section.

The inquiry into the reasonableness of the sugar schedule, which the commission has instituted, is progressing. Mr. Marvin said, but will not reach the stage where recommendations can be made to the president before he returns to Washington in August or September.

### Why Suffer from Rheumatism

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism. Weyrich & Hadraba.
