Saving On Good Tires!

While tires have advanced during the early portions of this season, we have a stock of the best makes, among which are Goodrich, United States, Fisk and Racine, which we are selling at former prices. Size 30x3 1/2 at \$11.25 (regular price, \$13.50). This price also applies to all other sizes in proportion but is good only until stock is reduced.

The Lundberg Garage

Nehawka, Nebraska

Mrs. Jesse Rice and son Basil have been visiting with friends north of Nehawka for a few days past.

Mr. Thomas Troop of Plattsmouth is assisting in the work at the home of W. O. Troop for the present.

Geo. Everett and daughter were visiting with friends near Murray last Monday, driving over in their car.

Clarence Peck of Ashland was spending last Sunday at the home of Mrs. Peck's parents, Mr. and Mrs. W. A. Lewis.

Miss Velma Cramer of Fort Crook was a visitor during the past week at the home of Mr. and Mrs. Earl Lancaster.

C. M. Christy was looking after some business matters in Plattsmouth last Friday, making the trip in his truck.

Frank Boggs was transacting business in Plattsmouth last Tuesday, where he is working at the insurance business.

Mrs. E. Nutzman, Hope St. John, Mrs. Henry Ross and "Buster" St. John were enjoying a visit at Lincoln last Friday.

The family of W. O. Troop are all enjoying a siege of the mumps, Master Earl being the first one to grapple with the malady.

Elmer Philpot shipped a number of hogs to the South Omaha market last Monday they being taken via truck by W. O. Troop.

W. B. Dale who has been working in the Burlington paint shop has moved to Plattsmouth and is now at home to his friends there.

Frank Schlichtemeier and Robert Troop were business callers at Nebraska City last Friday they taking some stock to the market there.

J. W. Edmunds of Murray was a visitor in Nehawka last Monday coming in with his truck to secure a load of feed for his store in Murray.

Master Thomas Troop and Miss Lois Troop were attending the Tom Thumb wedding at the entertainment at Murray last Saturday evening.

Mr. Elijah Green of Atchison, Kansas, was a visitor in Nehawka during last week, a guest at the home of his daughter, Mrs. J. P. Douglas.

Mrs. Z. W. Shrader was a visitor in Plattsmouth last week for a number of days where she was assisting her daughter, Mrs. R. M. Christy, to move.

Misses Feltes and Wood are painting the county home of Mr. B. Wolph southwest of Nehawka and when completed will be one of the most beautiful of homes.

Last week Frank P. Sheldon and wife went to Denver where they remained for the week and returned home on last Monday. Mrs. Sheldon remaining for a longer stay.

George McLean while working in the Plattsmouth shops had the misfortune to have one of his thumbs cut which prevented him from his doing his accustomed work since.

Robert Troop purchased a new binder which he got through the Plattsmouth Implement Co. agency, and immediately got into the field with the machine to harvest his wheat.

Warner Munn has been repainting and putting in proper condition the tractor and threshing outfit of Al Bodecker that he may get at the work of threshing as soon as harvest is over.

O. T. Leyda was looking after some business matters in Weeping Water last Friday and was accompanied by...

This is the famous "Research" motor oil—for the automobile, (the proper kind for each car) the tractor and the truck.

Your repair work carefully looked after.

Johnson Auto Co.

J. M. Johnson, Manager

Nehawka, Nebraska

Elizabeth Chappell, Genevieve and Isadore Stone went to Omaha last Sunday where they visited with Mrs. Sturm at the hospital where they found that lady making very rapid progress in her convalescence and was much pleased to have the visit. Mrs. Sturm is making such progress that she hopes to be able to return home sometime during the present week.

Odd Fellows Elect Officers

At the recent meeting of the Independent Order of Odd Fellows, they elected officers for the coming term, their selection resulting as follows: Herman L. Thomas, N. B.; Geo. Huber, V. G.; Chalmer Switzer, recording secretary; J. G. Wunderlich financial secretary, and Leo Switzer, treasurer.

Nehawka Wins the Game

In a contest between the ball team of Nehawka and one from South Omaha it seemed one sided and looked like taking candy from a kid, as the Nehawka boys won out in the game by a score of 13 to 1.

Making Things Look Better

At the Lundberg garage things are looking much better with the new engine and gutting and the new air machine with water combined and the new gas service stand and pump which is being installed the place is being improved greatly and which will add to the ability to serve the public and lessen the work of Mr. Lundberg and his assistants.

MRS. MARY WATKINS DIES

Mrs. Mary Watkins, wife of B. G. Watkins, living northeast of Nehawka and northwest of Union, who has suffered a long time with cancer, passed away at a hospital in Omaha last Sunday where she had been for treatment for some time. Mrs. Watkins, who was a most estimable lady, had suffered for a long time with this disease which kept eating her life away. She has been to many physicians and institutions for treatment but to no effect. Mrs. Watkins leaves two sons, John and James, as well as one step-daughter, Mrs. Chauncey DeScoop, and husband to mourn her death. The remains were brought to Nehawka and then to her home on last Monday afternoon from Omaha, the funeral occurring at the home Tuesday afternoon, being conducted by the Rev. W. A. Taylor of Union and the interment being made at the beautiful Mt. Pleasant cemetery.

THE SAME OLD STORY

American tourists who are caught in Europe with travelers' checks issued by a private banking house that is now defunct find themselves in a most embarrassing position. Unless they can secure funds promptly from other sources many of them will doubtless be stranded.

In their unhappy predicament there is a lesson for every prospective American tourist abroad and for everyone who has occasion to make foreign remittance of any kind—the lesson is to deal only with firms who are obliged from time to time to give a public accounting of their affairs.

Foreign exchange dealings have, with the depreciation of foreign currencies and wide speculation in them attracted into the field scores of mushroom dealers looking for quick and easy profits. That they have been able to build up considerable clientele in the face of the excellent services offered by well established banks and investing houses in all parts of the country is a reflection on the business acumen of thousands of American citizens, but the fact remains.

It is a situation comparable in fact with that existing in the investment field. Legitimate houses market the best of issues with great difficulty while the fly-by-night competitors make away with millions of salvage annually. As regards the remedy it is also the same. The task of house cleaning must be undertaken by those who expect to be in business the second and third and fourth time their clients are in need of service.

FARMS FOR SALE

Two good farms four miles south of Plattsmouth, well improved, 160 acres at \$225 per acre; 135 acres with two sets of improvements at \$200 per acre. Also one modern house and eight other residences in Plattsmouth for sale. Cass county land for sale—207 acres at \$125 an acre; 200 at \$100 per acre. Also fine farm of Albert Schafer.

DOUBLE HEADER HERE FOR NEXT SUNDAY

Omaha Team of the Burlington Shop League will Come Down and Give Fans a Real Treat.

On next Sunday afternoon the Omaha team of the late Burlington League will be here for a game with the local team of the "Q" league and for the benefit of the fans a double header will be staged, as the Omaha team was unable to complete their previous contest with the Plattsmouth team in Omaha and the two will be played off here.

In the game in Omaha there were four innings played and the locals had the edge of it by the score of 4 to 0, but the rain prevented a decision and the fans are looking forward to the game here Sunday with the greatest of interest.

ARITHMETIC WAS KNOWN TO THE ANCIENT INCAS

Existence of Well-Developed System of Figuring Proven.

Lima, Peru.—The fact that ancient Inca civilization in Peru possessed an efficient calculating machine has been established by a recent discovery of Francisco Loaysa of Lima. The instrument consists of a knotted cord or "quipu," unearthed in a prehistoric tomb near Cajamarca.

While it has been well known that the Incas made use of "quipus" in common with many other aboriginal peoples in the new world, Loaysa is the first historian who has been able to interpret and describe fully the use to which this device was put. His studies show that the Incas had well-developed system of arithmetic, based on the decimal system, and that they employed the "quipu" for purposes of rapid calculation in subtraction, multiplication and division.

The "master quipu" discovered by Loaysa consists of a cord about 18 yards long, containing 100 knots. These knots are divided into 10 unequal sections by as many silver beads, representing the odd numbers from 1 to 10. The sections are of different colors, including brown, yellow, blue and green.

The colors are important factors in the calculating process. The silver beads placed between the groups represent the even numbers from 2 to 20. By counting according to the rules discovered by Loaysa, all arithmetical operations can be carried out in a rapid and mechanical manner. Calculations involving tens, hundreds and thousands are possible by this device. Many simple forms of "quipus" have been found in Peru, but this is the only highly developed one yet discovered. These master cords were not in ordinary use, but were probably reserved for the royal statisticians.

GOLF SUPPLIES HERE

The Journal Stationery Department has just received a complete line of golf supplies, clubs of all the best makes as well as a large line of the best golf balls on the market. The line is now on display and the golfers of the community may find their needs in this line looked after in first class shape by calling at the Journal.

Sell those articles you no longer have use for by advertising them in the Journal.

SINGAPORE NOW WORLD GATEWAY

Britain Plans to Make It an Impregnable Naval Base.

CENTURY AGO IT WAS JUNGLE

"Singapore, which by a vote in the British house of commons is to have \$50,000,000 expended on it to make it an impregnable naval base, already is heavily fortified, and in strategic position is the Gibraltar and Aden of the Far East," says a bulletin from the Washington headquarters of the National Geographic society. "The great trading center and fortress of today is a shining example of how Great Britain has 'muddled'—as the British themselves put it—into possession of some of the world's most important strategic gateways. Singapore is an island 27 miles long by 14 wide and just misses being the southernmost point of the continent of Asia by a narrow water channel. It is at the funnel point of the Strait of Malacca which extends between the Malay peninsula and the island of Sumatra, the great water highroad between India and China.

Deserted Jungle Century Ago.

"Little more than a hundred years ago the island, owned by the sultan of Johore on the nearby mainland, was a deserted jungle save for a little fishing village. Ships in the China trade passed it by as they passed many another jungle shore; the only ports of call in that region of the world were those on the Dutch islands of Sumatra and Java. But these ports took a big toll in fees, and Sir Stamford Raffles, an official of the East India company, began to dream of a free British port that would facilitate trade. In 1819 he obtained the seemingly worthless island of Singapore for his company for a small fee. Developments quickly proved him a prophet, for within two years the little trading center here established had a population of 10,000. It was only in 1822 that the British government consented to take an interest in the place.

"In the little more than a hundred years since it was founded the jungle of Singapore has given place to a huge city of close to 400,000 population, carrying on trade valued at \$1,000,000,000 annually—one of the metropolises of the British empire.

"Though Singapore is free from duties, and to this fact owes its very existence, still the people who make up the city take their toll from the stream of world trade that flows about them. They live, in fact by and for and in an atmosphere of commerce. Tens of thousands make their livings by earning for shipping, conditioning and supplying vessels, and taking part in loading and unloading goods. The port is primarily a transshipping point for both imports and exports. It gives what the economists would call 'place value' to hundreds of commodities which trickle to Singapore's reservoirs of goods from scores of districts in the East and are there obtainable in the large quantities that world trade demands. In the city's 'godowns'—as the East calls its warehouses—are handled a very large part of the world's finest rubber before it begins the long journey that will take most of it eventually to American highways. So, too, much of the world's tin is smelted in and shipped from Singapore. It might be dubbed 'the world's pepper pot,' for more pepper is assembled there than is ever held in any other port.

"If ever a city could claim to be cosmopolitan, Singapore can.

'Rikisha or Auto.

"The appearance of Singapore shows its mixture of many influences. The visitor may ride in 'rikishas' or electric cars, automobiles or ancient horse-drawn carriages. In the chief business district he sees modern streets and buildings, and in the Asiatic quarters he encounters facilities and sights and odors that smack of the Orient. Singapore's houses of worship furnish an excellent index to its varied life. There are Christian cathedrals and churches, Moslem mosques, and the temples of half a dozen or more Indian and Chinese and Japanese faiths.

"Without making use of reiteration one can hardly describe the physical aspects of Singapore island adequately. It is an island of red, red soil and green, green verdure. The soil is poor, but since Singapore is almost at the equator and moist, vegetation might be said to grow furiously. There is an unending fight between it and the coolies who strive to prevent its vivid green waves from engulfing the conspicuous red roads and cleared spaces.

"Sir Stamford Raffles, who planted the seed of their great city, is revered by all thoughtful people of Singapore. Streets and quays and squares and public buildings are named for him."

Prince Ski, "Movie" Dog, Is Dead. Prince Ski, the famous \$5,000 "movie" dog, is dead at the home of his owner, W. B. Harkins at Culver City, Cal. Prince Ski, a white wolf-hound, appeared in many scenes where he strolled along beside society women. His salary was \$30 a day.

Bess Ignored Robbery. Unpunished by the bees when they tried to steal honey from hives belonging to William Libby, in Portland, Me., four small boys appeared in court, were given a severe lecture by the judge and released.

"ON THE CORNER"

TENSION BETWEEN FRENCH AND POPE

Situation Arises Over Recent Letter from Vatican with Regard to Occupation of Ruhr.

Rome, June 30.—A tense situation has arisen between the vatican and the French government over the pope's recent letter with regard to French occupation of the Ruhr.

Announcement today that a reception planned to be held at the French embassy to the vatican July 3 had been postponed indefinitely, increased the tension of the last twenty-four hours and was given significant political interpretation.

Announcement of postponement of the scheduled reception followed action of the leaders in the French senate Friday, repudiating suggestions of the pontiff.

While a spokesman at the vatican let it be known that the pope believes his letter was misinterpreted in French circles, there is a strong feeling that his efforts to remedy the situation were not received in the spirit in which they were made.

The Italian newspaper Messaggero stated that the French ambassador Jonnart has been instructed from Paris to seek explanations at the vatican. Jonnart, it is said, intends to inquire as to the motive of the pope in speaking for French evacuation of the Ruhr.

The paper foresees that the vatican will take the position that no denunciation of French political policy or approval of the German position was made. The vatican will reaffirm its stand that all interested parties should hasten the return to normality as suggested in previous papal documents, the paper adds.

It is denied that recall of Jonnart is being considered as a result of the situation.

Paris, June 30.—The French chamber of deputies has set next Friday as the date for interpellating the government on the message of the pope. The senate is strongly aligned against the suggestion of the pontiff for French evacuation of the Ruhr.

NEBRASKA UNIVERSITY ENGINEERS BELONG TO SOCIETY

Dean O. J. Ferguson of the college of engineering was elected vice president of the society for the promotion of engineering education at its annual convention recently held at Cornell university. Prof. George E. Chaburn, former president of the society and member of the council accompanied by his wife and daughter, Frances, also attended the convention. The society is the outgrowth of a meeting of engineering educators at the Chicago World's fair in 1893. A special board is now studying the objects of engineering education and the fitness of the present day curriculum for preparing the student for his profession. It will study the process by which the curriculum of 50 years ago has come to its present form; it will seek the weaknesses of the curriculum; and it will suggest such changes necessary for a better course of study. Nebraska will appoint a committee to aid in this investigation. At present the five year curriculum is under discussion at several schools have drafted an enlarged program awaiting final action this fall. Action may be delayed to await the report of a special committee. Fourteen Nebraska college engineering faculty members belong to the society. The next annual meeting will be held at Boulder, Colo.
