## ENGLISH VIEW OF PROHIBITION IN UNITED STATES

London, July 16.—The government today published an official paper embodying a memorandum by Sir Auckland Geddes, the ambassador at Washington, on the effects of prohibition in the United States. Stating the claims made in America of economic benefits, increased wages, heavier savings bank deposits, the memorandum says: "So many other factors have contributed to restore economic conditions since the war that it is almost impossible to form any estimate of the extent to which prohibition has contributed to this recovery or otherwise."

Sir Auckland says prohibition on the whole has been effective in the rural districts and in the smaller towns throughout the country, but has been less effective on the eastern seaboard and in the vicinity of the great lakes, where powerful organizations of liquor smugglers have succeeded in effecting a regular traffic in imported Mexican liquor. Large quantities of homemade liquor also have been brewed, the memorandum set forth, but it has proved to be poisonous in many cases, and the practice is reported to be on the decrease.

Referring to the economic effects, the memorandum says that since adoption of prohibition a marked increase, which is computed at 40 per cent, has taken place in the amount of savings bank deposits.

According to the association against the prohibition amendment, many Americans who formerly drank little or nothing now conform, say the memorandum, to a "fashionable habit" at social gatherings of carrying small pocket flasks of home brewed or imported spirits.

## DEMANDS AID FOR FELLOW FARMERS

### Big Sweed, Candidate for Senate in Minnesota, Says Opponent is Not a Real Farmer.

St. Paul, Minn., July 13.—Magnus Johnson, "dirt farmer" candidate for United States senator today demanded that the government buy the nation's surplus wheat crop. The Swedish terror of Governor J. A. O. Preus, republican administration candidate lifted his feghorn voice—developed by blowing glass in a factory in the old country—and knocking the government buy his platform to a farmer-labor party meeting.

"I am for the United States government to establish a reserve wheat supply," he shouted, "maybe 500,000,000 bushels, maybe only 200,000,000 bushels—any way, emergency legislation should give us warehouses to store surplus wheat."

"Remember the rule—seven fast years, seven lean years—and you know what we have got. After while when we want the wheat we don't have it. The government should buy it and keep it. Then we will have it."

"Europe don't want it. They can't buy it. These fellows talk about Europe. I was over there. I was born there and lived there until I was twenty years old. I know all about Europe. There is no foreign market for wheat. What can we do with it? We can't give it away—well, maybe we give some of it to the poor, starving children—but we've got to give the farmers a square deal."

"If I'm elected Monday, I don't know what I'll do with the tariff. I'm against this Fordney-McCumber bill."

Governor Preus came in for a denunciation from Johnson.

"Yake, you know, claims to be the farmer's friend," he said. "Say, he admitted one day, Yake admitted he didn't know the difference between a Holstein and a Jersey cow."

"I don't know who is the best man for president," he said, "but I'm going to vote for Henry Ford."

Johnson is conceded a good chance of winning over Preus at the special Minnesota election to elect a successor to the late Senator Knute Nelson, July 16th.

## NO STREAM OR LAKE IN IOWA IS SAFE FOR DRINKING USE

Iowa City, Ia., July 16.—A warning against the use, for drinking purposes, of stream or lake water that has not been treated, has been issued by Jack J. Hinman, Jr., chief of the water laboratories division for the state board of health at the University of Iowa. No stream or lake water in Iowa is safe for drinking purposes without treatment, he said.

This limits the use of untreated waters to three sources, according to Mr. Hinman, namely, rain water, spring water and well water, for while many examples of each of these will be found polluted, he said, a great many more may be found satisfactory.

Cisterns, wells and springs can be kept safe for drinking only by keeping surface drainage out of the water, he said.

Mrs. J. H. Donnelly of Omaha came down last evening to attend the Donelan-Brown wedding at the St. Luke's Episcopal church.

Miss Rhene Burgess of Omaha, who was here in attendance at the wedding of her cousin, Miss Margaret Donelan, departed this morning for the metropolis.

## MRS. HARDING OBLIGED TO GO TO BED FOR A REST

President's Wife is Overwreathed by Excess of Alaskan Hospitality —Journey Curtailed.

Fairbanks, Alaska, July 16.—Mrs. Warren G. Harding, wife of the president, has been so worn out by accepting hospitalities extended by Alaskans that she has been compelled to take to her bed, Mr. Harding informed an audience here just before he and his party left for Seward, Alaska.

Earlier in the day final decision of the president to return direct to Seward, the southern terminus of the Alaska railroad, instead of going on a contemplated automobile trip, was announced. Mrs. Harding had earnestly urged the automobile trip, which would have been 325 miles as originally planned.

"This is the greatest day in the history of Fairbanks," said Mayor Marquam, as he introduced the president. The president answered by pledging "my official and personal interests in the solution of Alaska's problems."

He qualified this with the declaration that while he was sure the territory would come into the fullest development, its citizens should not think that the government would bring this about for them.

"Whatever the government may do," he added, "after all, I would rather trust Alaska's development to your sons and daughters. I have every confidence they will work out your problems with whatever help the government may give."

The president was entertained at lunch by the citizens of Fairbanks and left on his special train.

## ASKS WRIT TO FORBID I. W. W. IN CALIFORNIA

Sacramento, Cal., July 16.—A petition for an injunction restraining the Industrial Workers of the World from functioning in this state was filed today in the civil department superior court by District Attorney J. J. Henderson of Sacramento county, permission to sue in the name of the people of California having been granted by Attorney General Webb.

The petition alleges that the I. W. W. is organized for the purpose of overthrowing the government of this country and of this state; that it teaches violence as a means of defeating capitalism; that its various members are taught that any unlawful act aimed to destroy capitalism is lawful; that many I. W. W. members have been coming to California during the last two months for the purpose of terrorizing the lumber, farm and oil industries.

The injunction, if granted, will be effective in every superior court of the state and any person found carrying a membership card in the organization will be in contempt of court and subject to arrest and imprisonment.

## KEARNS IS ANXIOUS TO SIGN FOR A FIGHT

Wants to Match Dempsey, But Tex Rickard Not So Eager—Firpo May Return to Argentine.

New York, June 16.—The heavy-weight boxing outlook took an unexpected turn late today, when Tex Rickard announced a definite proposal to stage a title match between Jack Dempsey, the champion and Luis Angel Firpo in the capital of the latter's native Argentine, Buenos Aires, about November 1.

Firpo, keenly anxious to fight for the highest of fistic honors before his own countrymen, already has accepted Rickard's terms. Jack Kearns, the titleholder's manager, discussed the details of the proposition with Rickard for an hour this afternoon and at the end of the conference told the promoter his answer would be ready by Wednesday.

Rickard said his plan to take the fight out of this country was prompted by two reasons—Firpo's desire to return to his native country for the bout, and enthusiastic reports from the promoter's agents as to the possibility of financial success in the "Paris of South America."

Rickard had had representatives in the Argentine for some time. He received cabled advices today from Juan Homs, a personal agent, saying that a fight between Firpo and either Dempsey or Harry Wills, negro contender, would draw more than two million pesos—about \$800,000—in the Argentine capital.

The exact nature of his offer to Kearns was not revealed, but it was believed it embraced a percentage proposition that would assure the champion and his manager close to \$500,000.

Kearns, meanwhile, declared that he was desirous of arranging, if possible, two matches for the champion in this country this year, instead of going to South America.

Kearns said he prefers to have Dempsey meet Firpo first around labor day and then, if victorious, to take on Wills just before the world's series in October.

Rickard has Firpo bound to an iron clad contract, however. He is not especially interested now in promoting a Wills-Dempsey or Wills-Firpo match. He believes the logical bout is between the title-holder and the man from Argentine.

## MINNESOTA REBUKES HARDING ADMINISTRATION

Sweeping Victory for Magnus Johnson, Farmer-Labor Candidate, Over Governor Preus.

St. Paul, July 16.—Election of Magnus Johnson, farmer-laborite, as United States senator from Minnesota was conceded tonight by Governor Preus, republican, his principal opponent, in a brief statement to the Associated Press.

Governor Preus conceded the election after he had been told that 1,110 of the state's 3,520 precincts gave Johnson a lead of 18,000, the count showing: Johnson, 107,972; Preus, 89,499; James A. Carley, 8,375.

These 1,110 precincts, representing incomplete returns from 70 of the state's 87 counties, showed a vote totaling 205,847, as against a probable total vote of 450,000 to 550,000. If Johnson maintains his present ratio, his plurality will exceed 40,000.

Johnson's plurality probably will exceed 40,000 returns at midnight indicated, with Gov. J. A. O. Preus, republican, in second place, and James A. Carley, democrat, trailing far behind. Preus had announced his intention to support the Harding administration.

St. Paul, July 16.—With interest greatly increased in the last few days of the campaign, it was indicated tonight that before the polls closed possibly more than 500,000 votes would be cast in Minnesota's special United States senatorial election. The apathy that marked the June 18 primary, when only 200,000 persons voted, had been dissipated to a large extent today.

Both Governor J. A. O. Preus, republican candidate and supporter of the Harding administration and Magnus Johnson, farmer-laborite and La Follette adherent, voted early in their respective home precincts as did also James A. Carley, democratic nominee. Ideal weather helped attract many voters to the polls.

While spokesmen for Governor J. A. O. Preus said they would withhold any statement until a reasonable percentage of the 3,500 precincts in the state had reported, leaders of the farmer-labor party renewed their claim of victory for Johnson "by around 40,000 majority."

That the volume of vote would exceed the primary balloting was indicated in reports from nearly every one of the 87 counties, which declared the vote would run from 50 to 90 per cent of normal. There are 800,000 eligible voters in the state.

In almost every case the county reports showed a vote in excess of that in the primary and in some instances was double. In the general election the vote of Johnson and Johnson were opponents in the gubernatorial race, the vote totaled 715,000.

## KU KLUX KLAN IGNORES N. M. GOVERNOR'S ORDER

Albuquerque, N. M., July 16.—Despite Governor Hinkle's warning to the sheriff of Quay county to permit no Ku Klux Klan demonstration, a special dispatch to the Albuquerque Herald says 3,000 witnessed an initiation four miles from Tucumari last Friday night. The ceremonies were held in a pasture four miles out on the Logan road, which, it is said, has been leased by the Klan. The members taking part in the ceremonies wore full regalia, despite the fact that there was a warning against the wearing of masks or robes. The meeting, the dispatch says, was announced by megaphone from an automobile driven through the streets of Tucumari.

CLAIM TO AN EASTERN ESTATE. Elmwood, Neb., July 16.—Ralph and Harry Green and Mrs. Edna Tolbert of Elmwood have received word from relatives that claim is to be made in the Maryland courts before November to the Springer estate.

Charles Christopher Springer, from whom they are directly descended, came to America from Stockholm in 1658, where he had been given a tract of land by the Swedish king, a relative. The tract of land was where the city of Wilmington now stands and was leased to the city for a long number of years, but when the lease was about to expire the courthouse and all papers were burned. The last year the heirs have combined their efforts to recover this estate which is largely owned by the Duponts at the present time.
