TELLS OF DEATH OF A FORMER RESIDENT OF LOUISVILLE

Stranger Brings Word of Passing of Nick Shue, One Time Resident of This Locality.

From Wednesday's Daily.
Late yesterday afternoon a stranger arrived in this city from the vicinity of Amazonia, Missouri, and brought with him the story of the death of Nick Shue, one time resident of this vicinity and also of Louisville where he had been employed in the stone quarries and in which capacity he was also engaged at Amazonia.

Mr. Shue, who was a bachelor, was living in his own quarters near the quarries, the stranger states, and had at the time two men living with him and these men reported his death one evening of last week. The authorities had the body buried a short time after it was reported.

From the rather rambling statements of the stranger it seems that Mr. Shue had deeds to several hundred acres of land in his possession and the land it was claimed was in Nebraska, but after his death the deeds disappeared and could not be found and it is a question what county the land is located.

Word has been received here by the Andrew Kaufman family as to the death of this gentleman, he having formerly boarded with them while at Cedar Creek. It is desired to get the address of a sister of the deceased who resides in New York state and any of the old residents of the vicinity of Cedar Creek or Louisville who might know the address are requested to get in communication with Miss Marie Kaufman so that the sister may be notified of the death. Relative to the land which was claimed was owned by Mr. Shue, it was thought by the members of the family that if he had title to land it must be in the vicinity of Moorefield, Nebraska, where he had resided for some time.

Advance Announcement of a New Policy

Effective September 1, 1923

After 44 years of experience selling clothing in Plattsmouth, under varying conditions and circumstances, we have decided to adopt an entirely new plan or policy in the merchandising of same.

Effective September 1st, 1923, we shall have just three prices in our popular grades of men's clothing, namely—

\$ 25 \$ 30 \$ 35

It will not be necessary any more then for you to enquire, "What are your prices on suits and overcoats?" because you will know they are \$25, \$30 and \$35, and you will also know that whichever one of these three prices you choose, you are getting the very utmost your dollar will buy—this is the natural advantage of a specialized system.

You may call it the Ford policy if you want to, but at any rate it's a policy that cuts out overhead, lost motion and scattered effort. It's a policy that is going to save you money and put clothing on your back for less than you ever bought it before in Plattsmouth. It means standardized, specialized clothing prices — the shortest possible cut from the manufacturer to the consumer. Briefly, it is all summed up in this phrase: "Three prices and no monkey business."

In addition to these 3 popular prices we have the Hirsh Wickwire and other de-luxe lines—\$40 to \$60
