Letters received from the Chase family in Colorado by relatives and friends here state that the wheat crop in that section of Colorado will be an eighty per cent loss, according to the judgment of those acquainted with the general condition there. In the past week there were only two days in which the working force could be out at their duties in the field owing to the excessive rains that prevailed through that part of the west. A GOOD TIME IS ASSURED!

OMAHA SUFFERING FROM A LACK OF GOOD WATER

Mud in City Water Supply Causing Hardship to Industries and People of Metropolis.

From Wednesday's Daily.

"You'll never miss the water 'till the well runs dry," the old familiar saying, is being forcibly brought to the minds of the residents of Omaha who have for the past two days been suffering from the lack of good, clean water, caused by the Missouri river cutting a huge bank of soft mud directly into the intake of the municipal water plant and where it has been sucked into the mains of the water company and has been making the water supply of the metropolis a very thin mud stream.

The condition is demanding prompt action and today a special train of tank cars over the Burlington was sent to Plattsmouth and the train filled with a supply of the good water that comes from the local water plant and sent to Omaha to be used by the railroad in caring for its needs.

Showing the condition in Omaha all of the laundries there have been compelled to close down and many of the large packing plants may have to follow suit, the only that are safe being those that have their own supply from wells.

The Omaha city sprinklers and tanks are being used to supply water to the hospitals, hotels and restaurants and the private citizens are busy with their autos and trucks in securing good water from wells and springs in various parts of the city for drinking purposes.

The condition in Omaha shows up strikingly the fact that Plattsmouth is most fortunate in having a fine water supply plant that secures its water from deep bored wells and which will be found as good as any place in the state, and pure and wholesome in every way.
