

# Alvo Department

R. M. Coatman, with his truck, was in Omaha twice during the last week with hogs for the market there.

Scott Jordan is just getting at the picking of his corn, which promises to be a very good crop, and of a quality which will pass inspection.

W. H. Warner is keeping pretty busy these days assisting some of the farmers picking corn, but he is only waiting to get to do their shelling, when he is in his element.

R. M. Coatman was a visitor in Union last Friday, where he went after a load of goods for John Banning, which he had stored at Union, awaiting a place before he could use them.

The farmers about Alvo are busy at this time picking corn and are finding the yield to be very satisfactory, running from 40 to 50 bushels to the acre. The quality is very good at that.

John W. Banning, the new lumberman, who has been living near the lumber yard, has secured a house in the eastern portion of Alvo and moved last week. He secured the house of Carl Johnson.

Last Wednesday R. M. Coatman and Johnnie Skinner went down to Peru, where they secured another truck load of apples which they brought to Alvo for the consumption of the people here. This is the second load they have purchased at Peru, and have found abundant demand for here.

The new minister of the Methodist church, the Rev. Norlin, is meeting with much success as the minister of the church here and the citizens are showing a disposition to work with him in his efforts to make the church and the community a force for the betterment of the town.

Mr. J. W. Kollmeyer, the new merchant, is getting acquainted with the people of Alvo and vicinity and making many friends here. The business is coming very satisfactory thus far and he is furnishing the very best of goods for reasonable prices and is doing everything in his power to please the trade.

Phillip Coatman, who has succeeded to the management of the radio business which his father former had, last week installed two radios, one at the home of W. W. Coatman and one at the home of Wm. Speak. This looks to us like it would be easy speaking now with Speak having a radio.

Mrs. M. L. Gallagher, of Grand Island, a sister of both W. W. Coatman and R. M. Coatman, was a visitor at their homes for a number of days last week and later, Mr. Wm. Coatman, Sr., of Weeping Water, came up for a short visit with his sons, and was accompanied home by the daughter, who visited for a time there.

J. W. Banning was a visitor at Union last week, where he visited for a day with his mother, Mrs. Henry Banning and sister, Miss

Pearl, south of town, and with his two brothers, Joe Banning and Senator Banning, in town. While he was away, Mr. Simon Rhemeyer looked after the business at the lumber yard in connection with the elevator.

### A Very Happy Barber

Yes, that is just what Mr. Wm. Simpkins is these days for the stork made a visit to his home and presented himself and wife with a very fine eight pound son, who with the mother are doing nicely and the barber is so happy that he can hardly get his work done from wanting to see the baby. If his customers' faces were as wreathed in smiles as his, he could not shave them except with a spoon.

### Celebrated His Birthday

Yes ohnie Skinner has a birthday. It occurred one day last week and in commemoration of the passing of this date, he and his best girl went to Lincoln where they attended the theatre and enjoyed a most pleasing play. On their return they came near getting lost as they were spinning along in their auto, talking of the characters in the play they had heard and planning for the future and they ran past the place where they should have turned off for Alvo, and did not notice the mistake until they came to a sign in the road saying "Detour, bridge out" and then they had a number of miles to get back home. But you know they did not mind that.

### BOYS ARE STILL HERE

From Thursday's Daily— Ralph Stevens and James Baker of Sac City, Iowa, who have been here since Sunday, owing to the fact that young Stevens had his foot injured while riding on a Missouri Pacific freight train, are expecting to resume their journey to Texas as soon as Stevens recovers from the effects of his injury. The boys are only sixteen years of age and having to make their way decided that as the working conditions of their home were not the best they would migrate to Texas and had gotten along very nicely until the accident here. The boys are being looked after at the home of Sheriff Quinton until they are able to resume their journey southward where they have relatives.

### WRECKED COACH HERE

The local shops have received repairs one of the coaches that was in the recent wreck of the Burlington near Casper, Wyoming, when a locomotive and several coaches went into the Powder river and resulted in the loss of twenty-four lives. The coach that arrived here is the one which was occupied by the unfortunate passengers and is in very bad shape as the result of its plunge into the river and will require a great deal of overhauling.

### Willing Workers

The women from the Willing Workers held a good meeting October 23 at the Eagle Consolidated school. The following officers were elected: President, Mrs. Fred Trunkholtz; vice president, Mrs. R. C. Wenzel; secretary, Mrs. A. M. Longman. The club voted to adopt the name of Eagle Willing Workers. The subject of "Fabrics, How to Know and Use Them," was discussed. The women intend to collect samples of standard wool and silk fabrics and then hold a contest to see who can name the most different kinds of material and their uses. Miss Lydia Swanson, home economics instructor, brought her collection of textiles and these were used in helping in the study of different silk and wool fabrics.

**How to Alter Commercial Patterns**  
About twenty ladies met at the home of Mrs. R. G. Kiser Thursday, October 25. The afternoon was spent showing how to alter commercial patterns and study of color best suited to different types. The next meeting will be at Mrs. L. G. Meisinger's November 15. This club will take up several lessons in home nursing.

**Lewiston Ladies Hold Meeting**  
The ladies of Lewiston church community held an all day meeting October 26. The women cut and fitted dresses using patterns which they had previously drafted. The next meeting will be held December 13. The subject being "Wool and Fabrics, How to Know and Use Them." Everyone bring samples of silk and wool materials. At this meeting we will test the material and ascertain the quality and find out about adulterations used by the manufacturer in making same. Don't forget the date—December 13.

## A STITCH IN TIME

Plattsmouth People Should Not Neglect Their Kidneys

No kidney ailment is unimportant. Don't overlook the slightest backache or urinary irregularity. Nature may be warning you of approaching dropsy, gravel or Bright's disease. Kidney disease is seldom fatal if treated in time, but neglect may pave the way. Don't neglect a lame or aching back another day. Don't ignore dizzy spells, irregular or discolored urine, headaches, weariness or depression. If you feel you need kidney help begin using the reliable, time-tried remedy, Doan's Kidney Pills. For 50 years, Doan's have been found effective. Endorsed by Plattsmouth people. Ask your neighbor.

Theo. Starkjohan, retired farmer, Locust and Ninth streets, Plattsmouth, says: "Doan's Kidney Pills have been used in our family for kidney troubles and backache and they have proven to be all that is claimed of them. Whenever my back feels a little lame and my kidneys are not acting as they should, I take Doan's Kidney Pills for a few days and they never fail to do me good. Doan's can't be equaled and anyone having kidney trouble should take them for they are reliable." (Statement given February 23, 1916.)  
**OVER FOUR YEARS LATER,** on May 12, 1920, Mr. Starkjohan added: "The cure I had from Doan's Kidney Pills has been a lasting one. I have faith in Doan's and if ever I need a kidney remedy again, I will use them."

## WIGLEYS

### GETTING FULL VALUE FOR YOUR MONEY

Every woman is watching prices more closely now than ever. She is determined to get full value for her money and strange as it may seem, there are some things on which the price has advanced.

One well known advertised brand of baking powder is being sold by all the principal grocers throughout the country at "25 ounces for 25c—same price for over 30 years." The fact that K. C. Baking Powder has been on the market for so many years and that the demand for it has been growing constantly during all that time is a good indication that it is a high quality product. The price speaks for itself. Besides the manufacturers advertise "you use Every can carries with it the manufacturer's guarantee of satisfaction or purchase the refund." Through their advertising the manufacturers of K. C. are telling the readers of the Journal of the merits of their product. Surely they are to be commended for pursuing a policy of maintaining the selling price during a period when we have all been asked to pay more for most everything we used.

### COMBINING WORK AND PLAY

From Thursday's Daily— Joe Jelinek, who operates a bakery at Thirteenth and Vinton streets, likes baseball.

He was much interested in the recent world's series. But, he didn't have time to stand in front of the downtown scoreboards, as he had to bake bread. So Joe bought himself a radio, installed it near the ovens and tuned in on the world's series, play by play. In addition, he erected some bleachers in the back end of his bakery for friends and customers.

The patrons got their bread as usual, and Mr. Jelinek got the world series reports as soon as anyone else.—Omaha News.

Mr. Jelinek is a son of Mr. and Mrs. Joseph Jelinek, Sr., of this city, and brother of Mrs. W. A. Swartz and Mrs. Cyril Kalina, and well known to the older residents of the city.

### DOING VERY WELL

The many friends hear of Earl Irelan, formerly a linotype operator on the Journal, will be pleased to know that Mr. Irelan has been able to leave the sanitarium near Colorado Springs where he has been for the past two years and since April has been living at Colorado Springs. He states that he is feeling better than he has for a great many years and is gaining in weight right along. He is expecting to locate there for the present at least and hopes, if his health is good, to take a trip back to Nebraska in the spring.

## MANLEY NEWS ITEMS

John Mockenhaupt has purchased a new Universal car, for which he is finding much use for himself and the family.

Mrs. Charles Murphy has purchased herself a new Ford touring car, which will be most convenient for the farm and for this good lady. A traveling show man having a dog show and a moving picture outfit, made a few days' stand in Manley last week and was greeted with good crowds.

Harry O'Brien, of Cedar Creek was looking after some business matters in Manley and vicinity last Thursday, coming over to look after some business matters and to visit with his friends.

Harley Herman and A. R. Thorpe have been keeping the ears of corn playing a tattoo on the throw boards in the fields of Omar Coon during the past week and are rapidly getting his crop in the crib.

John Mockenhaupt has been feeling quite poorly for some time past on account of a very sore throat, accompanied by an extremely bad cold, which has stopped active work in the picking of corn by this genial gentleman.

John Fleischman, who has been pretty busy in Manley with his carpenter work and has been assisted by Richard Pickard a portion of the time and also by Joe Wolpert, for whom he is at this time erecting a garage.

Willie Keckler, who had his leg injured and was taken to the hospital at Omaha some time since for an operation, has returned and is getting along nicely at this time. The bone of his leg was infected by the injury, but is getting along nicely at this time.

A large number of the people in this neighborhood are getting into the corn fields and are finding the yields fully up to their expectations. Monroe Wiles has been getting some fifty bushels from his husking per acre and is not dissatisfied with the quality or yield.

R. Bergman and Edward Kelly were looking after some business matters at Omaha last Thursday morning, making the trip in the car of Mr. Kelly, and returning in time for dinner. They found the roads in excellent condition and expedited their business, making their visit brief.

Hans Nelson, who was in the west, returned last week and was greatly pleased with the country and while there met George McDonald, who is farming near the town which Mr. Nelson visited, Wibleoux, Montana. He reports the former Louisville man and family liking the country and prospering.

Frank Bergman has purchased himself and family a new car, this time having chosen a Willys-Knight and he has made a wise selection. The car which he has just now purchased will make one which will always get there and also bring one back home again and at all times will be a pleasure to drive as well as affording the greatest execution in the driving.

### ELECTRIFICATION OF FARMS IS CONSIDERED

Chicago, Oct. 26.—Electricity is some day to transform the farm from a place of drudgery to an efficient, satisfied business unit with attractions equal to those of cities, if the vision of a committee on agricultural electrification working here proves of practical effect.

Already the farmers of one community, Red Wing, Minn., have been attracted by the idea of making electric power work for them, the American farm bureau federation, co-operating in the electrification project, announced today.

It is the vision of the committee, composed of representatives of the United States department of agriculture, the farm bureau, the American Society of Agricultural Engineers, and the National Electric Light As-
