TELLS OPPORTUNITY OF METHODISM IN FAR-OFF RUSSIA

Bishop Blake, Speaking Before Des Moines Meet, Stresses Responsibility of the Church.

Des Moines, Ia., Oct. 30.—Methodism faces a great opportunity and a great responsibility in Russia, declared Bishop Edgar Blake of Paris, France, in an address here tonight before the Woman's Missionary society of the Methodist Episcopal church. "It is within our power," he said, "to shape in a large measure the religious and social ideals of the Russian church, and to determine in a large degree, the lines of its future development."

Bishop Blake said that sympathetic contracts already are established in Russia. "If we have the statesmanship to grasp and guide a great opportunity," he said, "we can save the Russian church and in so doing save Russia."

"Personally, I have a profound faith in the unselfish idealism of American Methodism. Leaders may hesitate and officials become afraid, but we never know the sections rank and file of our people to hesitate or hold back in a great emergency when the call of God was sounding for advance. I do not believe they will fail now."

Bishop Blake attracted considerable attention several months ago when he went to Russia to investigate religious conditions of that country as a representative of the board of bishops of the Methodist church. The Paris bishop and Dr. Hartman, editor of the Zion's Herald, who accompanied him, pledged themselves to raise \$50,000 in America during the next three years to underwrite the educational program of the Russian church.

To Keep Church Alive
"There is no mystery about this pledge," he said. "The church was unable to finance even a modest program of education for its priests and candidates for the priesthood. It has no resources. It must have help or its plans will fail."

"Believing that it is vastly better to hold the Russian church to Protestant contacts than to permit it to turn toward home, or to drift to its own decay, Dr. Hartman and myself agreed to raise \$50,000 in America during the next three years. With what the church can do for itself, this will enable it to establish and maintain its study courses until a better day dawns."

Bishop Blake said there had been many inaccurate and misleading reports concerning his mission to Moscow. His speech tonight was described as being a plain statement of facts for the church.

Stories that he had his pockets picked are a pure fabrication, he declared. He also denied that he said of the patriarch of the Russian orthodox church: "Tikhon has lost the game and must pay the penalty." He said that he had urged the representatives of the soviet government to use their influence to prevent any personal harm coming to Tikhon.

Doesn't Endorse Soviet
Bishop Blake said he did not endorse the soviet government, nor did he commit the Methodist Episcopal church to its support. The Russian church, he said, aims to abolish ignorance and poverty among the masses of the Russian people, to deliver them from the exploitation and oppression to which they have been subjected for centuries.

"Such aims as these," he said, "have my fullest sympathy. This is not bolshevism but ordinary Christianity, as I understand it."

Bishop Blake said the attitude of the soviet government towards religion at present appears to be one of tolerance. The leaders, he said, are frankly atheistic, but so long as the churches and priests refrain from activities against the government, the government officials make no attempts to interfere. "They have learned," he said, "that religion cannot be killed by oppression. They have learned that persecution intensifies devotion."

DYNAMITE LOADED CARS RUN INTO PASSENGER TRAIN

Joplin, Mo., Oct. 29.—Three loaded freight cars, containing a shipment of dynamite and running wild, crashed into the front end of a St. Louis-San Francisco passenger train near Carl Junction, Mo., northwest of here late today without exploding.

The explosive cars set the engine of the passenger train into the ditch and piled over on it. Fire from the locomotive ignited two of the dynamite cars, endangering the lives of passengers. The passenger train was not derailed, however, and it was pulled out of danger. No injuries were reported.

MOVE TO PUSH DAIRY INDUSTRY IN THE STATE

Hundreds of Holsteins Being Imported from Fine Wisconsin Herds—Must Undergo Tests.

Lincoln, Oct. 30.—A statewide movement to bolster up dairying in Nebraska, especially in the sections where a lack of diversified farming has made the last two or three years very disastrous to the farmers, is being pushed, backed by bankers and chambers of commerce, it became known through the state department of agriculture here today.

Although there are no exact figures on the number of dairy cows which have been shipped in as a result of this movement, it is estimated by Grant Shumway, head of the state department, that at least 1,000 Holstein cows have already come in from Wisconsin. The cattle are being purchased in Wisconsin by bankers and business men, who have formed organizations in several localities for this purpose, and are then being sold to farmers. In most instances, money is being loaned to the farmers to finance the projects.

Shumway announced today that the state department would insist upon each of these cows undergoing a state tuberculosis test after their arrival within the state's borders.

"We have had some instances where the federal test required of all animals shipped from one state to another did not prove reliable," Mr. Shumway said, "and inasmuch as the state of Nebraska is liable for these cattle, and for indemnity on them, after they have been six months within the state, we want to be sure that they are now free from tuberculosis."

Shumway also took occasion to criticize the last session of the legislature because of its lack of energy in not providing ample funds for testing the dairy cattle of the state. "Supporters of the tuberculosis test bill in the legislature attempted to work up sentiment in favor of their plan by crying for pure milk for the babies of the state," he said, "and then they proceeded to leave practically no money for dairy cattle testing."

"The law they passed limits us to an amount not to exceed 15 per cent of the total appropriation for use on any but county area testing," he said. "Naturally, these scattered herds of dairy cattle must come under this 15 per cent allowance because the chances are slight that they would happen to be in a county which has qualified for the area work. That means that the money set aside for testing may be used inefficiently for everything but dairy cattle. They made no provision for the milk cows at all. We have to strain a point and class them as breeding cattle before we are authorized to use any money at all to carry on the testing."

Agricultural experts here regard this effort to increase the dairy business in the state, coupled with the movement which crystallizes tomorrow, to increase the profits of the country and egg business in the state as definite evidences that Nebraska is going in for working out her own agricultural troubles in her own way by putting her shoulder to the wheel of diversified farming.

Shipments of dairy cattle from Wisconsin have been received at Scottsbluff, Clay Center, Fremont, Aurora, Broken Bow and other places already, Secretary Shumway said.

CIGARET IS MORE POPULAR IN IOWA
Dubuque, Ia., Oct. 29.—The cigarette is making as great gains in popularity and sale in Iowa as elsewhere in the country, according to figures compiled by Lars Bladine for collector of internal revenues for the Iowa district.

Cigarette sales increased from 14,254,895.47 in 1913 to 60,878,295.907 in 1923, his statistics show. These figures do not include the "roll your own" brands.

Cigar sales dropped from 9,000,000,000 in 1913 to 7,704,694,199 in 1923. Mr. Bladine explains that the war stimulated smoking of cigarettes and that army pipe and cigar smokers turned to cigarettes because they are more convenient to the average smoker, taking less time to consume and costing less. He doubts whether women are smoking enough cigarettes to affect the sales much.

ENGLAND ACCEPTS FRENCH PLAN FOR REPARATION MEET

America Will Be Asked to Designate Its Members of Committee of Experts on Reparations.

Paris, Oct. 30.—The inter-allied reparation commission has decided to postpone the hearing of German delegates in regard to Germany's capacity for payment while the negotiations for the formation of a committee of experts to examine the question are in progress.

London, Oct. 30.—Great Britain has accepted the terms specified by Premier Poincare of France for a conference of experts to consider the reparation question. The American government will be acquainted with the willingness of all the countries concerned in the reparations problem to participate in the conference and will be asked immediately to designate its member of the committee of experts.

United States Banker Sails
New York, Oct. 30.—Willis H. Booth, president of the International Chamber of Commerce and vice president of the Guaranty Trust company, sailed today on the Mauretania for Paris to arrange for a conference of delegates from thirty-eight nations to make recommendations regarding the proposed reparations discussion advocated by Secretary of State Hughes.

Mr. Booth was hesitant in discussing the Paris session, which begins November 13, but it was reported his hurried trip concerned selection of the committee of financial experts, who under the Hughes plan, would pass on the amount that Germany might be expected to pay.

"I think it will be a very important session," was all Mr. Booth would say.

Yesterday afternoon while John Frady was engaged in cranking a retractor car at his garage on Seventh and Vine streets he had one of the fingers of the right hand broken when the machine kicked back and as a result of the accident John will wear the injured digit bandaged up for a few days.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. Two sizes, 30c and 60c, at all stores.
