

MURDOCK DEPARTMENT.

PREPARED EXCLUSIVELY FOR THE JOURNAL.

T. M. Patterson of Plattsmouth was looking after some business matters in Murdock last Wednesday.

Miss Ethel Meyerjudgen of Lincoln has been visiting for the past few days at the home of Wm. Neilson.

E. H. Miller has been hauling and delivering wheat to the W. T. Weddell elevator during the past few days.

Vage Burglund and Miss Eunice Myers of Omaha were spending last Thursday at the home of Mr. and Mrs. Jess Landholm.

Mrs. Geo. Towle of Lincoln is reported as being somewhat improved and which news will be pleasing to her many friends here.

Eddie Craig was a visitor at Elmwood on Thanksgiving day where he enjoyed witnessing the football game which was staged there.

H. W. Tool was enjoying Thanksgiving day at Lincoln being guests at the home of Mr. and Mrs. Jacob Geehry, parents of Mrs. Tool.

Conrad Wehrman shelled and delivered some corn of this year's crop last week the same being received at the W. T. Weddell elevator.

A. H. Ward has not been feeling the best for several days past and also his little son has been on the poorly list but both are now feeling better.

Mrs. H. W. Tool was a visitor at Omaha for a few days last week at the home of her friend, Mrs. E. B. Eldridge returning home on last Tuesday.

Glen Boswell and wife of Ong were in Murdock to spend Thanksgiving day at the home of the parents of Mrs. Boswell, John Scheel and family.

J. C. Smith who lives south of Earle has rented the John Scheel place where Herman Scheel has lived the past summer and will farm the place the coming summer.

J. E. McHugh manager of the Murdock Mercantile company, was a visitor in Omaha last Tuesday where he was looking after some business matters for the store.

Mrs. Harry Davis is reported as being in poor health and has been kept to her bed for a few days but it is hoped that she may in a short time be about again and in better health.

W. T. Weddell and family were visiting and looking over the eastern portion of the county making a visit at the home of C. W. Stone & Sons the home of the real Jersey hogs and spotted Poland China hogs.

W. T. Weddell the manager of the east elevator was on duty Thanksgiving day and reports of this being 25 years of elevator work that he never was off duty for a day during the time in the way of taking a vacation. This is surely getting in good time.

Harry Dehning who is employed in the Rhodewald garage at Weeping Water was looking after some business in Murdock last Wednesday and Harry says he has traded his new Ford for a coupe which he prizes higher than the touring car.

E. W. Thimgan, Lacey McDonald and Gust Gakemeier were enjoying a shoot at the shooting match which was held at Ashland last Tuesday afternoon and these gentlemen were so successful that they were able to return with five geese and eight ducks.

Postmaster Frank Melvin and wife were spending Thanksgiving at the home of Mrs. Melvin's parents, Mr. and Mrs. John Elliott west of Elmwood, making the trip over in their auto where they with the other members of the family enjoyed the day most pleasantly.

Unlimited amount of money to loan on eastern Nebraska farm land. Lowest rates. Applications taken now for future loans. See O. J. Potthast at Farmers' & Merchants' Bank, Murdock, Nebr.

Max Dusterhoff sold the sign board which he had north of Murdock to Fred Tonek.

Miss Eleanor Gakemeier was a visitor in Omaha last week where she was the guest of friends for the day.

Mrs. H. K. Hanson, mother of Mrs. O. J. Potthast of Sioux City was a visitor with her daughter last week.

The people of Murdock were enjoying a very pleasant social dance which was held at the modern Woodman hall on Thanksgiving.

Louis Bornemeier shelled and delivered a few hundred bushels of corn last Wednesday the same being sold to the W. T. Weddell elevator.

I. G. Hornbeck was a visitor in Omaha last week where he attended an excellent show and reports the roads excellent between Murdock and the big city.

Miss Ammerette Pardee one of the teachers of the Murdock school, enjoyed the four days vacation at her home in Lincoln going on Wednesday evening.

Gust Gakemeier was attending the shooting match held at Greenwood last Wednesday and brought home some of the nice prizes which were hung up there.

Wm. Kumpke has purchased for himself and the family a new Oldsmobile which he secured from the Landholm garage and which he and the family will enjoy.

Fred W. Backmeyer of Elmwood was a visitor in Murdock last Wednesday driving over in his car to look after some business matters and also to visit with friends.

County Commissioner Fred H. Gorder of Weeping Water was looking after some business matters in Murdock last Wednesday and visiting with friends as well.

M. E. Shatto purchased the Guern property on Main street which is run as the postoffice and is occupied by Mr. Shatto as a residence upstairs. The transfer was made last Wednesday.

Louis Hornbeck who is with the Rock Island at Lincoln was a visitor at home for over last Sunday visiting with the family and returning to his duties at Lincoln on Monday morning.

Miss Hazel Strich who has been attending the state university at Lincoln was at home for Thanksgiving and the remainder of the week on account of the holiday following Thanksgiving.

Otto Miller has completed picking his corn which is of a very good quality and has a very satisfactory yield running as high as sixty bushels and averaging over a half hundred to the acre.

Mr. and Mrs. E. K. Norton were enjoying the company of their family there being present Geo. Norton of Lincoln and Mr. and Mrs. Oscar Dowler of Murray, Lawrence Wiseman and family of Elmwood.

Charles Kupke has completed the picking of his corn which is 145 acres and which averaged about 40 bushels per acre and he says he is well satisfied with the yield and the weather for getting the crop in.

A. E. Towle of South Bend was a visitor in Murdock for a short time last Wednesday while returning from a visit to Lincoln where he went to see his mother, Mrs. Geo. Towle, who has been feeling quite poorly.

Fred Zink and family and Oscar Zink and family were spending last Thursday at the home of their sister Mrs. E. Ratnour of Weeping Water and there with other of the family enjoyed the day most pleasantly.

Mr. and Mrs. John Amgwert had a number of their friends in to spend the evening last Sunday and all enjoyed the occasion very much, there being present on the occasion S. P. Leis, Eddie Craig and family and Jacob Pierce.

M. E. Otter of the Stutz Auto Co. of Omaha, was a business visitor in Murdock last Wednesday and was placing the agency of his car with the Landholm garage.

August Wendt and P. H. Dehning who have been over to Plattsmouth as members of the grand jury, concluded their labors on last Tuesday and returned home, thankful that their labors were concluded.

Diller Utt who has been with the Burlington for the past year and or more in the shops at Havelock, was a visitor at home for three days of this week on account of the holiday given on Thanksgiving and two days following.

E. W. Thimgan has been pretty busy these days with the work at the garage which has been plentiful and with the assisting with the installation of the new furnace in his home which is being placed therein by Bock & Co. of Louisville.

Miss Jessie Melvin who last Saturday returned from the hospital at Lincoln is reported to be gaining with each day and is again feeling something like her former self. The many friends of this estimable young lady will rejoice with her in the returning of her health which is coming to her.

Richard Tool while returning from Lincoln one evening last week had the misfortune to have one of his wrists break in his car motor with disastrous results to the motor cutting out the black and plate under the motor and putting the animal out of commission until it had been gone over by the mechanic.

Authorize Buying Site
At a meeting which was held in Murdock of the voters of the Murdock school district it was decided that the board of education be authorized to purchase the site which had been selected previous for the building. They also authorized the expenditure of money for the purchasing of the same not to exceed \$5,000.

Has Serious Mishap
Archie Schneider who has been making his home and working for Charles Hearty while coming to Murdock to get a check cashed which he had received as a benefit from an insurance company for sickness, had a very peculiar mishap in that as he was passing the home of Joseph F. Gustin he ran over the dog of that gentleman which was in the road, overturning his car and breaking it up badly and injuring Mr. Schneider quite severely. He had a laceration in one of his legs above the knee which required several stitches but it is thought that the young man will get along though it will be some time before he recovers from his injuries.

Practice Three Days
The Murdock orchestra is getting in excellent condition to render the best music. On Monday they practice at the home of Mr. and Mrs. H. A. Tool and on Tuesday at the home of Mr. and Mrs. H. McDonald and on Wednesday night of each week at the Murdock Mercantile company's store. This is giving them an abundance of practice and allows on Wednesday evenings the people of Murdock and surrounding community an opportunity of enjoying the music.

Will Enlarge Murdock Church
The church at Murdock has been a little too small for the gatherings which frequently take place there. Many times gatherings such as funerals and special occasions many are compelled to remain on the outside of the building. The Bible school also has not had sufficient room and finally it has been determined to enlarge the structure in order that these matters can be eliminated. A committee has been placed in the field and they have secured pledges for the necessary funds and the building will be enlarged to 200 additional capacity which is thought will amply care for the requirements for the present. The work will require the expenditure of some two thousand dollars.

Antics of Automobiles
Paul Schewe was a visitor in Lincoln last week and on returning witnessed a peculiar accident on the road which for performance of cars, takes the cake. A large Nash car was pounding away towards Omaha and a Ford of antique design and ancient in years came rattling along and it must have been a "rattling good Ford," for it passed the Nash and in doing so struck the big car knocking it into the ditch while the Ford was uninjured. Following the Ford was a large Chalmers, which when the Nash went into the ditch hit the rear end of the Nash and queered the Chalmers which left the road going diagonally into a small lake many yards from the road and from which it required a truck to pull it out. However no one was seriously hurt and no damage done to any car with the exception of the Nash which was put out of commission.

Undergoes Severe Operation
John H. Buck the Murdock blacksmith who has been feeling quite poorly for some time past and who has not been able to work for some time, went to the Lincoln hospital in Lincoln last week and on last Saturday underwent an operation for the removal of a tumor which had grown in his stomach. Since the operation Mr. Buck has been getting along as well as one might expect and it is hoped that he will in a short time regain his wonted health.

Why Not a Murdock Program
While other towns are giving excellent programs and advertising their town over the whole portion of the county the fans here are enjoying the programs but why not Murdock give a program. With the excellent orchestra and the native ability of the people here to put on a worth while program and the Kensington club and the Murdock school and others it looks like a most worth while program could be put on and this town which is in the garden spot of the county be advertised over the country. Better think about the matter and get a hustle on yourselves.

Was Buried on Wednesday
The little son of Mr. and Mrs. H. H. Gerbeling who passed away on last Monday following an operation for appendicitis was held on Wednesday last week at Wabash conducted by Rev. W. A. Taylor, pastor of the Baptist church and the interment made in the Wabash cemetery. The sorrowing parents have the sympathy of their many friends in Murdock and Wabash and vicinity. This young man was a very bright boy and well worthy of the excellent parents.

Card of Thanks
We desire to express our appreciation of the kindness of the friends and neighbors who so kindly assisted during the illness and at the time of the death of our son and brother and for the flowers and to those who so kindly sang—H. H. Gerbeling and family.

Thought Program Good One
S. P. Leis who is a radio enthusiast, listened in on the Murray program which was rendered last Tuesday and reports the program came in nicely and that the numbers were well worth the while and especially the whistling number of Elizabeth McCracken, "Carry Me Back to Ole Virginia," by Uncle Sam Latta, and the address given by Mr. Everett Spangler, president of the community club.

Spend Thanksgiving in Iowa
Last Wednesday morning just as the clock was chiming out the hour of four a party consisting of Henry A. Tool and wife with their son Richard and daughter Miss Mary Isabel, Mrs. H. V. McDonald and daughter Miss Irene, departed via the car of Mr. Tool for Aekley, Ia., their former home and where they went to spend the Thanksgiving day with Mrs. Leah Tool, mother of Mr. Henry A. Tool.

Enjoy Box Social
Many of the young folks of Murdock and also the vicinity around were enjoying a box social at which an excellent program was rendered at the Grand Prairie school. Following the program the sale of the boxes brought out very lively bidding as of course each young man was particular to get to eat the supper with his lady friend. The social was a success in every particular.

Drew Nice Crowd
The movie show last week which was given at the M. W. A. hall entitled "A Man Without a Country," drew a large crowd and was thoroughly enjoyed by all who attended.

Has Pleasant Visit
L. Neitzel gave a very pleasant visit with Mr. M. Inhelder of Pierce, Nebraska, who was here in attendance upon the funeral of Mrs. Chris Miller. Mr. Inhelder and L. Neitzel were great chums when both were in the ministry, both retiring about the same time and entering business. Mr. Inhelder is now engaged in the banking business. They had not met for 31 years.

Makes Interesting Talk
L. Neitzel gave a very interesting talk on Sunday evening at the Christian Endeavor meeting on the subject "Is the Missionary Enterprise Worth-while." He showed by the church history how the Evangelical church today circles the globe; how there is a steady stream of departed souls entering the city not built with lands; how there are over a quarter million members worshipping at her altars; how there are thousands of her consecrated youth endeavoring to lead a Christian life and spreading the glorious gospel in dark places, brightening the corner where they are.

A news item says six thousand hunters invaded the Wisconsin woods for deer this season, and only six were killed. Hunters, that is, the correspondent didn't bother to mention the deer.

Mr. Lloyd George has said that he came to America to learn, and, as he is now making a "whirlwind" campaign in Britain, it seems probable he did not go to the American school in vain.

You will enjoy seeing the pretty things on display at St. Mary's Christmas shop. Take lunch with the ladies, and do your Christmas shopping December 5th at the M. W. A. hall.

Antiquarians now present the theory that the destruction of Sodom and Gomorrah was due to burning oil wells. According to this, one of the chief failings of those wicked old towns was the neglect of proper fire prevention.

PLAYING "HOOKEY" FROM SCHOOL IN GUAM COSTLY

Mothers of Children Back Truncy Law to Avoid Paying Fine of 15 Cents.

A native mother on the Island of Guam will sit all day at a school room window to prevent her offspring from playing hookey. This is not because of her desire that the child shall acquire learning, but to avoid paying the truncy fine of 15 cents.

Chaplain W. L. Thompson, U. S. N. school superintendent, says he is endeavoring to adapt the work of education on the island to the particular needs of the natives. The Chamorroes take readily to penmanship, mathematics, and all kinds of mechanics. The children frequently know American history more thoroughly than youngsters in the United States of the same age.

"We have standardized the eight grammar grades and added a high school, which places the educational facilities of Guam on a par with those in the Philippines and the United States," the superintendent says.

"The industrial classes, despite our limited funds and equipment, have been especially successful. Lace making, basketry, and hemp weaving of various articles have reached a high grade of perfection. The boys in their carpentry classes make the furniture and other wooden fittings for the schools. The girls so readily take to dressmaking that American clothes are gradually replacing the graceful costume of the native women.

"The real problem is presented by the classes in cooking and gardening. The children enter with zest into the cooperative raising of many kinds of vegetables. They also learn the principles of dietetics and do excellent cooking. But they refuse to carry home any of the vegetables they raise or to eat anything they cook, with one exception, cake.

"The native diet consists mainly of rice and fish, and the natives prefer the canned Alaska salmon, if they can pay for it, to the delicious fish of these waters.

"But we cannot impress upon them the desirability of eating vegetables. It is almost impossible to persuade the children or adults to even taste an unfamiliar food. Consequently the instruction in cooking and gardening, to date, has shown little practical result."

YOUNG WASHINGTON GIRL SEEKS MASTER'S DEGREE

Dorothy Stevens of Washington is the youngest girl that we know who has a bachelor of arts degree. Dorothy is nineteen and was graduated from George Washington university, and is now studying for her master's degree. But Miss Stevens emphatically declares that she doesn't want to be known as a "bookworm," and her friends declare they can't understand "how she does it," for she is rarely seen with "her face in a book" and is the jolliest sort of playmate. Here she is just learning to play mah jong.

FIND REMAINS OF ESKIMOS

Archeologists Examine Bones of Skeletons at Rochester, N. Y., by contractors at work on a new road near here. The bones, believed those of Indians of remote age, were found in sitting positions by the excavators. No trinkets or other Indian relics were found.

Alvin H. Dewey, of Morgan Chapter, New York State Archeological society, believes the bones those of members of a race of Eskimos that roamed Canada and western New York state before the Iroquois. No records of Iroquois burials in sitting positions have been recorded, he said.

The bones are in the city morgue and will be buried at the completion of the investigation. They were in a state of perfect preservation when dug from the soil.

KILLS BEARS WITH ARROWS

Alaska Doctor Uses Primitive Weapon to Hunt in Alaska.

"Want to be a real sportsman? Then carry a bow and arrow out into the wilderness." So declares Dr. Walter W. Council, who has killed nine of Alaska's famous brown bears, three of them with heavy arrows shot from a 7-foot yew-wood bow.

Dr. Council, who is head surgeon and owner of the General hospital at Cordova, doubled up an old mattress and hung it at one end of the basement in the hospital. Into this he dally practiced shooting arrows until he acquired strength enough in the arms to push an arrow entirely through the 18 inches of cotton, hair and cloth.

GEYSER FOUND IN CRATER

Scientist Sees End of "Valley of Ten Thousand Smokes."

C. M. Fenner, a scientist from the Carnegie institute, Washington, who reached Seattle, Wash., recently from an extensive exploration trip in Alaska, announced he had discovered an enormous mud geyser in the depths of the smoking and rumbling crater of Mount Katkinal.

Fenner stated it was his belief that within a few years "the valley of ten thousand smokes" would be a thing of the past owing to the rapid disappearance of smoke-emitting vents.

Bathing Nude at Night Legal

Bathing without clothes on the beach in evening and early morning could become the custom at Santa Barbara, Cal., as it has been discovered the old bathing ordinance in force does not require suits at night. It has been known for some time that bathing parties have been held sans suits.

Plucks Huge Lemon

F. H. Dudley, well-known resident of Ventura, sends out a challenge to the lemon growers of the Southland. Recently he plucked a lemon from a tree in his garden weighing one pound and six and one-half ounces. It measured 13 by 1 1/2 inches.

DEVICE TO SAVE HELIUM PERFECTED BY EXPERTS

U. S. Bureau Finds Method of Retrieving and Utilizing Waste Moisture From Cars.

Acting in co-operation with the army air service, the bureau of standards at Washington has perfected apparatus which will enable the saving of enormous amounts of helium, the most inflammable but scarce and costly gas with which the Stenmandoch is now inflated. The apparatus in question is a new condenser for retrieving moisture in the exhaust gases from the engine, rendering it unnecessary to valve helium.

To maintain the equilibrium of an airship inflated with either helium or hydrogen it is necessary at times to "valve," that is, to permit some of the gas to escape to compensate for the weight of the fuel consumed by the engines, or to overcome the expansion of the gas caused by the heat of the sun's rays.

This need for the "valving" of helium used in rigid airships was one of the reasons why it was so difficult to get enough of the expensive, safe gas to substitute for the hydrogen inflation which caused many disasters in the past.

How to compensate for the weight of fuel lost and also to maintain the lifting gas at an even temperature so as to conserve helium presented a difficult problem. As early as 1915 the British government made some efforts in the direction of the recovery of the water vapor component formed as a product of combustion from the exhaust gases of the engine, but the results achieved were not of sufficient promise to warrant the continuation of tests.

The information gained through these experiments proved of value when work began on the project for the army air service. While the experiments were financed and sponsored by the army air service, it was the scientists at the bureau of standards who worked out a practical solution of the problem and developed a successful device.

STAR SAYS SHE'LL SING IN ATLANTA; MAKES WORD GOOD

Geraldine Farrar Appears in Municipal Auditorium After Denied Use of Two Churches.

Atlanta, Ga., Nov. 29.—(Via radio)—Geraldine Farrar, the famous diva, sang here tonight in the Municipal auditorium, after being refused the right to appear in two Atlanta churches for her concert. This was made possible when another entertainment scheduled for tonight gave up its date, and the singer was greeted by a large crowd.

Atlanta, Nov. 29.—Asserting that "no one can make me disappointed," friends in Atlanta, Geraldine Farrar, opera singer, today told a staff correspondent of The Atlanta Journal in Birmingham that she intended to come here tonight immediately after her concert in the Alabama city.

The Journal quoted Miss Farrar as saying: "I am going to Atlanta tonight after my concert here and I positively will sing before an Atlanta audience Friday night. I do not know in what hall I will sing there, but I am going to sing even if I stage my concert out doors at Five Points."

Five Points is Atlanta's busiest street intersection, located in the heart of the business section.

Refuses to Discuss Action
"I love Atlanta and love its people. They have always been wonderful to me," Miss Farrar said, "and I know that I shall have a magnificent audience wherever I appear there."

According to the Journal's story, Miss Farrar said that she would rather not discuss the action taken by Dr. W. H. Leprade, Jr., presiding elder of the Atlanta district in which the Wesley Memorial church is located, and Dr. John W. Ham, pastor of the Baptist tabernacle, in forbidding her to appear at their auditoriums.

"I would rather leave that comment to my manager," she declared. Jack Savage, her manager, according to the Journal, said in Birmingham today that Miss Farrar will not cancel her engagement. "She loves Atlantans too much to disappoint them," he said, "and I believe that it will be packed."

A motorist from New York arrived in Marion, Kan., the other day and asked to be directed to the tomb of President Harding. A not unusual sample of Manhattan's knowledge of geography west of the Alleghenies.

Hiram Johnson, who has announced himself a candidate for the republican nomination for president, is one of the most indomitable fighting men in American public life. He does not lack for ability of a high order. His campaign will be vigorous, if not successful. The standpat faction of the republican party will be given no opportunity to dodge any issue. The harder Johnson fights the greater will be the possibility of splitting the party wide open, no matter whether the progressives or the ultra conservatives win. It is not a far stretch of the imagination to see a house hopelessly divided against itself next year, meaning that the democrats will have an easy time riding in to victory.

PARROT'S CALLS SAVE LIFE

Repeats Woman's Cries for Help in Waters of Lake.

The parrot at the home of Leslie Muller, on the shore of Island lake near Shelton, Wash., is deserving of a hero medal, the Muller family believes.

Mrs. Bullock, housekeeper for the Mullers, fell into the lake while fishing. Her cries for help were not heard by men working in the barn, but the parrot excitedly repeated the calls with such effect that the men responded and swam to the woman just in time to save her life.

MAN 91 WEDS SPINSTER 88

Feeble Couple Unable to Stand During Ceremony.

Robert Broom, ninety-one years old, and a widow, and Elizabeth Bolt, eighty-eight, and a spinster, were married at Forest Gate, East London, England. Both were so feeble that they were obliged to sit during the ceremony, which was curtailed in consideration of their weakness. They signed the register with trembling hands.

Gets Right to Gold Fields

Prospecting rights in approximately 3,500 square miles of placer gold fields in the Amur basin have been conceded to the Far East Exploration company, headed by Henry T. Hunt of Cleveland, Ohio. The concession was obtained by Charles H. Smith, former American member of the Chinese-Siberian railway commission, who negotiated the Moscow.

A FIFTY MILLION DOLLAR BUG INFESTS THE WEST

Only Drastic Measures will Stamp Out Its Destructive Inroads on Next Year's Crops.

Conservative estimates have charged the chinch bug with \$50,000,000 damage to corn, wheat and oats in the winter wheat belt of the Southwest during the past year.

The Southwest is literally "infested" with chinch bugs, and more of them are going into hiding for the winter right now than for several years. They are certain to do more damage next season unless the coming winter should prove unfavorable for them or some means is provided to exterminate them this fall. Chinch bugs hibernate over winter, protecting themselves by hiding under trash, dead grass or around the crowns of bunch grass. Their winter home is, therefore, largely along fences, roadsides, ravines and on waste lands. It is these old bugs that live over winter and come out of hiding next April, each depositing from 300 to 500 eggs. Therefore, every old bug that is killed this fall or winter prevents a whole brood of them next summer.

The only satisfactory means of killing chinch bugs is by burning their hiding places between now and December 15. Burn when the grass and weeds are dry and when there is little or no wind. In order to be sure of killing a large percentage of the bugs, it is usually advisable to back-fire—burn against the wind. Be sure to burn before Christmas, as bugs not destroyed by the fire will die from exposure during the winter.

While the individual farmer will profit somewhat by burning, the best results come through co-operation—where whole townships or better still where whole counties unite in one big campaign.
