

Never Dreamed Sargon Could Do So Much for Her

"I suffered with stomach trouble and constipation two years without getting lasting relief from any medicine. But Sargon changed all this, and did more for me than I ever dreamed any medicine could do.

MRS. HILDA KINNAMAN

"Day after day, I would dose with cathartics, but my health kept right on falling. So much drastic medicine upset my stomach and I suffered a great deal with gases and pains from undigested food. I was nervous and listless. My strength and energy failed me, my sleep was restless and broken, and I was dreadfully rundown. "It is remarkable what Sargon did for me. Now, I eat and enjoy anything my appetite craves, and I never suffer with stomach trouble or indigestion. And how I do enjoy my sleep! I get up in the mornings rested, refreshed and feeling fine. Now I am strong and energetic, and feel so good, I don't feel like the same person. "My liver was inactive for a long time and it seemed impossible to get it stimulated, but Sargon Soft Mass Pills gave me complete relief. Unlike other laxatives, they don't nauseate or upset in the least. "I will always be grateful to this splendid treatment for all it has done for me, and I only hope my statement will induce others to try it."

The above statement was made by Mrs. Hilda Kinnaman, of 4704 South 29th street, Omaha, who is highly esteemed by a wide circle of friends. Sargon may be obtained in Plattsmouth from Weyrich & Hadraba.

MOTHER DIED IN THE EAST

On last Sunday W. D. Baker of Weeping Water, who was a short time called to Taylor Ridge, Illinois on account of the very serious illness of his mother, Mrs. Samuel Baker, returned after having remained for the funeral of the parent who died during his stay there. Mrs. Baker who was within one day of being eighty-three and a half years of age, was born on the farm next to where she passed away in peace, her name being Miss Sarah Patterson and was united in marriage with Mr. Samuel Baker sixty-three years ago, they remaining on the two farms which were side by side and during the over eighty-three years this estimable lady made her home first during her girlhood on one of the farms and for the remainder of her life on the other. She united in her early girlhood with the Presbyterian church and was ever a very faithful and devoted member.

There were born to this couple eleven children, three of whom died in early childhood, the eight remaining being J. W. Baker, Wetmore, Kansas; Mrs. Margaret E. Gaston, St. Joseph, Missouri; W. D. Baker, Weeping Water; Earnest L. Baker, Misses Sophia and Creola of Taylor Ridge, they living with the mother. Samuel Baker the youngest son, making his home at Alexsen, South Dakota. All the children were at the home at the time of the departure of the mother to bid her good-bye as she was leaving for that mode beyond the skies. The funeral was held at the Presbyterian church in Taylor Ridge.

She left besides the children, 27 grandchildren and 7 great-grandchildren, who pay high tribute to her memory.

State Fast Lifting Self Out of Mud

Nebraska Will Soon Be on Par With Neighbors in Improved Highway System

Lincoln, July 9.—Forging ahead with its highway expansion program, Nebraska, in 1928, among its neighboring states was second only to Iowa, Kansas and Missouri in road construction and maintenance and expenditures, summaries just received by Roy Cochran, state engineer, disclose.

And when the 1929 program is completed, the state will rank with either of the latter three states in pursuance of its construction program, though Iowa and Missouri will retain the lead in mileage of hard surfaced highways, the engineer predicts.

Spent \$16,313,087. During 1928, Nebraska spent, in all, \$16,313,087 to "lift the state out of the mud," the expenditures being apportioned as follows: \$3,930,710 federal aid highways; \$1,042,613 on other state roads; \$4,896,223 on county roads. Total construction, \$9,869,546.

For maintenance purposes, the state spent \$2,081,764 on federal aid highways, and \$2,297,839 on county roads. To maintain the department of public works it cost \$135,575, exclusive of equipment. The total state township road and bridge levy amounted to \$1,621,281 and the sum of \$301,215 was expended in interest and retirement of county bonds.

Iowa Spent Most. Iowa, leading all of these adjoining states, spent a total of \$58,200,516 on its highway program—this including many miles of concrete roadways.

Colorado during the last year spent a total of \$13,001,927 on its highways, with \$3,650,829 expended on the state-federal aid roads, and nearly an equal amount, or \$3,499,958, for maintenance of these roads.

Kansas spent nearly \$10,000,000 more than Colorado, or \$23,340,376, in its expansion program.

South Dakota to Front. Missouri in 1928 spent \$18,069,837, of which \$10,571,917 went to expand the federal aid system, while \$3,502,142 was devoted to maintenance of these roads.

South Dakota expended \$5,797,766 in its building program, devoting \$2,546,781 of that sum to the federal highways, and \$1,811,932 toward maintenance.

Wyoming, the less populous of all these states, expended \$4,800,635 for construction purposes on the federal aid system, with the sum of \$482,401 for maintenance.—Omaha Bee-News.

Rupture Shield Expert Coming to OMAHA

Monday and Tuesday July 15th and 16th at ROME HOTEL from 10 a. m. to 4 p. m.

Evenings by telephone appointment only TWO DAYS ONLY

No Charge for Consultation

Mr. C. F. Redlich, the successful expert says: "The Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening in a remarkably short time and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural retaining power, needing no further outside support.

Stomach trouble, backache and constipation often caused by Rupture promptly disappear.

Truly remarkable and prompt results have been obtained not only with recent and not fully developed ruptures but also with old, long neglected ones.

Ingenious, recently perfected devices are now holding ruptures firmly which heretofore never had been retained.

No elastic belts nor filthy leg-straps are used. I guarantee the durability of my absolutely sweat and moisture proof sanitary appliances.

75% of ruptured children recover completely through expert mechanical treatment according to statistics. Do not waste your money on widely advertised mail order contraptions. You cannot try yourself.

C. F. REDLICH, Rupture Application Expert, Home office, 535 Boston Block, Minneapolis, Minnesota.

WALL GUARDS RACING GROUND

Lincoln, July 9.—Strong cement walls will guard state fair crowds hereafter from the dangers run by auto riders and pony jockeys.

The fair board decided at its meeting Monday to build a 1,225-foot concrete barrier in front of the grandstand. It will be 18 inches wide at the base and 2 1/2 feet high. A heavy steel fence will surmount it.

Nor will race patrons run a risk while passing to the center of the track. The board decided definitely to construct a tunnel beneath the speedway.

We are in the midst of the tornado season. See J. P. Falter for tornado insurance on both town and farm property. a30-tfw
