M. G. Palling, who has been making his home on the farm southwest of Greenwood moved to town last week and will make his home here for the present.

Rex Peters and the good wife were enjoying visiting at the state fair for the day last Tuesday and report a wonderful exhibit of the great state of Nebraska.

Taking advantage of the holiday on Labor day, last Monday, E. A. Landon and wife and Wayne Landon and wife were enjoying a visit at the state fair, they driving over and spending the day seeing the things which are produced in this great state.

Ben Connelly, living southeast of Greenwood, has arranged to have a very substantial cattle shed built as an addition to the barn which he had erected but a short time ago. This will put the place in condition to care for the stock which is being fed there in the best of manner.

Grant Peters was a visitor in Omaha last Wednesday, in response to a telephone call which he received, asking him to come and arrange to accept a position as driver of a car for Mr. Carl Gray, president of the Union Pacific railway. Mr. Peters immediately departed for Omaha to see about the work.

Dr. E. L. Moon was a visitor in Greenwood for the week-end and was a guest at the home of Mr. and Mrs. P. A. W. G. Bailey and party, who have been seeing the west for the past seven weeks, were at Denver the first of last week and on their way home, and during the latter portion of the week drove into Greenwood, well satisfied that we have a wonderful country here in Cass county and that this part of Nebraska ranks among the best in the entire of Uncle Sam's vast domain.

Mr. and Mrs. M. E. Peterson, who were visiting for the past ten days at Hutchinson, Minn., where they were spending their vacation with the relatives of Mrs. Peterson and other relatives and friends, and also were visiting at Minneapolis for a portion of the time, returned home late last week, and "Pete" is again hustling with the work. Will Build New Barn

Charles Graham, living northwest of town, will in a short time begin the construction of a new barn on his farm, the lumber for which has been purchased from the Scarle-Chapin Lumber company, and the work on which will be done by Hal Parsell, of Alvo, which insures that the structure will be one of the best when completed, for Mr. Parsell is an excellent workman.

Mrs. E. L. McDonald, who has been in the hospital at Lincoln for

a number of weeks and who underwent a very critical operation, has since been very poorly and while some days she shows a little gain on other days her condition has been very serious. She seemed at the report last week to be gaining slightly and with the hope of holding her own. Everything possible has been done for the patient and the friends are much concerned as to her condition. The host of friends in Greenwood and elsewhere are very solicitous that she show good improvement and be able to return to her home in a short time.

SELECT NEW REPRESENTATIVE

Through the death of our mutual friend, Mr. W. E. Hand who represented Castle, Roper & Matthews for so many years in Cass county it has become necessary for us to make new affiliations. This we have done with A. F. Wiebke of Greenwood, Nebraska.

We would like to say in behalf of Mr. Hand that through all the years of our association, Mr. Hand never overlooked an opportunity to be of service to the people of his community and the weather was never so severe as to make him hesitate a moment to render a service either to those who called him or to the firm he represented.

Take a ride in the new Studebaker — and see for yourself — first hand — the truly remarkable performance of this ultra-fine car.

This is the invitation of Mr. Lee Nickles, the new Studebaker dealer in Plattsmouth, to the people of this vicinity.

Lee says the test of a good car is not wholly in the matter of 'showiness'—although the new Studebaker models certainly have plenty of that, too.

Lee has been driving cars a good many years and is well qualified to know a 'thoroughbred' when he sees one.

He says when one gets behind the wheel of this new Studebaker model he experiences a thrill in driving wholly unlike anything he ever experienced before.

That is why he is so anxious to show all his friends what the new cars will do.

"For then," says Lee, "you will understand why Studebaker builds more 8-cylinder automobiles than any manufacturer of motor cars in the world."

Whether or not you expect to purchase a car soon, Mr. Nickles invites you to call him up for a free demonstration in the fine new model he has just received.

His telephone number is 20—and he will be pleased to respond to your call at any time.

Truce Called in Fight Over Tariff Rates

Insurgents to Permit Debate on Bill's Merits Before Move to Restrict Changes.

Washington, Sept. 6.—A week-end suspension of hostilities in the senate's tariff warfare was announced Friday. On Monday, at noon, the parliamentary battle will be resumed, with debate centering upon administrative provisions of the bill. By agreement between Senator Robinson of Arkansas, democratic leader, and Senator Borah, Idaho, spokesman for the western republican independents, the effort to restrict revision of tariff rates to agricultural schedules or to recommit the measure will be postponed until there has been some debate upon the merits of the bill. A motion for consideration of administrative sections of the measure will be made by Senator Simmons, North Carolina, ranking democrat of the finance committee, after he has

sought a vote on his proposal that the treasury furnish income tax information, with respect to profits and losses of individuals and corporations affected by proposed tariff revisions. Senator Robinson issued a statement saying that the republicans, in asking tariff revision now, are attempting to "force reaction to such legislation as far in advance of election as possible, so that public resentment at unjustifiable increases in living costs will exhaust itself before it can be made effective in congressional and senatorial choices."—Omaha Bee-News.

DEATH CAR DRIVER HELD

Omaha—A coroner's jury Friday placed blame for a fatal automobile accident which killed two persons Wednesday evening on George Huntington, seventeen, driver of one of two automobiles which collided, and cleared Ernest Kauffold, driver of the other, of blame.

The county attorney's office ordered that the \$3,000 bond under which Huntington was held after

the accident be continued. Bryce Crawford, jr., who conducted the inquest, said that charges of criminal negligence or of causing death while exceeding the speed limit would be filed.

The two killed in the accident, which occurred at a street intersection, were Iona Michelsen, eight, and Donald Wilson, one, who were pinned under Kauffold's car. It was thrown upon the sidewalk after being struck by Huntington's automobile.
