Creighton Prep Wins the Opening Game, 13 to 0

Junior Jays With Well Placed Passes and Clever Football Score Twice on Locals

From Saturday's Daily—The Creighton Prep football team of Omaha came down yesterday afternoon despite the earlier predictions of a postponed game and engaged Coach Rothert's warriors on the muddy field at the baseball park. The Creighton team, which emerged from the mud the victors by the score of 13 to 0.

but were unable to penetrate the Creighton defense to score. The work of Hershel Dew, Hartford, Wiles, Farmer and Stoll on the defense was the best of the local team while Wiles was able to make the largest gain the locals secured on a pass from Dew that Chet carried for some twenty yards into the enemy territory.

Christian Endeavor Holds a Fine Banquet

Election of Officers and Peppy Gathering Held Last Evening at Presbyterian Church

From Saturday's Daily—The Christian Endeavor society of the First Presbyterian church held their annual banquet last evening at the Fellowship room of the church, and which signaled the opening of the fall program of activities of this organization, one of the most active of the young people's societies of the city.

For the occasion the Fellowship room had been very tastefully arranged in the decorations of the fall flowers, with the profusion of the bright hued autumn leaves to lend their effects to the enchantment of the scene, while the tables with their flowers and glowing candles, added a most delightful touch.

The ladies auxiliary of the church served a most tempting repast that made the event one that will long be most delightfully remembered by all of the members of the banquet party.

The event was presided over by Rev. H. G. McClusky, pastor of the church in his usual pleasing manner, and who introduced the participants on the program of the evening.

The musical portion of the program of the evening was one of the greatest enjoyment and embraced a vocal number, "Invictus," by George E. Sayles, a piano duet by James and Cecil Comstock, as well as two delightful violin selections by Donald Rainey, "Neopolitan Nights," and "The Desert Song." Miss Ruth Lindsay also played very charmingly a number of selections during the evening and led the pep songs of the young people, which were given during the course of the evening.

Miss Lindsay served as accompanist for Mr. Sayles and Miss Winifred Rainey for her brother, Donald.

The election of officers for the year resulted in the naming of the following: Franklin Wehrlein, president; Chris Bullin, vice president; Irma Mumm, secretary; Carylene Thomas and Clelland Retseloff, responding to the toasts along the work of the organization.

The principal address of the evening was by R. Foster Patterson, principal of the high school, who took as his subject, "Onward and Upward" and brought to the young people a ringing message of inspiration toward the lines of better and higher living, of working and striving for the best things of life that they might be vital factors in making a better nation as well as serving as examples to their associates.

The Christian Endeavor had as guests at the banquet Mr. and Mrs. C. A. Rawls and their niece, Mrs. J. P. LeGore, of Des Moines; Rev. and Mrs. H. G. McClusky, Mr. and Mrs. Frank A. Cloldt and Mr. and Mrs. R. Foster Patterson.

HOLD CLUB MEETING

The Riverview Community club held its first meeting on Thursday, October 23rd, with Mrs. Harrison Gayer. Eleven members and one visitor were present.

Mrs. Major Hall and Mrs. Creamer, the project leaders, gave a very interesting demonstration of our first lesson, "Interesting Facts About Textiles."

A winter roast will be held at the Wheeler grove on October 18th, as the first social meeting of the season. The next regular meeting will be held on November 1st, with Mrs. Frank Hull.

The first group meeting of the Project clubs was held at Murray on Thursday, September 26th. The plans were completed for this winter's work and the first lesson was presented by all of the club leaders and presidents. Mrs. H. L. Gayer was re-elected group chairman.

Miss Baldwin, the assistant county agent, was in charge of the meeting. Mrs. Tool, the new county chairman, was a visitor at this meeting. Our next meeting will be held on October 24th, at 10 o'clock.

FIRST AID WORK

Cass County Chapter, American Red Cross, is trying to promote some program in our county that will benefit a great number of our citizens. First aid is a part of their work. We have arranged with Mr. E. F. Burke, First Aid Instructor, Lincoln Telephone and Telegraph company, to give two demonstrations. These will be given October 15th in the gymnasium of the Murdoch school building, at 1:30 p. m. and 8:00 p. m., respectively. The afternoon meeting is for high school and grade pupils from the 6th grade up. We have sent this information to some person in every town of our county, but through the courtesy of the Journal we are extending an invitation to every person who may be interested in seeing this demonstration to attend. Mr. Burke and his First Aid team present these demonstrations without cost to Red Cross.

Burlington Shops to Go on Six Day Week

Large Amount of Work at the Local Shop Compels Full Time Schedule—8 a. m. to 5 p. m.

From Saturday's Daily—The local Burlington shops, which have in the last few weeks had a very large amount of work on hand to take care of will, starting Monday morning, be placed on a new working schedule that will make a six day week until further orders, instead of the half day off on Saturday that has been in vogue during the summer season.

A change in the working hours will make the work day from 8 a. m. to 5 p. m., instead of the present schedule of 7:30 to 4:30.

The shops have a large amount of work in way cars, baggage and mail cars as well as business and special coaches that are sent here for repairs and rebuilding and this has caused a great rush of work, that has led to increasing the working time of the shops.

The quality of the work that is turned out at the local shops is recognized in all parts of the system and the local coach shop has had the task of handling the business cars of the various officials of the lines west, a great deal of this work being handled during the summer and fall.

Weeping Water Rejoices at Being Out of the Mud

Will Now Have Gravel Road From Omaha and to Lincoln—Need of One to Plattsmouth.

The boosters for the north road from Gospel Hill to the state road now have the amount needed to go 50-50 with the state and grade and gravel the three miles at once.

On Saturday of last week the graders had completed one mile and it is hoped they will finish inside of two weeks so that the gravel can be placed on the three miles before any bad weather sets in and the prospects are fairly good.

The state road where one mile and a half of gravel will be placed is in good condition and it will not take the graders very long on this part and then they can join with the gravel road running north to Manly and thence to Louisville on the west road. Workmen are placing gravel on the Manly road and it will soon be ready for use.

The business men of Weeping Water and some of the farm owners have been bustling to raise the money and deserve the thanks of the community for their donations to help this part of Cass county out of the mud.

Now if we could drive to the county seat from the west part of the county on gravelled roads it would be much better. Everyone is paying gas tax and as soon as possible this money should be put to work on our roads—not just highways—but the roads leading into the good towns of Cass county—who have to pay the freight.—Weeping Water Republican.

SAFETY FIRST IN AUTOMOBILES

Safety is a major factor stressed in the modern motor car. It is in this phase of construction that the greatest automotive progress of recent years has been made.

Four-wheel brakes, non-shatterable glass, ball bearing spring shackles and similar improvements have all helped. Behind these improvements are and similar improvements have all helped. Behind these improvements stands the greatest factor of automobile safety—the all steel body.

As the traffic on our highways grows more congested and the accident toll mounts, stronger car construction is essential and it is only logical for automobile construction to follow the lead of all-steel construction of railroad cars.

Unquestionably, thousands of lives have been saved by this trend in motor car design. Power, appearance and speed are essential, but safety must come first.
