

### Sales of Sargon Total Millions

If you were told that literally thousands of well known men and women had stated publicly that a single medicine had relieved them of health troubles after all other medicines and treatments had apparently failed—it would sound impossible, wouldn't it?

Yet, that is Sargon's wonderful record.

So great has become the demand for Sargon and Sargon Soft Mass Pills that the Sargon laboratory has been forced to increase its capacity from 8,000 to 445,000 bottles daily.

"Phenomenal and bewildering," is the way one of the big drug jobbers of the country describes the marvelous demand.

One big New York firm, with wholesale branches in leading cities is selling at the rate of more than one million bottles a year—or to be exact, 908,184 bottles in the past eight months.

Introduced in California in April of this year, the people of this state alone are now using it at the rate of more than one million bottles per year, or an average of one bottle for every family in the state; and so it is everywhere.

Why this enormous and ever-increasing demand for Sargon?

The answer is this:

Sargon is a new kind of medicine. It is different from any other medicine you have ever taken, because it is based on new and remarkable discoveries in the field of modern medicine which have completely overturned many old moss-grown theories we have known for a life-time.

That is why people everywhere are looking on Sargon as the one great outstanding health-giving remedy of the age. No wonder it is called the medicine with a million friends.

### HOLD MEETING

The ladies of the Glendale extension club found the first meeting of the season, which was held at Mrs. Gale Rhodens' 5 miles east of Louisville on Tuesday afternoon Oct. 8th, one of very much interest.

Mrs. Ethel Hennings, project leader made a test by passing out samples of materials to the ladies for detection, and it was found that very few of them could name the materials correctly.

Another topic which was emphasized and created much interest was about Rayon material. The ladies were given details of the history of rayon from the time of its invention in 1884 by a French scientist until the present age.

After the introduction of this man-made material, modern American chemists devoted their time to perfecting the processes of producing textile materials. The different types of rayon all originated in Europe, but the large successful rayon plant in this country and the American improvements have made rayon and all textile fibers an American product. This material is now being used in many different garments and is noted for its durability.

Mrs. Henry Heil was a visitor at the club. All of the members were present excepting three. Delicious refreshments were served at the close of the meeting by the refreshment committee, Mrs. Larry Meisinger and Mrs. Eddie Ingram.

The ladies thing that if the future lessons that Miss Rocke, extension agent, will give us are as interesting as this one, we will accomplish a good year's work.

### ORGANIZE NEW CLUB

We cannot all attend the State University but the university may be brought to us by the state extension department. In order to avail themselves of this privilege a number of the ladies of Fairview met on September 26th and perfected an organization with officers as follows:

Mrs. Fred Kaffenberger, president; Mrs. Jess Terryberry, vice president; Mrs. Dan Terryberry, secretary-treasurer; Mrs. Joe Rhoades and Mrs. J. W. Tritsch project leaders with Mrs. Jess Terryberry as alternate; Mrs. Earl Terryberry, song leader; Mrs. P. E. Tritsch, reporter.

Mrs. Smith county chairman and Miss Jessie Baldwin were present and their assistance greatly appreciated. The Fairview Workers held their first official meeting at the home of Mrs. Fred Kaffenberger on October 3. The lesson on textiles created a lively interest and plans were made for the coming year.

Refreshments were served by the hostess with Mrs. Earl Terryberry assisting.

The next meeting will be at the home of Mrs. Jess Terryberry on Nov. 5th. Mrs. Joe Rhoades and Mrs. P. E. Tritsch assistant hostesses.

In honor of the forthcoming happy event and as an expression of the many pleasant associations with Miss Sievers in the telephone work, the girls of the exchange presented the guest of honor with two very beautiful gifts as a token of their esteem.

The occasion was also in the nature of a reception to Mrs. Helen Wallick, who comes to York as the chief operator to succeed Miss Sievers and also for the new operators who are being employed at York.

T. E. Fulton and wife surely enjoyed the matter of a call which their daughter, Mrs. Harold Kimball gave them over the telephone on last Monday evening. They live at Wayside and had driven to Chadron to trade and concluded that they would call the folks up and talk to them. When the telephone rang, Mrs. Fulton took down the receiver she was surely surprised and happy to hear her daughters voice come rippling over the wire from nearly six hundred miles away. After a brief conversation and greeting from the daughter the receiver was passed to the father. Mr. Fulton says the conversation was as plain as if they were both in the same room.

many years communicants of the St. Luke's church and Mr. Ballance a member of the vestry of the church for a great many years. The candlesticks are very beautiful and make a splendid addition to the altar fittings of this beautiful church, one of the oldest church structures in the city and where many of our people were christened, confirmed and married and members of their families given the last services of the church.

The candlesticks were blessed on last Sunday at the morning worship hour by Father Stanley P. Jones, rector of the church and are now used in the offices of the church at each service.

Just a few of the Cass county maps left. While they last, 50c each.
