

### She Weighed 94; Gained 17 Pounds

"When I started taking Sargon, I only weighed 94 pounds, but now I weigh 111—an actual gain of 17 pounds in a few weeks time."

MRS. CHARLES JOHNSON

"I suffered from stomach and liver trouble for over ten years. I'd have heart burn and gas pains after nearly every meal and was subject to frequent bilious attacks and aches. Constipation was chronic with me and I became badly run down. I was told that I needed an operation, but a friend of mine suggested that I first give Sargon a trial."

"I am simply delighted with the results. I don't know when I've had such a good appetite and I never suffer from gas pains or indigestion any more. Sargon got my liver straightened out too and I haven't had a headache or bilious attack since my second bottle. Sargon Pills completely overcame my constipation and I feel better in every way than in years."

"My husband has started on Sargon now, also my little girl and I've written to my mother about it. We are all enthusiastic over this splendid medicine."—Mrs. Charles Johnson, 545 Willow Ave., Council Bluffs, Iowa.

Weyrich & Hadraba, Agents.

### STOP FOR VISIT HERE

From Tuesday's Daily—Mr. and Mrs. Andy Wineberg, who were residents here during the time the Farmers Co-operative Creamery was being organized last fall, were in the city today for a short visit with the friends that they made during their several months residence in this community, and to permit Mr. Wineberg to visit the very successful plant in this city which is one of the most successful in the state and with a very large increasing volume of business. Mr. and Mrs. Wineberg are en route to Belleville, Kansas, to look after some work for the creamery construction company which Mr. Wineberg is employed, making the trip by auto. Mrs. Wineberg is just getting over the effects of an accident that she sustained while at their home in Seattle, Washington, some months ago and which resulted in the fracture of one of her ankles. They are planning on making a more extended visit here at Belleville.

### STOCK COMPANY SHOWS HERE

From Tuesday's Daily—Last evening the Hazel McOwen stock company appeared at the Parmele theatre, and while the audience was not as large as the company deserved, those who attended felt amply repaid for their time. The company presented as the first offering, "The It Girl," a clever comedy drama which was well given by the excellently balanced company and which abounded in comedy that kept the audience in the best of humor. The company also carries a clever and entertaining orchestra, members of which appear in various vaudeville offerings and musical solos during the course of the play.

### Ready, You Bet

When you want a Radio, you want it "right now." You do not want to have to "tune her in." You want it ready to act at once.

Copy for this Department furnished by County Agent

#### Keith Althouse Wins Trip.

Six Nebraska 4-H club boys have been awarded trips to the American Royal Livestock show at Kansas City, November 11-15, by the Missouri Pacific railroad and the Montgomery-Ward company.

The Missouri Pacific recognized Keith Althouse, Eagle; Floyd Roe-pka, Hickman; Clarence Kraft, Syracuse as the most outstanding club boys of Cass, Lancaster and Otoe counties. They will go to the American Royal with their railroad fare paid by the company.

Leo Dumpert, Exeter, Pay Craig, Fairbury, and Albert Peal, Reynolds won the trip to the Kansas City show from Montgomery-Ward company at Kansas City. They were the most outstanding club boys in the Kansas City territory. The Montgomery-Ward company will pay all the boys expenses to and from the Royal show.

J. F. Lawrence of the extension service at the college of agriculture will accompany the boys to Kansas City next month.

#### Healthful Foods Made Palatable.

The child who does not care to drink milk may relish it when it is served in soups, cocoa, puddings, and other milk dishes. For soups, vegetables may be chopped or strained and added to thickened milk. The vegetables may be asparagus, peas, beans, celery, potatoes, turnips, carrots, spinach, kale, chard, beet roots or green parsnips, lettuce, cauliflower and tomatoes. In the use of vegetable soup the child receives a variety of vegetables and a liberal amount of milk. It is also an economical way of using left-over vegetables.

Puddings made chiefly of milk are desirable in the child's diet. In making cereal-milk puddings allow one-third cup of sweetening and one-half teaspoon salt for each quart of milk. Raisins, dates or currents added may increase a child's desire for these puddings. Other milk puddings such as custards and junket are also healthful for the child.

#### Poultry Meeting.

The directors of the Tri-County poultry association were guests of the Plattsmouth Chamber of Commerce at a luncheon on Thursday, Oct. 17.

After the luncheon the board met with the agriculture committee of the Chamber of Commerce and plans were developed for the Tri-County poultry show to be held at Plattsmouth December 10-11-12-13.

Mr. T. H. Pollock, the representative from the Chamber of Commerce, will work with the executive committee on the poultry show. The members on the board from Cass county are: Watson Howard of Greenwood, Harry V. Bricker of Greenwood, S. Ray Smith, Weeping Water, D. D. Waincott, Weeping Water.

Special premiums are being solicited in the three counties and the catalogues will be mailed November 10.

#### More Soil Saving Dams

##### For Cass County.

Ivan Wood, extension engineer of the college of agriculture, and County Agent Waincott constructed a soil saving dam on Harry Knabe's farm at Nehawka.

Eighteen inch tile were used for the tube which was thirty feet in length. The ditch where the dam was built drained about 12 acres. This type of dam and about half of a fill were put in in one day.

#### Ditch Blasting.

Two demonstrations will be held the first week in November on ditch blasting. One will be on E. A. Nutzman's place, two miles south of Rock Bluff. The other will be on the J. B. Elliott place, two and a half miles southeast of Alvo.

A. J. Williams of the DuPont company and Wm. Partridge of Weeping Water will assist with the demonstrations. The exact date will be announced later.

#### Cornhusking Contest.

There has not been a large number of entries in the county cornhusking contest to warrant a contest for Cass county this year. The state contest will be in Cummings county December 12th.

#### Tree Application Blank.

More than 300,000 trees are being offered to farmers over the state and applications will be approved in order they are received. Farmers in this vicinity are urged to make their requests as soon as possible. The broadleaf and evergreen varieties will again be offered to farmers for windbreak and woodlot planting. Every farmer will be entitled to 400 trees to windbreak planting and 1000 for woodlot planting.

Among the broadleaf trees are American elm, Box elder, Cottonwood, Honey Locust, Green Ash, Catalpa, Soft Maple, Mulberry, Caragana, Russian Olive, and Chinese elm. Those in the evergreen variety will be Scotch pine, Austrian pine, Western yellow pine and Jack pine.

The broadleaf seedling trees will be one year old and from 12 to 18 inches tall. The evergreens will be three years old, transplanted and from 6 to 10 inches tall.

County Agent Waincott is urging Cass county farmers to prepare their ground for spring windbreak planting now by early cultivation. The two factors which determine whether or not a windbreak is to be successful or if it are proper cultivation and careful planting.—D. E. Waincott, County Extension Agent, J. H. Baldwin, Ass't. County Extension Agent.

### Cass County Woman's Clubs Hold Conference

Five Time Enjoyed at the Meeting at Eagle on Last Thursday Despite Bad Weather.

The sixth annual convention of the Cass County Federation of Women's Clubs met at Eagle, Nebraska, Thursday, Oct. 10th, 1929. In spite of the very inclement weather and the almost impassible cross roads there were 187 members and delegates present to enjoy the splendid session.

Convention singing of "America the Beautiful" opened the meeting followed by invocation by the Rev. Allen Chamberlain. The welcome was extended by Mrs. Laura West of the O. E. S. Club of Eagle, to which Mrs. C. E. Tefft of Weeping Water, responded. Club reports took up much of the time of the morning session, the president, Mrs. Nelson Berger, presiding, and Mrs. Dowler acting as secretary pro-tem. The reports of the various clubs were varied and interesting and were suggestive of a busy and profitable club year.

A report of the District Convention prepared by Mrs. Jennie Klimm of Lewiston, and read by the chairman, gave a splendid review of the Sterling convention held last April 9, 10 and 11. Excerpts were given from the address of Miss Gertrude Eaton and Mrs. Whitfield, former president of the district. Mrs. Whitfield expressed herself as a strong believer in prayer. The slogan for the convention was, "Know America, Be American."

Mrs. Mabel V. Bozard, president of the First District of Federated clubs, of Pawnee City, gave the principal address of the coming morning. Her topic was "The Relation of the County to the State Federation." She reports the First District as 100 per cent each of the seven counties in the district having an organized federation. "In the early days," said Mrs. Bozard, "woman's sphere was the home. She was forbidden any outside interest. Children, church, and the home were her cycle. It was thought that a woman to be gentle must be a semi-invalid. The civil war brought about a change. At first it was only those semi-invalids who kept a hired so-called social set, who indulged in affairs outside the home. It is said that the first Woman's Club meeting was presided over by a college professor. The object of the organization was at first purely cultural. The position of the clubs today has been attained by organization. The Piggy Wiggy have a slogan "Your Telephone is your Bell" the door bell of the Federation of Women's Clubs is a two cent stamp. Men think in terms of finance, women think in terms of humanity. The time to begin is today. Today is the crisis."

At noon a delightful covered dish luncheon was served in the basement of the church where the long tables were beautifully decorated with garden flowers. During the luncheon hour the candidates were balloted upon.

Immediate following the lunch hour Miss Gertrude Eaton of North Bend, editor of "The Club Woman," gave an address. Her remarks were confined to the program defined at the meeting of the Executive Committee of the National General Federation to which she was a delegate. This meeting was held at Swampscott, Mass., with the state of Massachusetts, as hostess. Miss Eaton outlined in detail the program of several of the national chairmen. Mrs. Sherman's program includes, "Home Convenience," which in turn brings about "The Use of Leisure Hours" and also includes "Moral and Spiritual Education." In the American Citizenship Dept., the chairman suggests the writing of essays on such subjects as "Why I Should Vote."

Miss Eaton read excerpts from the essay written by a student at the Kansas State University, which presented many good points. A study of the local forms of Government was also included in the Citizenship program. Miss Eaton expressed the need of correction of propaganda that the 18th amendment was passed while the boys were away at war. This is purely propaganda as the passing of the 18th amendment was brought about only after a long period of education. A national committee has been appointed to censor motion pictures. This committee is sent to Hollywood, and there view all pictures silently before they are presented to the public and then submit written criticism as to the moral effect, entertainment value, etc., of the picture. This criticism may be secured in advance of the showing of the picture in your community, so it is no longer necessary for one to be in ignorance of the fitness of the picture. In closing, Miss Eaton paid tribute to the program of the committee on peace.

A report of the 22nd Annual Convention of the State Federation of Women's Clubs was given by Mrs. Ole Olson of Weeping Water. This convention was held at Omaha, Oct. 23, 24, and 25th, and was attended by 92 delegates representing 211 clubs of the state. Judge Way of Iowa, in his address before the convention, on citizenship stated that he thought all citizens should be made to vote or be fined from \$50 to \$100. The theme of the convention was "Law and Enforcement."

The committee on dues, Mesdames Westcott and Young and Miss Heberner presented a change in two articles of the constitution namely, 1. The annual dues of the County Federation shall be \$1 annually per club payable on or before January 1st, pre-

ceding the convention. Section 2. The fund derived from these dues to be used only for the convention unless otherwise ordered by the vote of the convention. These articles were discussed and finally endorsed. "Juvenile Delinquency" was the topic of the address of Mr. E. M. Pollard, recently appointed to this position in the state by Gov. Weaver. Mr. Pollard found when he entered his office that the institutional method was prevalent in Nebraska, in dealing with juvenile delinquency. There are 1,502 children in homes public and private under 21 years of age. For offense it was customary to send the child to Geneva, Kearney, or Milford, as the case might be. He related a very touching incident which he found when he visited the Home for Dependent children at Lincoln, where there are from 112 to 115 children ranging in age from new born babies to 15 years. On this trip of inspection the need of some one to be and mother the children was so vividly impressed on his mind and so strongly pulled at his heart strings, that he in conference with Governor Weaver decided that some other method must be adopted. A survey of the sister states resulted in the adoption of the probationary method. Under this method the children are left in the home and every effort is made to re-organize the home before action otherwise is taken, 98 per cent of the children do not need supervision only 2 per cent represent the element from which comes crime. If children are carefully watched during the tender years a large per cent make good under probation. There are always some however, who are incorrigible. Probation is a new idea of handling children. It tries to connect up school authorities with institutional officers. Mr. Pollard expressed the wish that there be a woman on every school board in the county. Mrs. Rosencrans is the newly appointed probation officer of the county. It is her duty to visit the home, learn and advise, if no change come, the child is then taken before Judge Begley, juvenile judge appointed for Cass county. If he in turn cannot correct the home, the child will then be turned into some other home in the county on probation. The child is followed up in this other home with regular visits of the probation officers and, if he still does not respond he is committed to an institution as a last resort. "The function of the probation officer," says Mr. Pollard, "is very important, more so than the judge. It must be some one who knows, understands and loves children and some one who can approach the parents. There is nothing of more importance to Cass county than to care for her own children."

Mrs. Turpin presented the following resolutions: 1. Be it resolved that Cass County Federation go on

## SHERWIN-WILLIAMS PAINT HEADQUARTERS

THERE'S NO PAINT BARGAIN LIKE SWP QUALITY!

Our most valuable asset is the public confidence of this community. Only by selling merchandise that will give absolute satisfaction can we expect to grow. And that is the only kind you will find here. Sherwin-Williams Paint Products are typical of the class of goods we carry. More people buy Sherwin-Williams paints and varnishes than any other brand—which is just another way of saying that they are the world's greatest paint values. Look over our Friday and Saturday Suggestions at friend-making prices. You'll find hundreds of others just as good at our store.

### Friday & Saturday Suggestions

Save by using the world's finest floor varnish

Your floors are subjected to the constant tramp, tramp, tramp of nailed heels—the sliding and scuffing of little feet—the moving of heavy furniture—spilled water.

A varnish must be a world's champion for punishment to stand up under this, month after month, and come back for more.

And that is what S-W Mar-Not Varnish is—a world's champion. It is made especially for use on floors. It has pigskin toughness to resist continuous grind. You may dent the wood but Mar-Not will still cling to its surface. Dries overnight with a rich, long wearing luster. Hot or cold water does not affect it.

Don't wait until floors look shabby. For best results varnish them now with Mar-Not.

### Home Made Air-plane Falls and Kills Aviator

Machine Made by S. E. Mayabb, Well Known Here Falls When Windstalled.

In a flight made at Grand Island Sunday by Lee Harris, 24, student aviator, in an airplane made and designed by S. E. Mayabb, well known in Plattsmouth, the plane crashed and as the result the pilot was killed.

The plane had never been flown, altho the designer and builder, S. E. Mayabb, had planned to fly the machine to this city sometime in the future where his uncle, Lester Burrows, and his brother, C. L. Mayabb, reside, but as the machine had not yet been licensed the flight had not been made.

A mechanic and welder employed by a Grand Island well company, Mayabb began work on the ship in odd hours just a year and a week ago.

Superintendent Clark of the airport denied it the privilege of the municipal field because it was not built of material specified by department of commerce regulations.

Had Only Student License. The ship had been given a registration number, but not as an approved ship. It had not been certified as to type and was unlicensed.

Harris was a student of the Walter Smith Flying school, with 15 hours total flying and about five hours of solo flying. He, too, had only a student license. He was one of the school's best students, but Walter Smith, head of the school, stated that he had warned Harris against trying out the craft because it was tail heavy.

Smith himself had taxied it across an alfalfa field Saturday but regarded it as too dangerous to attempt flight in it. Moreover a choppy wind made flying more of a particular task today.

Windstalled in Bank. Harris, however, desired to try the craft. Witnesses state it apparently went up easily and that Harris seemed to have it in control until he started a bank at a height of about three hundred feet. Then it suddenly took a plunge. Witnesses said it windstalled, a probable result of tail heaviness. Harris was dead when the plane was reached.

Harris, part owner of the City Delivery service, running a series of light trucks for merchants deliveries, is married and had two children.

### Corn Husking Time!

VALUE GIVING CLOTHING

MADE PROMPT PAYMENT

The prompt manner in which the Bankers Reserve Co., of Omaha, adjusted the matter of a policy held by the late Joseph Ellington of this city, is worthy of special notice. The policy was payable to his estate, hence it was necessary for the administrator to file claim. The claim was mailed to Omaha on afternoon, and at 11 o'clock next forenoon a check for the full amount due was handed to Mrs. Ellington. The adjustment was made through Mr. J. Philip Orchard, field superintendent of the company, who came down to this city to give the matter personal attention. This action certainly speaks well for the Bankers Reserve Life Co., as well as for its genial representative, Mr. Orchard.

Your Halloween party will be a grand success if you get Dennison's Halloween decorative material and novelties at the Bates Book Store.
