## KNABE'S EIGHTH ANNUAL Bred Sow and Gilt Sale

# FRIDAY, FEBRUARY 7th, 1930

To Be Held —AT— **Hick's Sale Barn, Nehawka, Nebr.** To Be Held —AT— **Hick's Sale Barn, Nehawka, Nebr.**

### Beginning at 1:00 O'Clock P. M., Sharp!

We are offering to the public one of the best offerings of bred sows and gilts to be sold this year of the breed. They will be bred to the best battery of Herd Boars I ever used together on this farm, and I don't mean maybe. Especially the Junior pair, Boys' Promoter and Clean Sweep, the best pair of boar pigs ever used together in one herd. The boars these sows and gilts are bred to include—

**YANKEE KING, JR.**—Sired of Champion Belted Litter of 10 pigs at Nebraska in 1928; also sire of that great boar, Trail Blazer, I, which Pemberton sold a one-half interest in to Big 4 Farms this fall for \$250. This year he sired Junior Champion Gilt, first Get of Sire, first and second Produce of Dam, second Young Herd, and 3 gilts out first prize Young Herd, first Senior Gilt and first Junior Gilt, at Nebraska in 1929. He also sired first prize Pig Club Litter at Nebraska for past 2 years and this year at County Fair he sired Grand Champion Sow over all breeds.

**BUBBLING SENSATION**—The first prize Senior Yearling Boar at Nebraska in 1929. He will add size to your herd, with plenty of bone and real lamp type.

**GOLDEN HAWKEYE**—One of the snappiest clean-cut Junior Yearling Boars of the year and he breeds them that way. If you don't believe me, be on hand sale day and see a Fall boar pig by him.

**PROMOTER**—The Junior Champion Boar of Nebraska and Grand Champion Boar over all breeds at County Fair. He is claimed to be the greatest pig of the breed for the year by best judges and fieldmen. I know he is by far the best boar I ever owned and that is saying a lot. He is a boar backed by generations of champions, so why shouldn't he be good? I refused \$400 for him this fall. He is a full brother to Nehawka Whirlwind, which I sold as a pig and has been many times Grand Champion in the past few years.

**CLEAN SWEEP**—The new out cross boar I bought this year, and he is some boar—one of the top pigs of the year. Most any of my former customers can use a sow bred to him.

Where 5 or more animals are purchased in same community, they will be delivered FREE up to 50 miles from Nehawka, and will pay One-Half the express on all sows bought for Pig Club work.

### SPECIAL NOTICE TO BIDDERS!

## Dyer Suggests Beverages of 3 Percent Alcohol

Tells President Wickersham Commission Might Fix This as Maximum.

Washington, Jan. 25.—After a call at the White house, Representative Dyer of Missouri, ranking republican on the house judiciary committee, said today he had suggested to President Hoover that the law enforcement commission be asked to fix the percentage of alcohol which could be manufactured in any beverage in compliance with the Eighteenth amendment.

Dyer said the benefit of increasing the limit of alcoholic content within the nonintoxicating range would make legitimate the manufacture of a beverage which would be palatable and would eliminate the illegal but widespread practice of home-brewing.

The Wickersham commission, he added, undoubtedly would report to the president and to congress that beverages containing not more than 3 per cent of alcohol are non-intoxicating, and, in fact, possibly would express the conclusion that a change in the law would assist in enforcement.

"There is every reason to anticipate," Dyer said, "that if the people were enabled to secure these non-intoxicating beverages in compliance with law the public would be more amenable to the prohibition enactment."

He asserted he felt the Wickersham commission was in position to find out what beverages were intoxicating, and that its finding would bear weight not only with congress but with the people as a whole.—World-Herald.
