His subject was of a nature of building character, and spoke much on self-made man. The danger he pointed out was of the self-made man that he was apt to worship his maker, or himself. He challenged the action of the students to the fact that they should have high ideals, to get all the assistance possible from all sources to build a character which would endure through the ages of time. He thought that there was but one perfect character to pattern after and that was the Master.

LIBRARY NOTES

During the month of January 3, 665 books were exchanged in the Public Library. The largest daily circulation was 254. The most called for book continues to be "All Quiet on the Western Front." Another book which is causing much interest and comment, both favorable and unfavorable—is "In the Cradle of the Deep" by Joan Lowell. This title was chosen by one of the Books of the Month Club last fall, as one month's offering. Later it was recalled by the club, and also taken from the American Library Association list of recommended books, because it was thought to be not an authentic story of the author's life, as she claimed to be. At present, it has been again accepted by the American Library Association and put in its list of non-fiction books. The reading public will have to decide for itself by reading the book, whether or not it is a true story.

The following new books have been received for the International Mind Alcove: French France by Oliver R. Huer, for a very fair presentation of the French people, with a sympathetic interpretation of their ideals, their prejudices and their ways of living. An Irish Romance by Charles G. Howland. A cheerful and amusing informal account of a visit to Ireland.

The Desert Road to Turkestan by Owen Lattimore. This book connects very interestingly with "New Journeys in Old Asia," and "The Sunny Side of Asia," already in the Alcove collection.

Black Roadways by Mortha A. Beckwith. An authoritative book on the folk life on the island of Jamaica.

This World of Nations by Pitman B. Potter. A book which will give a broader and more tolerant and intelligent view of the world as a whole.

The Boy Scouts and Campfire organizations in the city are great users of the library. The Boy Scouts are reading far points and the Campfire girls are asking for books on Campfire work.

The Y. L. R. R. A. is beginning another new year. Anyone may belong to this group by paying one dollar. This gives you the privilege of reading any books on the Y. L. R. R. A. shelves. These books are always the latest and best works of fiction, most of which the library could not afford to buy at once, without the dollar subscription. At the end of each year, the books most widely and usefully are added to the library collection. Over a thousand books have been added to the library in this way. You are benefiting too—the library and yourself—by subscribing to the Y. L. R. R. A. This is the place, and, we think, is superior to a pay collection.

The Story Hour for January 31 was in charge of Miss Martins and Miss Edith Farley. A health playlet was given. Miss Helen Farley had the play 7 hours. Mrs. Carl Ofe, Feb. 14, and Miss Ault, Feb. 21st.

Are you a member of the Chamber of Commerce? Only \$5 per year.
