Sound Economy

Does not consist of Spending the Least possible for what is absolutely needful in caring for Heavy Investments.

When one has purchased expensive machinery, and much of it of a delicate mechanism, that machinery and that investment needs care—needs to have a fair, square opportunity to make good the purpose for which it was made. Automobiles, Trucks and Tractors cost much in the initial outlay. Why not use best lubricants? Did you consider Pennszoil—the oil which is outstanding in its purity and long wearing qualities? Costs slightly more and is well worth it, for it spells protection to your auto or other machinery as well as the smooth running, best execution and highest power. Costs less in the long run—and always serves you best.

Gets Truck Load Potatoes.

Violet Anne Waldo.
Little Violet Anne Waldo, the ten months old daughter of Mr. and Mrs. Chester Waldo, after several days of very severe illness died as she was being taken to the hospital at Omaha. The little one had been given the best of nursing and medical care, but constantly grew worse, and with the facilities which are at the hospital it was thought that the little one's life might be saved.

It was decided to take the little one to the hospital at Omaha early last Sunday afternoon and as they were nearing the city a tire of the doctor's car blew out. A passing car took the little one and its mother and hastened on to the hospital, but the death angel intercepted the hurrying car, and claimed the babe before they were able to reach the hospital.

Chickens Growing Rapidly.
Some time since A. F. Sturm purchased some nineteen hundred baby chicks and at the same time Granville Heebner got one thousand. Both gentlemen have done well on the growth of the chicks as they have many which are now weighing over a pound and all doing well. George Lopp also received a shipment of some three hundred this week and they are getting started. Looks like there will be plenty of chicks this year.

Will Make Home in East.

Egan in the dental business. Mrs. Johnson is 73 years of age and is making her home with her daughter, Mrs. Schlichtemeier. Mr. Johnson will locate at Rutland, Vt.

Present Wonderful Show.
Last Saturday, having gotten the machinery installed, the first talkie was presented at the Auditorium and was listened to and watched by a large and very interested audience. The title of the play was "The Idle Rich," and made a hit. There will be a play with each Saturday night and at such other times, as occasion seems to justify.

Says Wonderful State House.
For years Olaf Lundberg has stuck to business and has always been at his place and ready to serve. But last Sunday Mr. Lundberg and family and Verner Lundberg and family hitched up the reliable limousine, and headed it for the west, following the advice of the world famed Horace Greeley, and in the course of an hour and fifty-nine minutes found themselves in Lincoln, with the new growth and changes of recent years, and as Mr. Olaf Lundberg has stuck to the business and not been to Lincoln for the past 11 years, he was much surprised.

However they wanted to see, and went to the state capitol, where they made a very critical examination of the building, which is nearing completion, and which is expected to be finished in the next 14 years, and found a most wonderful building. Olaf says that he could not see but the building should stand until it was completed if nothing happened unlooked for.

I have the agency for the celebrated Rawleigh Products for the east half of Cass county. I shall call at all farm homes with samples and shall appreciate your patronage. The excellence of these goods are well known as there are none better. I shall thank you for what orders you can give me.—Chester Plybon, f27-21w.

Will Have Better Roads.
Two sets of petitions have been circulated for the graveling of two sections of county roads, which will greatly improve the roads leading to Nehawka and the main highways adjacent thereto. One contemplated, the graveling of the road leading south a mile from O street south of Nehawka, and then a mile east, again south a mile and then east to the highway No. 75 which leads to Nebraska City and also the north. The other section of road is to run from one mile south of O street, and directly south of Nehawka, where it ex-

tends south to the county line, and thence west one half mile, thus providing for good roads in this entire section.

the NEW Polarine

is the modern motor oil

New refining equipment and processes alone made possible the new Polarine—with every desirable quality oil can have—free from disadvantages previous refining processes had never overcome.

The new Polarine contains less than half the carbon residue of old process oils—has greater lubricating value—deposits less carbon in the motor.

The lighter grades of the new Polarine have a "pour point" below zero. The heaviest grades flow at 17° below freezing.

In stability and protective body at high engine heat the new Polarine sets new standards.

The light, bright color of the new Polarine shows freedom from wax and tar ingredients.

On all points of both quality and performance, you cannot buy an oil—made by any process, from any grade of crude, at any price—that will do more for your motor than the new Polarine.

This new Polarine is sold at no advance in price. Consult the Chart for the correct grade.
