Passing of Pioneer Resident of Union

Joseph Hathaway Laid to Rest in Community Where He Was Born May 27, 1859

On Sunday afternoon at 2:30 there was held the last services for Joseph Hathaway, a lifetime resident of Cass county and well known in the vicinity of Union and Murray, he having made his home in that section for all of the years of his life.

The services were at the Christian church and were conducted by the Rev. W. A. Taylor, a friend of many years standing of the deceased and his family and who brought to the sorrowing ones a sense of comfort in the future that was before their loved one in the glorious reward of the hereafter.

The interment was at the Lewis-ton cemetery southeast of Murray. A very large number of the friends accompanied the cortege to the last resting place.

Joseph Hathaway, son of Abraham and Anna Hathaway, was born near the present town of Union on May 27, 1859, and entered into the last long rest on Friday, March 21st 1930 at the home at Murray where he has been making his home for some time.

The deceased was one of the three survivors of a family of twelve children and he leaves two of the brothers, George Hathaway of Union and A. D. Hathaway of Crete, Nebraska, as the sole survivors of this pioneer family. Mr. Hathaway was united in marriage to Miss Martha Chalfant, daughter of William and Diana Chalfant, another of the pioneer families of the county, at the Chalfant home near Union on January 1, 1886. Mrs. Hathaway and one daughter, Mrs. J. E. Lancaster of Murray, survive his passing as well as two grandchildren and a number of nieces and nephews are surviving.

Mr. Hathaway was one of those who by his labors and efforts helped make this section of Nebraska a great agricultural empire that ranks as one of the greatest in the world. In their loss the family has the deepest sympathy of a host of friends over the entire county.

AUDITOR HELD FOR TRIAL

Topeka—Will J. French, Kansas state auditor, Tuesday was held for trial in district court, on charges of embezzling \$1,493 from a state fund. Judge Hugh C. Larimer, who presided at the preliminary hearing held that there had been sufficient "showing of intent to warrant a trial. The case may be reached at the April term of district court. French's bond of \$2,000 was continued.

Evidence was presented to show that French had drawn six checks on a fund which he administered in the settlement of a property dispute involved in the change of a river bed, and converted the money to his own use. The money was returned with interest. French contends that the transactions were legitimate and that the embezzlement charges were instigated because of his political differences with Governor Reed.

Midwest Swept by Wintry Wind and Heavy Snow

Chicago Is Center of Storm of Violence and of Wide Extent—Highways Badly Blocked

Chicago—Strong winds and swirling, drifting snow held transportation almost at a standstill in the midwest Tuesday, hampered communication, caused numerous accidents and at least three deaths. The storm swept over the lower great lakes states and extended south into the Missouri Ozarks.

Chicago, blinded by the snow and crippled by the drifts, received a snowfall of 10 inches by 4 o'clock and forecasters predicted diminishing continuance of the storm until noon Wednesday. The fall appeared certain to eclipse the previous March record of 12.5 inches set in 1926. The snow was driven before a northwesterly wind which reached a velocity of thirty miles an hour and diminished only slightly thru the day.

Highways were blocked, street cars were unable to hold to the rails, elevated trains collided twice and autos skidded and stalled. In one of the elevated collisions a motorman was severely injured and several passengers suffered slight hurts. A negro slipped on the sidewalk, suffered a fractured skull and died. An unidentified man slid beneath the wheels of a heavy motor bus as a gust of wind caught him on a slippery curb. He was killed. A third victim walked into the path of a hit and run driver on the south side. In Gary, Ind., the gale fanned the flames of burning eighteen family apartment house and the snow rendered firemen useless. One man was killed, another probably fatally injured and a third remains unaccounted for. Other dwellers were driven into the storm in their night clothing.

Many Illinois and Indiana cities were cut off from outside communication. A large number of motorists were marooned over the two states.

Forced to Abandon Car.

Deputy sheriffs conducting five prisoners from Peoria, Ill., to a prison farm at Vandalia were forced to abandon their automobile at Macon, Ill. They did not report early Tuesday night.

An expectant mother, injured when two automobiles collided on a country road near Chicago, is expected to die as the result of exposure. Two hours elapsed before help arrived. Chicago babies felt the pinch of the storm in the inability of dairies to make deliveries. Milk drivers were forced to abandon their wagons and deliver by foot.

A postman walking blindly into the path of an automobile and receiving injuries that may cause his death was only one of many such victims over the city.—State Journal.

Opposition to Parker Develops in the Senate

Labor Officials Direct Attention to Mine Workers' Decision—Ruling Is Scanned

Washington, D. C., March 25.—Signs of opposition of Judge John J. Parker of North Carolina as a member of the supreme court developed in the senate today with representatives of organized labor making a study of his decisions.

Officers of the American Federation of Labor stated tonight that they had reached no conclusion on their attitude toward the nominee pending a scrutiny of his decisions as a judge of the federal circuit court of appeals.

However, representatives of labor did call today at the capitol to direct the attention of members of the judiciary committee to a decision by Parker in a case involving the United Mine workers.

An injunction in that case, which was asked by the Red Jacket Coal company, to restrain the mine union officials from soliciting membership among nonunion members, was upheld by the federal circuit court of appeals on which Parker was serving.

This particular decision is receiving close scrutiny at the capitol. It was called to the attention of members of the judiciary subcommittee which now has the Parker nomination. Senator Overman (dem., N. C.), chairman of this subcommittee said he would call a meeting for later in the week.

Chairman Norris of the judiciary committee said he had not had an opportunity to inquire into the decision and he withheld an expression of opinion.—World-Herald.

RUSSIAN AGENTS SEEZE ROYALIST

Paris, March 24.—The afternoon newspaper, La Liberté, which has been conducting a campaign for the breaking off of relations between France and Russia, Monday published an article in which it averred that Gen. Alexander Paul Koutie-poff, czarist leader, who disappeared last January, had been kidnapped by Russian agents and was alive and in prison in Moscow six days ago. The newspaper asserts that Koutie-poff, who was chief of the Russian royalists throughout Europe, was forcibly carried aboard a Russian steamer off the coast of Normandy Jan. 26.

New Planet is Dubbed Pluto by Italian Savants

Laud United States Astronomers for Their Discovery; Photography Discovery.

Milan, Italy, March 25.—"Pluto" is the provisional name that Italian astronomers have given the new trans-Neptune planet discovered March 13 at Lowell observatory, in Flagstaff, Ariz.

Prof. Emilio Bianchi and his assistants of Breara observatory, have photographed the new planet, despite the fact that the weather has been bad, and they hope with one more night to contribute somewhat to the American searches.

Prof. Bianchi sees the American discovery as substantiating Newton's theory of the law of gravity. He also paid tribute to Prof. Percival Lowell, who first predicted a planet would be found in the positions of the new body, and paid tribute to the work of his successors in the past 14 years.

Define Name.

"The United States not only has powerful economics and technical means," he said, "but is truly served by men of high knowledge and fervid tenacity."

He was the son of Saturn and the brother of Jupiter and Neptune. He ruled the internal regions and was generally called Hades by the Greeks.—Omaha Bee-News.

THREE KILLED BY FLAMES

Redwood Falls, Minn.—A mother and two sons were burned to death while the father and his brother were seriously burned in a fire which destroyed their farm home near here early Monday. Physicians said recovery of the father is doubtful. The dead are Mrs. F. N. Stronach, forty; George, twelve, and Gordon, ten. Stronach, forty-five, was burned severely but succeeded in escaping with his brother, William, thirty-nine.

Mrs. Stronach saved two small children, both under six years of age, before she died in a vain attempt to rescue George and Gordon, who apparently were burned to death in their beds. She had carried the two smaller children to safety and returned to the burning house for the others when the floors collapsed.

BORAH SLAPS LEGGE VIEWS

Washington, March 25.—Alexander H. Legge, chairman of the federal farm board, was taken to task in the senate Tuesday by Senator Borah (R., Idaho), on Legge's statement that he is against the debenture amendment in the tariff bill passed by the senate Monday night.

"I see that Mr. Legge has taken a little time off from his arduous labors to tell the country what he thinks about the debenture," said Borah.

"Legge should spend a little more time learning what the farmers want and a little less time giving out statements to the newspapers."

Senator McKellar (D., Tennessee, called attention to an "advertisement" of the Kiplinger-Washington Co., which he said, was undertaking to sell information about the farm board.

FIRE DAMAGES KILLIAN STORE

Norfolk, March 24.—The building and stock of the A. L. Killian Co., Norfolk's largest department store, were badly damaged by fire Sunday night. Fire Chief Boehnke said he believed the blaze was of incendiary origin.

Breaking out in an office suite occupied by Dr. C. R. Mullong on the second floor of the building, the flames swept upward into rooms occupied by the Norfolk College of Business on the third floor.
