

### GREENWOOD

Mrs. H. M. Stevenson of Lincoln spent Friday at the Ben Conley home.

Mrs. O. F. Peters visited her daughter, Mrs. E. L. James and family Tuesday.

Mr. and Mrs. Ben Binger of Omaha visited Mrs. Ailie Buckingham Thursday.

Mr. A. Ethridge and Mrs. Hise and son LeRoy were shopping in Lincoln Saturday.

Pearly Clymer, John Elwood and Hank Hansen were in Ashland Tuesday on business.

Mr. and Mrs. Harold Walling of Chappin, were supper guests at Mrs. Sadie Reese's Sunday.

Mr. Chas. Walling and family of Fremont were supper guests at Mrs. Sadie Reese's Sunday.

Mrs. Fred Prouty and Mrs. Vera Lancaster and Mrs. Elmer Bennett were in Greenwood Friday.

Mr. and Mrs. Lufe Mullin and daughter, Neta, were dinner guests Sunday of Mr. and Mrs. Lincoln Dimmit.

Mrs. Earl Anderson and Mrs. Norma Hurlbut and daughter, Merna of Lincoln were dinner guests Sunday of their mother, Mrs. Wm. Cope.

Mrs. A. R. Birdsall, the Misses Harris, Nystrom, Kemp and Neutman accompanied Miss Clark to her home at North Loup and spent the week end.

Mr. and Mrs. Clarence Hurlbut and son Junior, of Fremont, and Mr. and Mrs. Fred Wolfe were dinner guests Sunday of Mrs. Lulu Hurlbut.

O. F. Peters and wife and their son, Grant, were over to Omaha on Monday of last week, they driving, and were looking after some business matters.

A. F. Weibke and Dr. N. D. Talcott were kept at their homes and a good bit of the time to their beds last week with the flu. They are both better at this time.

Three men with three Ford trucks one day last week passed through Greenwood enroute from Detroit to Denver with a cargo of twelve Chevrolet cars, hauling them on extended bodies.

Mr. and Mrs. Wm. Rorabeck and daughter, Miss Wilma of Unadilla and Mrs. Annie McSwain and daughter, Miss Evangeline of Syracuse, were visitors at the C. E. Calfee home Sunday.

W. E. Pailing and B. A. McElwain were over to Lincoln on last Thursday where they were visiting with friends and as well looking after some business matters which each had in the big city.

A. R. Spire, who had been for the past month working at Corning, Ia., for the Burlington, where he was relieving the agent for the time after completing his work last week, returned to Greenwood.

A very fine rain came Monday evening to break the long dry spell of this spring. This put the ground in splendid shape for the corn planting season. Wheat, oats and pastures are looking fine.

E. A. Leesley has just had a new 1000 capacity chick brooder installed at the home farm. George Bucknell of the firm of White and Bucknell, the firm that sold the brooder, was out and installed it.

Mr. L. V. Sheffer who has been confined in a hospital in Lincoln was brought home and is getting along as well as can be expected. His many friends hope he will be able to be around as well as he used to be soon.

James M. Teegarden and Henry Crozier better known as Doc, both of Weeping Water, and forming a very enterprising real estate firm were in Greenwood for a short time last Wednesday looking after some business in their line.

Albert Ethrege was hustling in getting his plows in condition, having been using a span of mules of Frank Rouse which he is making pay board by doing some plowing. Well, that is what mules are for, to work, so put them to it.

Mr. and Mrs. Edward Kelly of Fresno, Calif., announce the birth of twin daughters, Tuesday, April 8. Mrs. Kelly was formerly Miss Dorothy Doyle, daughter of Mrs. T. J. Doyle of Lincoln, and Edward is a former Greenwood boy.

The farmers in the vicinity of Greenwood were pleased with two rains which came, refreshing the vegetation and making it possible for the oats and other small grains to get a start. The two making exactly one inch, they being 7/16 and 9/16.

Mr. and Mrs. W. A. White were enjoying a visit last Sunday from their friend, John E. Caley of Stirling, where Mr. and Mrs. White formerly resided, and where they and the Caley family were very close neighbors and very close friends. They enjoyed the visit very much.

The Misses Dorothy Williams and Alta Kemp who are attending Wesleyan University were week end visitors with Mr. and Mrs. Hayden Hughes and family. The young ladies were seniors at Rulo last year where Mr. Hughes taught. Miss Dorothy Williams is a scholarship student.

Fred Ethrege who has been persistently working at the home since he had the house moved, is getting along very nicely and is just completing the exterior painting, having two coats on some time since and was waiting for the second to dry that the last and finishing coat might be applied. Fred sure is a hustler to work.

George Trunkenbolz, the hustling city marshall, and manager of the Greenwood water and lights, has been quite busy for the past week in getting the streets of Greenwood in the best possible shape. He has this

completed, and if George looks after his political fences in the county as a candidate on the democratic ticket for sheriff as well as he did in getting the streets of Greenwood in condition, he sure will cover the proposition well, and should win with hands down.

**Has Some Fine Pigs.** We happened past the home of Wm. Rouse when we visited Greenwood last week, and chanced to observe a litter of spotted Poland and Chinas which were farrowed on March 3rd and for which he refused an offer for the mother and five pigs of fifty dollars. They are pure bred and are registered.

**Greenwood Transfer Line** We do a general business—make trips regularly to Omaha on Monday and Thursday, also to Lincoln Tuesday and Friday. Pick up loads on these trips. Full loads at any time. FRID HOFFMAN.

**Building a House at Farm.** W. A. Backemeyer who lives a few miles east and south of Greenwood, is at this time just completing a new house on the farm which will serve this gentleman and the good wife nicely. The new home is to contain five rooms and will be equipped with all modern conveniences, thus making a very fine home. The building at this time is enclosed with the roof on and work is going on in the interior, and he is hoping before not so long to have it completed to that extent that it can be occupied.

**Men's Annual Entertainment.** The men's party was given last week at the I. O. O. F. hall, and was given on Tuesday evening and was attended by some fifty who sure enjoyed the occasion to the limit. The men were the entertainers throughout. They proved both good caterers and at the same time entertainers. In their games which were arranged that all prizes were won by ladies, for the men did not put up the prizes for their members to compete for were as follows: First Royal, Mrs. Angie Lemon, and Royal, Mrs. Clyde Newkirk, while the consolation was won by Mrs. Carl Weideman.

**Been Hustling This Spring.** Gust Sorman, the carpenter and builder has been hustling thus far this spring, having just completed the new farm home on the Irvin Aulthouse farm and is at the present time constructing a barn for James Greer, both of the buildings being some four miles south of Greenwood.

**FISH MEASURE IS PASSED** Washington—A step toward conserving and propagating marine life to furnish food for the table and sport for the fisherman was taken Wednesday by the house when it passed and sent to the senate the White bill to authorize \$3,335,000 for expansion of the bureau of fisheries.

The marine measure has been before congress for several years. It sets aside \$1,835,000 for new construction and \$1,500,000 for maintenance and additional personnel in a five year program. The measure provides for establishment of fish culture stations at sites to be selected within the five year period as follows:

New Mexico, \$50,000; Idaho, \$50,000; Southern Wisconsin, \$50,000; Montana, \$35,000; Colorado, \$35,000; New Hampshire, \$25,000; Indiana, \$50,000; Pennsylvania, \$100,000, including a substation; Texas, \$35,000; New York, \$35,000; Maine, \$50,000; Minnesota, \$50,000; Gulf coast of Texas, \$75,000; Nevada, \$50,000; Illinois, \$75,000; New Jersey, \$75,000; Ohio, \$35,000; Kansas, \$35,000; North Dakota, \$25,000; Alaska, \$50,000.

**LEGGE EXPLAINS POSITION** Topeka—Asserting that the outlook for the wheat grower on an export basis does not seem bright, Alexander Legge, chairman of the federal farm board, in a letter to the Kansas chief executive's office Friday stated "it is our duty the facts before the growers in the hope they may gradually adjust production to the probably consuming demand."

Repeating to the governor's recent criticism of acreage proposals the board chairman said "Wheat is the only crop on which we are advocating a program of reduced production to a domestic consumption basis," and that while some reduction in cotton was being advocated, the question of improving quality "is perhaps the most important."

"We believe," he said, "that with some adjustment, the American grower of cotton can stay in the export field. We cannot, however, see any such hope for the wheat grower."

**SINGLE SURVIVOR OF CLUB** Atwater, Minn.—One of the two remaining members of the Last Man's club of Civil war veterans, Peter O. Hall of Atwater, ninety-one years old, died suddenly at his home Friday night. Charles Lockwood of Chamberlain, S. D., eighty-nine years old, now is the only surviving member of a gallant band of veterans of B company, First Minnesota volunteer infantry in the Civil war, and to him goes the solemn honor of drinking a bottle of old Burgundy wine as a toast to his dead comrades. The Last Man's club was organized at Stillwater, Minn., by thirty-three surviving members of B company on July 21, 1888. A bottle of wine was purchased then and it was agreed that the last survivor should drink the toast.

The ranks of the Last Man's club has been trimmed from three members to one in the last eight months. John Goer, St. Paul, died Aug. 27 last.

Washington, D. C., April 18.—An expression of belief by W. H. Stayton, chairman of the board of the Association Against the Prohibition Amendment, that President Hoover "is beginning to doubt whether prohibition can be enforced" was received today by the senate lobby committee.

The opinion was contained in a letter written last February by Stayton to Charles S. Wood of Philadelphia, a vice-president of the wet organization.

The Stayton letter was introduced into the lobby committee record while Henry H. Curran, president of the Association Against the Prohibition Amendment, was testifying for the third day. Curran had said a while before that the article is turning against prohibition in congress.

The letter by Stayton said Chairman Graham of the house judiciary committee, which has been holding prohibition hearings had urged him to ask W. W. Atterbury, republican national committeeman from Pennsylvania, and a wet, to testify before the committee.

"I believe," the letter added, "that if General Atterbury should take the stand it would cause a great many people to be more generous as to Mr. Hoover's attitude.

"I think there are thousands of people—and especially prominent people here—who would at once say that, if General Atterbury, with his strong convictions on this subject, is willing to wait for Mr. Hoover's calm consideration, then the rest of us ought equally to be willing to wait."

**"Strictly Confidential."** The letter from Stayton to Wood further said in part:

"This is absolutely confidential. Judge Graham, who is, I suppose, thinking not only of the wet and dry issue, but also of the republican party, which he very dearly loves, has shown that these matters are so close to his heart that he has personally urged me to do three things:

"1. To ask General Atterbury to come down and go to the stand for a few minutes on Wednesday or Thursday. Way will be made for him instantly and he will not be detained.

"2. To put Judge Graham himself in touch with Mr. Pierre Du Pont in Florida. Mr. Du Pont went there yesterday to stay until the 27th of this month, but Judge Graham is going to ask him to come back here and testify on the 19th or 20th.

"3. The judge is also going to reach Senator Wadsworth in Cuba by phone and ask him to break up his vacation and come back for the same purpose."

"I cannot ask you too strong to impress upon General Atterbury that Judge Graham thinks the three above mentioned things of vast importance to the cause."

Questioned about newspapers which used publicity of his organization, Curran named two in Montana—the Butte Miner and "The Anaconda something."

Butte Miner went out of existence several years ago, Senator Walsh, democrat, commented.

Several in the audience applauded.

Curran also named a number of papers along the Atlantic seaboard which used the publicity.

Many of the small town papers "ditched" the publicity, he said adding:

"The editors would have to leave town if they used it."

Curran predicted that the enforcement bills would not be passed by the present congress. He said his organization had taken no action on them.

**Raskob Letter Into Record.** A letter written the latter part of last year by John J. Raskob, chairman of the democratic national committee and a director of the association against the prohibition amendment, which requested funds for the association, also was placed in the record.

It was sent to 494 persons who contributed to the democratic campaign fund and resulted in 12 donations totaling \$875. A similar letter, sent to 240 republicans by Lieberman du Pont, an official of the association, brought in five contributions aggregating \$2,125.

Senator Robinson (rep., Ind.) said today he had intended to recall Raskob before the committee for questioning concerning the letter, but that the democratic chairman as in Europe and will not return for two months.—World-Herald.

**SEED OATS** Extra good seed oats for sale. Call 3903.—Sam Gilmour.

Need help? Want a job? You can get results in either event by placing your ad in the Journal.

**GREETING CIRCLES GLOBE** New York—A message of greeting, and starting from New York, twice circled the globe in two hours and five minutes, making a momentary call on each of the eighteen most important foreign bureaus of the Associated press, and four bureaus of its ally, Reuters of the British news agency.

Announcement of the result of the test which was made on March 3' was withheld by the Associated press until the eve of its annual meeting which convenes Monday in New York.

**PASSING OF EARLY TEXAN** Washington—The death of Representative R. Q. Lee of Cisco, Tex., marked the passing of one of the prominent early settlers of the west Texas plains country. Stricken by paralysis five weeks ago, the seventy-one year old Texan died Friday morning in a local hospital. His was the first death among the Texas delegation in a score of years. Both the senate and house adopted a resolution of sorrow and adjourned out of respect to his memory. President Hoover sent a letter of condolence to Mrs. Lee and her five children.

A congressional delegation of twenty-four house members, including the Texas delegation and senators Connally of Texas, and Bratton of New Mexico, was designated to accompany the funeral party, which was scheduled to arrive in Cisco Sunday.

### Thinks Hoover Doubts About Enforcement

So Writes Stayton in Letter Read at Hearing—Takes Attitude of Hopeful Waiting

Washington, D. C., April 18.—An expression of belief by W. H. Stayton, chairman of the board of the Association Against the Prohibition Amendment, that President Hoover "is beginning to doubt whether prohibition can be enforced" was received today by the senate lobby committee.

The opinion was contained in a letter written last February by Stayton to Charles S. Wood of Philadelphia, a vice-president of the wet organization.

The Stayton letter was introduced into the lobby committee record while Henry H. Curran, president of the Association Against the Prohibition Amendment, was testifying for the third day. Curran had said a while before that the article is turning against prohibition in congress.

The letter by Stayton said Chairman Graham of the house judiciary committee, which has been holding prohibition hearings had urged him to ask W. W. Atterbury, republican national committeeman from Pennsylvania, and a wet, to testify before the committee.

"I believe," the letter added, "that if General Atterbury should take the stand it would cause a great many people to be more generous as to Mr. Hoover's attitude.

## The popover has just popped over

### ... EAT IT NOW

THE TIME to eat a popover is when it has just popped over. When it has reached its climax, and is puffed and crisp. Listen to it crackle when you break it apart for butter.

And the time to eat vegetables is when they've just been picked. They will never be so fresh again. The peas will never be so firm, knuckled tight in their pods . . . nor the corn so glistening and sweet under its silk. Shell the peas, husk the corn, hustle them into the pot. Have all your vegetables at their climax moment—with a garden of your own.

Ferry's purebred seeds are eager to burst into growing; and are fresh at the "store around the corner." They are purebred—all their name says they are. Their parent-plants and grandparents before them produced vegetables and flowers that approached perfection. What their parents were, these seeds will become. Use Ferry's Seed Annual to help you in selecting; and to know of mulch paper, and new ways to cook vegetables. For the Annual, write to D. M. Ferry & Co., Detroit, Michigan.

P. S.—A GARDENER HAS NO SECOND CHANCE. PLANT THE BEST.

Ferry's Golden Seed Annual is a good one to have in your kitchen. Here are the seeds they help bring back, year after year, to you.

## FERRY'S purebred SEEDS

### Rain Has Benefited Crops of Every Kind

Winter Wheat Shows Up Well in State and Rain Has Relieved Dry Condition of Soil.

Recent general rainfall has supplied the state with the necessary top-soil moisture, and prevented serious injury to crops which had been threatened by unusually dry weather and warm winds during the first two weeks of the month, according to Nebraska bankers in their first mid-year report to the State and Federal Division of Agricultural Statistics this year.

Winter wheat as reported by bankers before the recent precipitation, showed a condition figure of 87% and a probable abandonment of 3.8%. Spring work was considerably advanced compared to normal on April 15 and the change of tenants on Nebraska farms has been about as usual.

Hay prices are lower than last year; there are less hogs left for marketing and a slightly smaller number of sows to farrow than last year.

Generally winter wheat is in good condition. The subsoil is well supplied with moisture and the crop was well covered with snow during the lowest temperatures of the past winter.

The recent rains over the entire state have relieved a condition of dry topsoil which was caused by warm weather and periods of high winds during the first half of April. March precipitation was far below the normal. Condition reports varied from 94% of normal in the southern district to 79% in the northern district, while estimates of abandonment were highest in the northwest district with a percentage of 12% of the acreage sown last fall.

The north-eastern and southern districts show practically no abandonment. The average abandonment for the state was estimated at 3.8% before the recent rains had been received. Due to rain intended conditions the present intended abandonment should be less than the present indications.

Bankers report 80% of the oats seeded to date as compared to 75% seeded at this time last year. Although the moisture supply has been too short to allow oats to germinate properly in a few counties, benefit rainfall is expected to benefit the crop to a large extent. In the eastern and southeastern districts, the oats crop is practically all seeded and a large part of it is up at the present date and greatly benefited by the rainfall during the past few days.

As a whole, bankers report no serious damage to oats but the crop was much in need of moisture by the eastern and large extent. The northwestern counties have approximately 25% and the southwestern counties about 56% of the oats crop seeded to date.

Farm work is somewhat more advanced than usual. Recent weather conditions have been favorable for ground preparation and spring seeding. Bankers from a few southern counties report that corn planting will begin during the last week in April.

Local prices for corn and all kinds of hay are considerably below the prices reported at this time last year. The average price for corn is approximately 11 cents per bushel below last year's price, while prices for alfalfa hay are nearly \$3.50 per ton lower and all other hay fully \$2.50 per ton lower.

The supply of hogs to be marketed during the summer and early fall is less than last year's supply, with an indicated figure of 92% of the supply on hand a year ago. A decrease of 5% in the number of broods sows is indicated by a summary of returns from bankers.

Bankers say that farm indebtedness has been reduced, in general, over the state during the past year. There are some reports showing increases but in general, as a Cheyenne county banker described his locality, people are becoming "pay-minded" and making additional effort to clear up both personal and realty mortgage debts.
