Oil in a Can is Like a Race Horse in a Stall

Lubricating Oil in a bottle or a can may look fine—so may a race horse in a stall. But put the horse on a track, make him run a half mile and he may prove all looks and nothing else. The same is true of Motor Oil!

Looks, Color and Extravagant Claims Mean Nothing at All

It is the test of actual performance that shows up poor horse—and poor oil. Mona Motor Oil does not break down under the most intense heat. Try a Crank case full.

SHERWIN-WILLIAMS PAINT HEADQUARTERS

Specify SWP and engage a good painter

Why SWP costs less on your house than any other paint

What will it cost to paint your house? This is what concerns you—not what the paint costs per gallon.

While fine old SWP costs more per gallon, it costs less on your home than any other paint. Why? Because one gallon of SWP will thoroughly paint almost twice as much surface as a gallon of cheaper paint. Therefore fewer gallons of SWP are needed.

So—ignoring the fact that SWP lasts twice as long as cheaper paint, and that its weatherproof colors retain their beauty to the very last—the first cost of painting your house with the world's best house paint is actually less than that of cheaper paint. Buy your paint on a job basis and save. Let us prove it to you by simple arithmetic.

SWP House Paint

REAL RAINSTORM The rain that swept over the eastern section of Nebraska Tuesday afternoon was one of mid-summer force and in the space of a very short time two inches of the rainfall was registered. It being a gentle and continuous rain that will do a great deal of good to the farming lands and the crops that have been planted. The rain, however, will retard road work in this section which is not so pleasing to the traveling public.

YOU ALWAYS PAY

You always pay for what you buy—sometimes good and strong; but you always pay. There are no gifts in the commercial world.

If the price is low the value is also low. Nor does it necessarily follow that high prices get good quality. You need know what you want—the best; you cannot get it for nothing. But when you pay for what you buy, be sure and get what you pay for.

When you make a purchase of the Farmers Co-operative Oil company, you get full value for what money you put out, both in the high standard of goods received and at the same time in the excellent service which this company gives. A test of our goods and service will convince you in the end the best goods are cheapest.
