Authorities to Probe Facts of Janca Death

County Officers to Seek to Find if Possible Reason for Young Man Being at Union

From Tuesday's Daily—
The identification of the body found at Union Sunday as that of James Janca, Jr., with no apparent reason for the young man being in that locality, has led Sheriff Reed, County Attorney Kieck and Deputy Sheriff Rex Young, to take all steps possible to try and locate some clue that might reveal how it happened that Mr. Janca was in the locality where the body was found.

A time of the discovery of the body the only article found on him was a key ring with his name and a few keys, and if he had any amount of money on him he had apparently been robbed before the body was found. Another fact that has caused some suspicion in the minds of the officers is the fact that when the body was found about 9 o'clock Sunday morning there was no indication of rigor mortis on the body and in fact Deputy Sheriff Young states that there was convulsive movements of the muscles of the body.

If the young man had bought a ticket and gotten on the train at Omaha at midnight Saturday, it is thought strange that he was not seen by any of his friends who had conversed with him or his brother who was also a passenger on the train, no trace having been found of the young man and he was not seen to alight from the train.

There is the possibility, which is being sifted by the officers, that the young man may have decided to beat his way on a later freight train and had got mixed up with some other group who were also traveling on the freight and they had beat him up, robbed him and threw the body from the train to be ground under the wheels.

It is possible that the young man may have tried to beat his way on the blind of the passenger train, fell asleep and not awakening at Plattsmouth had been carried until he accidentally fell from the train and was killed.

The authorities have learned that a shoe, possibly one worn by Janca, was found about a mile from the place where the body was found, and that the same morning as the finding of the body three hoboes were at a restaurant at Union and seemed well supplied with money, while one of the wanderers who was at Union was heard to state that he knew the dead man, being seen by him in the yards at Omaha Saturday.

The inquest will be held on Friday and all possible evidence that can have a bearing on the case will be presented by the county in an endeavor to clear up the mystery of death.

Sale Pavilion to be Used for Car Parking

Retail Section of Chamber of Commerce Secure Use of Place for Emergency Use

Seeking means to increase the parking space available in the city for autos and trucks, the retail section of the Chamber of Commerce has secured the use of the Valley Sale pavilion on South 5th street for use on the emergency cases when the other parking spaces will be taxed to their capacity.

The pavilion park is graveled and the entrance just a few feet off the paving has a graveled approach which will make it possible for the car owners to get to and from the pavilion and it will also be well lighted and a watchman will be placed there if necessary to look after the cars and prevent any damage to the parked vehicles.

It is estimated that the park will hold some thirty-five cars, well arranged in the parking space and where with a watchman the car owners need have no fear of any danger of the loss of the cars.

This addition to the parking space should make it a great deal better for all concerned and go a long way toward helping the parking situation in the city especially on Saturday nights when the business section is badly congested by the cars of the shoppers from the outside points as well as the local cars that may be on the street. This new parking space with a more extensive use of the eastern portion of Main street will go a long way toward making more and better parking facilities.
