It would place the immigration and customs service patrols under an assistant secretary of the treasury and compel every person entering this country to come thru ports of entry designated by the president.

Bill Orders Channel to Sioux City

Senate Debate Ends as Blaine Amendment Wins Approval; Final Vote Expected Today. Washington, June 19.—The last big obstacle was swept from the path of the rivers and harbors bill through the senate by the adoption Thursday of an amendment to limit the amount of water diverted from Lake Michigan for the Illinois waterway project. The senate voted 45 to 21 for the amendment by Senator Blaine of Wisconsin, ending a four-day debate on this, the last highly controversial issue in the bill.

Final vote was expected Friday afternoon. The measure carries authorizations estimated at \$120,000,000 for the next three years.

Other Projects. Several individual amendments, including two small projects in New York and a proposal for a survey for a New York-Delaware river canal, also a motion to reconsider a vote on reimbursement of local contributions await disposal. They are expected to be dispatched, however, without much debate.

The bill authorized development of a nine-foot channel in the upper Mississippi river at an ultimate estimated cost of \$98,000,000, and of a six-foot channel in the Missouri from Kansas City to Sioux City. It approves a nine-foot development for the Tennessee river from the mouth to Knoxville, and authorizes a \$3,000,000 flood control project for Lake Okechobee in Florida. It carries authorizations for hundreds of smaller projects.

Limits Diversion. The Blaine amendment would limit the flow of water through the Illinois waterway—which would be operated by the federal government at an annual cost of \$7,500,000, under the bill—in conformity with the supreme court's decision in the Chicago-Great Lakes states litigation. This would provide diversion of 1,500 cubic feet per second after 1938. The Blaine provision would provide a survey of navigation needs, leaving congress to determine the allowance after 1938.

Senators Glenn and Densen, republicans, Illinois, carried the burden of opposition, both asserting it represented an effort "to write into federal law covering navigation a supreme court decision relating solely to sanitation."—Omaha Bee-News.

WILLIAM SHEA POORLY

William Shea, Sr., one of the veteran employes of the Burlington railroad shops in this city, suffered a stroke at his home on Smith avenue Thursday evening and which has placed him in very serious condition since that time. The attack was quite sudden as the patient had been in apparently his usual good health up to the time of retiring Thursday and was sitting on the porch for a number of hours visiting with the members of the family, but after retiring he was taken suddenly ill and has been unconscious since that time. The two daughters, one from Minneapolis and one from Galesburg, Illinois, were called and are with the mother and son at the bedside of the father.

NEW CEILING ABOUT FINISHED

The task of installing the ceiling in the Legion building is nearing completion. Seven of the eight 7-foot wide sections running lengthwise the assembly hall are now in place and a few strips applied in the extreme east section along the wall. The first part of next week the remaining nineteen 4x7 foot pieces required to complete the work will be nailed in place. There will then remain to be done the check room and kitchen. In the latter it will be necessary to support a framework from the roof to the ceiling. The work has been in progress since the middle of last week. There also remains the fitting, painting and nailing into place of the stripping that will cover the joints on the entire job.

From the beginning to date, two faithful workers have been out every work night, Al Olson and Tom Beck. It wouldn't be out of place for a few of the other members to turn out and give them a hand in the completion of the job. To have hired this helping hand, to have hired this work done would have cost a good sized sum and all the money that can be made on carnivals and promotions wouldn't suffice to pay the expenses. If there wasn't someone at the other end doing this and similar work in order to hold down expenses. Such loyal workers as the two named are to be not only praised but a little material assistance now and then.

WILL ENJOY OUTING

Mr. and Mrs. Han Seiver accompanied by Misses Clara Wickman and Helen Warner, are planning on leaving in a short time for West, their goal being Yellowstone Park, that great natural wonderland of the west. This is the first real vacation for many years for Hans, the faithful and efficient custodian at the Cass county court house and he is anticipating a real time in the visit to the mountain country and which will give all of the members of the party a deserved rest from their various lines of activity.
