R. D. STINE
Union, Nebr.

Frank Burbee was a visitor, accompanied by a friend, at Shenandoah for the Fourth where they surely enjoyed the occasion.

Jack Roddy was a visitor in Malvern and Emerson, Iowa, for the Fourth on last Friday, meeting many old time friends while there. Curley Hathaway has purchased a new Chevrolet coach, one of the late ones, the bigger and better ones, which is just the proper wagon for himself and the family.

C. H. Whitworth has been serving as the agent at the Missouri Pacific station during the very severe illness of Agent Opp, who has been kept in his home with an attack of Pernicious Enema.

Mrs. Earl Hathaway who has been visiting for the past month at the home of relatives in Plattsmouth and where she enjoyed the visit very much, returned home the latter portion of last week.

Wade E. Moore and the family were very well pleased with the excellent celebration of the Fourth of July at York, where they went to celebrate with both their folks, driving out in their auto.

Mr. and Mrs. J. D. Cross were enjoying the Fourth of July at Peru, Iowa, where they were visiting with the Thomas Major family, they having been close friends for a number of years.

Charles Garrison, J. C. Niday, David Kendall and W. B. Banning, were out to a meeting of the farm boards which was held at Hastings last week and which was also attended by County Agent D. D. Wainwright.

Noah Parker and the family took advantage of the very quiet day in Union on the Fourth and went over to Cedar Creek where they visited at the home of his parents, Ira Parker and wife, who make their home there.

Oliver Atteberry was a visitor in Lincoln on the Fourth, driving over to celebrate, and as you know these young fellows do not like to go to such a place alone, well this was the case of Oliver and he did not go alone either.

Ben Anderson and Miss Pauline Smith were enjoying the celebration of the Fourth of July in Lincoln, they driving over in the car of Ben, and where, notwithstanding the intense heat, they enjoyed the celebration very pleasantly.

Messrs. J. W. Woodward and W. A. Taylor were unloading a car of lumber at the Frans Brothers lumber yard on Tuesday of this week and notwithstanding the very warm day they both surely hustled and made a good showing on the car.

With the order calling for the removing of signs in the streets, the Union filling station have taken theirs which was in the street and in place of it they are having a sign painted on the east side of the Noah Parker Cafe, which will show from up the street very nicely.

With the rapid growth of the weeds in the streets and roads, it has become necessary for the city officials of Union to publish the weed cutting ordinance and all property owners attention of the need of cutting them to keep the city cleanly sanitary and the town looking the best.

The Union Firemen held another of their very pleasant dances at the Propst building last Saturday night and there was a very large crowd who enjoyed the occasion. The next of the dances will be held at the picnic grounds where it can be held out of doors and which will be more pleasant.

P. E. Rihn and the remainder of his committee were hustling on last Tuesday notwithstanding the heat, in getting the poles planted leading to the picnic grounds as to have the lights ready when the Old Settlers picnic comes. They will also be used for the purpose of lighting the dances which will be held in the picnic grounds until that time.

We maintain a first class repair shop and Authorized Chevrolet Sales and Service

CHAS. ATTEBERRY
Union, Nebraska

As the day was hot on the Fourth, and the night sultry, Frank Bauer and Elmer Withrow went to Plattsmouth where they attended the Byrd picture and with their vivid imagination they got sufficiently cool, the fans going at the Parmele, and were quite a bit refreshed by a fine ride home. But oh my when they went into the stuffy bedroom to try to sleep they found it very bad.

Junior Applegate was severely bitten by a dog, and as the weather was very hot, there were grave apprehensions that the animal might have had the rabies so the dog was killed and his head cut off and sent to the state department at Lincoln to rannalysis and laboratory tests to ascertain if it might have had the hydrophia. The young lad is under the care of Dr. W. W. Claybaugh and is getting along nicely.

Cousins Visit.

Miss Noia Banning who is spending her vacation from school at home was over to Omaha for a number of days, going on last Thursday and visiting with her cousin, Dorothy Pell, they remaining in Omaha until Tuesday morning when Noia returned and was accompanied by Miss Dorothy, who is spending the week as the guest of Miss Noia and her many friends here.

Find His Car at Omaha.

George A. Stites was successful in finding his car which was stolen last week, it being located at Omaha. The county attorney of Douglas county was out of town and Mr. Stites was not able to secure the car on last Tuesday and had to await for another occasion. Eugene Roddy found the case and the certificate for the license in one of the mail boxes on his route showing that some one had picked the certificate and its carrier up on the road and placed it in a mail box. The one who stole the car having evidently thrown it away.

Young Short Horn bull, 15 mo. old for sale. One mile west of Union on O street.—Willard Lewis, Union, Nebraska. j10-2tup.

Other George Norris Announces His Stand

Would Back President and Work for Nebraska Alone, He Declares

Broken Bow—The following is a statement made by George W. Norris, Broken Bow candidate for United States senator: "In announcing my candidacy for United States senator I do so without solicitation and in the belief that the people of Nebraska want a different kind of George W. Norris to represent them in the senate. I am a native of this state. My grandfather, who pioneered on the plains of Nebraska, was a staunch republican. My father was also a Nebraska pioneer, was a true republican, and I am a republican who believes in the principles of the party in republican organizations and co-operation, and in upholding and supporting a republican administration. "I am a member of the American Legion, served my country in the World War, and am now anxious to serve her in time of peace by representing this great state in the United States senate.

"The presidency of the United States is the highest office in the land, entitled to consideration and respect, and this is true regardless of party prejudices and petty differences. If I am elected, the president will receive respect and consideration from a Nebraska senator, and I will pledge the people that I will be a republican, that I will support the president in voting for confirmation when he submits to the senate for their approval the name of such a man as Charles E. Hughes, chief justice of the supreme court of the United States, rather than violate the confidence of my people and vote against him. That I will work with all my energy for Nebraska and maintain my residence here and visit the people of my state oftener than once in every six years. That I will not dodge issues which face our state for fear of losing votes. That I will not neglect the interests of the people of Nebraska by spending my time in fighting the battles of other states or candidates for office in other localities, but will always be found in the front ranks fighting for our dear Nebraska and co-operating with the national administration in all things pertaining to the best interests of Nebraska citizens.

Farm Bureaus Report on Step to Cut Taxes

Propose Representatives of Agricultural and Business Confer on National Reform

Chicago—Following more than a year's study looking toward reduction of steadily mounting tax bills, the tax committee of the American Farm Bureau Federation, which was in conference here on June 25, proposes a national conference composed representatives of agricultural, business and industrial groups from all parts of the United States to formulate recommendations for modernization of the nation's taxation system.

Representatives from 17 state farm bureau organizations, together with those of several state governments participated in the conference, which was presided over by John C. Watson, authority on agricultural taxation and chairman of the tax committee. In urging the cooperation of all groups affected in planning another conference, Mr. Watson stressed the importance of immediate action.

"To let things drift," he said, "will be to let our taxing system lead to confiscation of our property."

Resolution adopted by the committee recommended that the proposed conference make a study of the following subjects:

Coordination and re-allocation of taxing powers between the Federal Government and states; extension of fundamentals involved in protection of state inheritance taxes by Federal Government to other forms of taxation where necessary; obligation of liberal participation by state and national governments to assist local communities in maintaining equal educational opportunities; increased participation by state and national highways; cooperation of all business groups in securing economy in public expenditures; use of taxes derived from new sources to reduce general property taxes.

As far as the proposed conference develops unanimity of views, Mr. Watson said, it should adopt motions or resolutions looking toward an active campaign by the state farm bureau federation, assisted by the American Farm Bureau Federation, "to make the taxing systems of the several states fair and equitable to owners of real and tangible personal property."

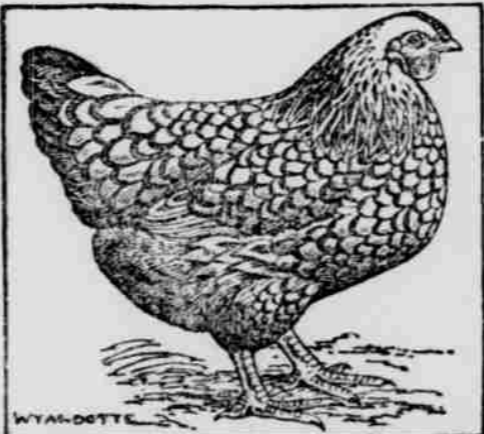

Particular attention was given by various speakers, to the proposal of an income tax to replace the present property tax, and it was agreed that to make state income taxes effective, the aid of the Federal Government should be sought.

R. Wayne Newton of Jackson, Mich., director of taxation for the Michigan Farm Bureau Federation, held that the income tax "would be the greatest agency for economy in government. Nobody now stops," he said, "to consider that we can afford to pay."

The income tax, he said, should not be used for raising additional revenue, but to reduce the amount now derived from the property tax and other forms of taxation.

The conclusions of the tax committee were to be presented to the board of directors of the national federation, and with their approval plans for the proposed conference will be formulated.

Farmers Co-Operative Creamery

2nd and Richey Sts.—Telephone 94
PLATTSMOUTH, NEBR.

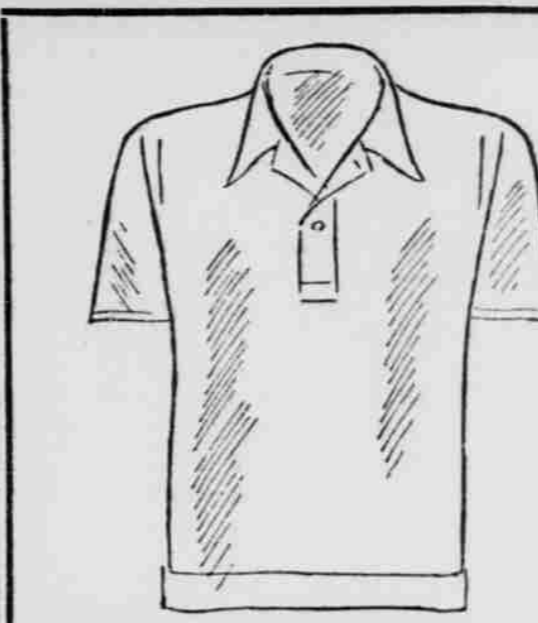

WILL ATTEND OXFORD

Sheldon Tefft, son of Attorney C. E. Tefft and wife of Weeping Water, who has been one of the instructors of the American Law School at Chicago, was united in marriage on last Friday to Miss Elizabeth Shephard of Lincoln, at the home of the bride's parents. The newly married couple will make their home in Chicago. They departed via auto immediately following the ceremony for the east and will sail from Montreal for England on July 5th. They will make an extended stay in England, as Mr. Tefft will take a post graduate course at Oxford University, where he took a regular course, graduating in 1927. They will expect to return to Chicago where Mr. Tefft will again take up his work of teaching in the American Law School of that place.

The time being so short and they making the trip to Montreal in their car, they were not permitted to stop at the home on their trip but expect to make a visit with their parents at Attorney C. E. Tefft and wife as soon as they can find time to do so.

A FORECAST OF 1915

Fifteen years ago, Dr. Charles Steinmetz, considered by many to be the greatest electrical genius of our time, wrote a magazine article called, "You Will Think This is a Dream," in which he forecast the electrical progress of the future.

Smartness — Comfort

If you know how delightfully cool these POLO SHIRTS really are, you'll lose no time in coming down for one. A pleasure to wear—Easy to wash

Blue, Tan, Green, White—Prices \$1.50 & \$1.95 **Wescott's**

Among the things Dr. Steinmetz forecast, according to an article in the Financial World, were that electricity would get cheaper; that buildings would be heated and cooled by electricity; that humidity would be electrically controlled; that much of our food would be cooked on the table and that cooking would be automatically regulated; that concerts would be heard in homes; that motion picture and the talking machine would be perfectly synchronized; that farms would be electrified; that cities would be cleaner; that industrial plants

would move close to the source of materials; that city industries would lessen smoke by using electric power.

In 1915 it probably was the consensus of opinion that Dr. Steinmetz had a somewhat overly-fanciful mind. Yet every one of his forecasts has, to some degree at least, come true, and in all probability the achievements of future years will make these past achievements seem trivial in comparison. The epochal progress made by the electrical industry since pre-war days is unequalled in world history.

ADD \$1,937 IN DUTY AS TAYLOR FORGETS

New York, July 8.—Myron C. Taylor, chairman of the finance committee of the United States Steel Corp., Tuesday was required to pay \$1,937 additional duties on wearing apparel which he and his wife brought from Europe on the liner Olympic Monday night. No fines or penalties were assessed. Philip Elting, collector of the port, decided that the failure to declare the goods was purely accidental.
