The Car Stays Put.
We have been schooled not to tell a name and a story out of school at the same time and so we will only observe that no man is certain until he is like Andy in Amos and Andy. He has been checked and double checked.

A certain business man of a certain little city in western Cass county, living a goodly distance from his place of business made it a practice to ride to and from work. Desiring

to see a man on his way to the office last week, stopped the car in front of the house of the party whom he desired to see, and going to the door was directed to a potato patch across the alley, where he was working. Stepping over, very satisfactory arrangements were made about the work. The merchant then went on down to the office on foot. An hour afterwards, he desiring to use the car, stepped outside to get in and found no car in its accustomed place and knowing full well that he had started for the office with the car, and now there was no other alternative but that some one had stolen it. He went to the garage in the town and engaged them to take him where he desired to go, and as arrangements were being made for some one to stay at the garage while the driver was away, Chance lighted on a young man and when he was told that he was wanted to stay at the garage while the driver was away, and why, he said the car is standing between my house and my neighbor's and has been all morning.

Quick as a flash the fact came to the car owner that he had left the car there himself. The officers were notified that the car had not been stolen.

HAS REAL SURPRISE

Of late our attention has been called to so many instances of robberies and holdups but one can never realize how terrible it is till it happens in one's vicinity.

One of the young farmers west of Murray, Allen Vernon, has started taking the night time to kill most of the weeds in his corn and last night while on the job he had quite a thrilling experience.

As it had grown into the wee hours of the night and sleep was beginning to take hold of him, he was suddenly stopped with the command to "stick 'em up." Realizing he was alone and being attacked there was nothing left for him to do but face the intruder. On so doing, he was surprised it was no one but his sister, who had come that far with her husband to visit the Vernon family. Upon finding the others asleep, she proceeded to the field to have a chat with the brother. It is stated by the sister that all Mr. Vernon was able to say was "whoa, whoa," to his team.

The firemen had the stream of water shooting up into the air and as it descended the youngsters sported in the cooling water. It was a great relief from the heat of the day and a treat that everyone of the youthful participants seemed to enjoy and the spectators as well, a great many gathering around to see the fun.

21 RURAL MAIL ROUTES ELIMINATED IN NEBRASKA

In line with the economy program announced last year by Postmaster General Brown, postoffice department officials announced today that Nebraska rural routes had been decreased in number from 1,107 to 1,086 during the 12-month period.

Anticipating objection which might be raised by members of congress to further curtailment of the number of routes in the state, officials declared that there has been no concurrent decline in the service to rural sections.

All eliminations, they stated, have been effected through consolidations, and have resulted in better service after the consolidations were made.

BINDER STRUCK BY LIGHTNING

On the afternoon of the Fourth, Clyde Johnson met with a rather serious accident when the binder with which he was cutting grain was struck by lightning. Is this your wife?

It's 5:30 again. Once more the evening meal is under way. Outside the temperature is 95. Inside the kitchen it is 100. Already pictures on the wall are swimming in a dizzy whirl.

Day after day, does your wife take this punishment? Does she serve the food for you, but have no appetite, no relish, for any for herself? Has she changed from the happy, energetic girl of "love, honor and obey" days to a tired, wilted kitchen slave? Is every step a forced one? Is every minute spent in the kitchen like a sentence to some kind of an inferno?

If you want us to change it, her kitchen hours may be cool and pleasant. Instead of four to six hours a day over a slow, hot, mussy, room-heating kitchen stove, we can cut that time to only two to three hours. And the food is cooked better, more appetizingly. In cities, gas cookery has freed 15,000,000 women from hot, wilting kitchen drudgery. Why should there be a penalty for living beyond the gas mains?

Now Skelgas, the compressed natural gas, brings freedom to women who live beyond the mains. And thousands of women each month learn this new enjoyment of life. For thousands are discarding obsolete cookery

methods to change to the speediest, cleanest fuel, which is at the same time the coolest, with all heat concentrated on the vessel itself. Skelgas cooks the food without cooking the cook.

What is the cost of Skelgas fuel? About one-fifteenth as much as the upkeep cost on the average motor car. Are monthly payments available? Yes, during July, we are making a special offer: A down payment of only \$12.50 completely installs a Skelgas outfit, including choice of five new stoves, the "gas plant" itself and even many months supply of Skelgas fuel—everything. Small monthly payments follow over a twelve-month period.

For only \$12.50 down you have ready to use a convenience which banishes kitchen drudgery three times a day, 1095 times a year. Which cuts kitchen hours in half. Which makes the kitchen as livable a room as any in the house. Which does not soot up kitchen vessels or kitchen walls. Which makes any kitchen as modern as a city kitchen.

Husbands, have you ever before had the opportunity to do so much with so little: Only \$12.50 down? Why not come in today—let's talk it over.

Dedicate the Grotto.
Last Sunday was a red letter day for the bustling little city of Manley for the erstwhile quiet city was filled to repletion with visitors from all over this portion of the country. The nearby towns contributed their quota, Weeping Water being represented by the band and many of the citizens. The congregation of the Catholic church of Elmwood was here in full force, while Plattsmouth contributed greatly as also did all the nearby towns. The song sang by the little girls telling the sacred story of the Virgin Mary was one of the very finest of the number of the entire program. Ten priests were to add to the solemn celebration and to do their part in the sacred exercises. The church and especially to Father Wautelle is due the credit for the wonderful success which came to them in the dedication.
