## School Funds Apportioned

Division of \$548,827.50 Is Made According to the Number of Children in District

Only four counties of Nebraska—Grant, Hooker, Loup, and Thomas—will receive less than \$1,000 each in the semi-annual state school apportionment now being made by State Superintendent Taylor's office from the fund of \$548,827.50 accumulated for that purpose during the past six months.

There are seven counties—Buffalo, Custer, Douglas, Gage, Lancaster, Lincoln, and Scotts Bluffs—that will draw upwards of \$10,000 apiece, Adams, Dodge, Hall, Holt, Knox, Madison, and Platte will each get over \$9,000 but less than \$10,000.

To the regular fund, additions have been made in the amount of \$3,067.70 to correct errors in the last preceding apportionment made under date of January 1. This increased the total sum distributed at the present time to \$551,895.20.

One-fourth of the whole sum, or \$137,973.80, is divided equally among 6,492 school districts which have met the legal requirements entitling them to share in it. Each will receive the same amount, \$21.55 plus, from this portion of the allotment.

The other three-fourths is split up among all the districts in proportion to the children of school age enumerated within their boundaries. The amount of \$410,921.40 and the number of children 495,174, which allows \$1.02 1-6 per child.

Local fines and license fees paid to the county treasurer are to be turned over by that official to the county superintendent and added to the sum received in the state apportionment in each instance, before the distribution is made.

The July state apportionment fund of \$548,827.50 was derived from the sources:

Interest on bonds, \$230,603.98; rentals on leased school lands, \$205,152.89; payments on school land sale contracts, \$59,362.53; insurance licenses, \$50,531; alcohol permits, \$1,454; employment agency licenses, \$1,350; warehouse licenses, \$173.

## SAFEGUARDING PROPERTY AND PERSONS

Fire insurance and casualty insurance are the safeguards of billions of dollars worth of property and millions of lives in the United States. Without these two agencies to protect property and persons, our country could never have developed as it has.

The beginning of the twentieth century inaugurated a generation during which the world's manner of living has been revolutionized. Fire insurance has had to cover many risks which were previously unheard of, while casualty insurance has grown from almost an unknown business until today it is indispensable to human endeavors where labor or contact with fellow-beings is involved.

These two classes of insurance furnish the basis of credit and protection for every home and business in the United States. They carry the risk for all business.

If one wishes to demonstrate what an outstanding part they play in our modern financial and industrial structure, try to operate an employing business without them.

## EARTH SHOCKS RECORDED

New York—An earthquake, the disturbance center of which was believed to be off the coast of Guatemala was registered at the seismograph station at Fordham university Monday evening. It was described as the most severe quake registered here since the shocks which broke the Atlantic cables off Newfoundland last November. The first shock was recorded at 5:46 (c. s. t.) and the heaviest tremor at 5:41. Father J. J. Lynch, seismographer at the university, estimated the center of the disturbances 2,200 miles from New York. On the basis of figures supplied by Georgetown university in Washington, Regis college at Denver, and

## U. S. WOULD TAX KIPLING'S INCOME

New York, July 15.—Uncle Sam wants Rudyard Kipling to pay \$2,104.50 in income taxes due for 1924, it became known Tuesday. A lien was filed in federal court in Brooklyn by Walter E. Corwin, internal revenue collector from the eastern New York district, alleging that the taxes are due to the British writer's income and giving his address as Garden City, Long Island, the office of his publishers. No details were given, but it is assumed the government claims the sum of income derived from publication of his works in the United States.
