495 Killed in State Since the First of Year

Most of These, Report Shows, Are Caused by Careless Auto Drivers —Harvest Toll Big
 Lincoln, Neb., Aug. 21.—Nebraskans, observed the Nebraska Press association Thursday in its report on accidental deaths and injury, are in far greater danger of maiming at the hands of motorists who are careless than are Chicagoans, who must dodge both automobiles and "pine-apples" tossed by gangsters.
 And Governor Weaver, the comment added, chose a job harder than that of the Chicago crime commission when he called for an observance of "safety week."
 The association was moved to these rather incongruous comparisons, the author admitted, through the realization that 29 persons met accidental death, largely in or from automobiles, in the two-week period ending August 12.
 Total casualties for the period numbered 365 with a toll of 388 injured, of whom 19 were permanently disabled, bringing the total of persons thus afflicted since January 1 to 263.
 The annual farm harvest brought its customary toll of accidents, 14 farmers having been hurt while at work with tractors, mowers, hay stackers and threshers, says the association.
 Of the 12 fatally injured in auto mishaps, three resulted when the driver lost control, two were the outcome of collisions and four others were caused by careless driving.
 Though auto cranking weather is still some weeks in advance, nine suffered broken arms trying to start their cars, 15 injuries were caused by blinding lights.
 Since January 1, last, 495 have been killed.—World-Herald.
