

GREENWOOD

W. R. Jones and wife of Lincoln were enjoying a visit at the hospitable home on last Sunday of Mr. and Mrs. C. E. Calfee.

E. L. McDonald and wife were over to Lincoln on last Wednesday where they were both visiting with friends and looking after business.

Dr. Hal Wilmuth and wife of Lincoln the former a school mate of Dr. W. M. McFadden, were visiting at the McFadden home on last Tuesday night.

Rev. and Mrs. Earnest Baker were guests for the afternoon and dinner at the home of Mr. and Mrs. Walter Golings, all enjoying the visit very much.

At this time the Burlington Park in front of the Greenwood station in very pretty with its beds of flowers which are distributed over the grass grown lawn.

Elmer Coleman and family of near Ashland were guests with friends in Greenwood on Tuesday last week as well as looking after some business matters.

George E. Erickson and family and Miss Emma Hanson were enjoying a visit with relatives at Fullerton on last Monday and Tuesday of last week.

George Trunkholz and family were visiting for the week end on last Sunday with relatives at Modale, Iowa, they driving over in their car for the occasion.

Mr. and Mrs. Wm. Wessells of Orleans, Mrs. Wessells being cousin of Mrs. Earnest Baker, were visiting at the home of Mr. and Mrs. Baker for a short time last week.

Paul Stander and the good wife are rejoicing over the arrival of a very fine son who came to gladden their home on September 7th. All are doing nicely even Paul.

Mr. and Mrs. John E. Lambert were enjoying a very pleasant visit last Sunday from friends from Valparaiso they being Mr. and Mrs. Robert Johnson and Mr. Larson and wife.

Mrs. A. R. Birdsall who has been feeling quite badly for some time past is at this time showing much improvement and is feeling quite a bit better. She keeps working all the time.

Mrs. E. A. Stevenson who has been visiting for a number of days in Lincoln with her son, Arthur Stevenson, who is a student at the Annapolis naval academy, was also present and enjoyed the visit.

Clarence Maston has been employed by the village to take care of the traffic by the school while the tour on Highway No. 38 is maintained which will lessen the danger for the school children.

Mr. and Mrs. Albert Erickson of Idalia, Colorado, who have been visiting with friends and relatives in Greenwood for some time past returned to their home on last Monday after having enjoyed the time spent here very nicely.

Carl Hoffman and wife have come to be pretty well pleased with their son, Milton Eugene, who was at the state fair and there scored second in the exhibit of "better babies" for boys between the ages of eighteen and twenty-six months.

Mrs. W. G. Renwanz was enjoying a very fine visit from her cousin last week, Mr. and Mrs. Will Wanner of Geneseo, Illinois, the ladies who were cousins had not seen each other for some time and the visit was especially a pleasant one.

Miss Margaret Moon who has been spending the vacation days with her grandparents, Mr. and Mrs. P. A. Sanborn departed last week for Omaha where she entered the Brownell Hall school for the coming year. Miss Margaret is a very close student and will surely make good progress during the coming year.

In order to preserve to the utmost the feeding value of his corn crop Lloyd Jeffrey has plowed his silo some twenty acres of corn for feeding his fattening cattle and which makes the very best of feed especially when the winter comes and the cattle are wanting something green to eat. It rarely pays to tempt the appetite of fattening cattle.

Greenwood Transfer Line We do a general business—make trips regularly to Omaha on Monday and Thursday, also to Lincoln Tuesday and Friday. Pick up loads on those trips. Full loads at any time. FRED HOFFMAN.

Attend Lodge at Lincoln. On Friday of last week a number of the members of the lodge of I. O. O. F. of Greenwood attended the lodge of the order at Lincoln when Capitol Lodge of Lincoln was to put on the first degree. They participated in the work or a portion of them did and all took part in the very fine banquet which was given after the work was done.

Building Miniature Course. O. F. Peters has been very busy during the past week or more in the building and equipping the grounds for the new miniature golf course which he is instituting one block north of the Methodist church, and where it will be very accessible to all who desire to engage in this fascinating sport. The adventure will no doubt meet with much approbation for there will be many players ready to use, which probably will be before this shall appear.

Received Much Water. The rain of last Monday was just a trifle more than was expected and what some people wanted notwithstanding they would have been glad to have had it during July. "D" creek was on the job carrying away the waters but had a little more of a job than it could well attend to when it was considered that the openings in the railroad were filled to overflowing. The new paved road was submerged to the depth of some sixteen inches in places but it finally got away. Some of the cellars and the elevator pit of the Peters Grain Company were filled. Bill Doud who has resided in that neighborhood for many years but who now lives in Lincoln said "You will get the road overflowed with no means for the water to get away," and Bill was right.

Manley News Items visit with friends and at the same time attended the state fair, where they also enjoyed the occasion. Charles Griffith and the family were over to Lincoln last week, at which place they were enjoying a very fine time looking after the home and farm of Mr. and Mrs. Herman Rauth while they were seeing the Blackhills. Herman Dall, who suffered so severe an injury some time since, is reported as getting along nicely at this time and hopes soon to be out and seeing his friends again.

Home from Vacation Trip On last Sunday Mr. and Mrs. Herman J. Rauth and Miss Rena Christensen, who have for the past ten days been seeing the northwest, arrived home tired from the trip and its dust, but nevertheless happy in the fact of having had an excellent time while they were away. They first stopped on their outward trip at York, where they visited with A. F. Rauth and family, then on to Chappel, where they also visited with relatives. Then on through the western portion of Nebraska and to the Blackhills of South Dakota, and here they enjoyed the play ground of America with all its beauties of scenery and mountains. Returning, they came east, traveling thru the bad lands of South Dakota, and stopped at White River, where they visited for a time, then on, and as they came to Winner they found their arrival there was timed with one of the opening days of the four-county fair. They enjoyed seeing a real Indian dance, and secured pictures of the Indians as they were lined up after the dance. Coming on, they stayed over night at Bonesteel, and the next and last night they stayed at Tilden, where they also visited with relatives and arrived home on last Sunday evening.

Entertained Kings Daughters. Mrs. Dewey Headley who is a member of the Kings Daughters, the hustling class of the Christian Bible school, entertained the class at her home on last Friday afternoon where all sure enjoyed the pleasant afternoon which Mrs. Headley furnished. A very fine luncheon was served by Mrs. Headley, the genial hostess.

The Ladies Were Busy. The members of the Order of Eastern Star of Greenwood were very busy on last Wednesday afternoon when they met at the Masonic building as they were making quilts for the Eastern Star Orphanage which is located at Fremont. Of course they had something to eat and we would expect they would. All in all they enjoyed a very pleasant afternoon.

Enjoyed Family Reunion. Last Sunday at the home of Elmer Mathis, was gathered the family of his parents, Mr. and Mrs. C. A. Mathis, and their eight children as well as the families and grandchildren, there being in all present nearly forty of the family. They surely enjoyed the visit, and will make it an annual affair in the future.

Made a Good Selection. Dewey Headley who has been thinking in terms of a better car, evinced his decision last week when he made the purchase of a new car, securing a four door Pontiac sedan and one which will surely serve this fine couple for their transportation the very best.

Boy Scouts Beautifying Greenwood. The Boy Scouts with an idea in view of making Greenwood the very best appearing town and also the very best town in the state were busy last week removing the old board fence which surrounded the ball park and removing every vestige of it, thus making the place present a very neat appearance. Just as well make your home town look the best. It is yours. This is the way the boy scouts look at it and they are right.

Returned to Her School. Miss Anna Rauth, who has been enjoying a vacation from her studies at River Forest school, and has been at home on the farm, having enjoyed the visit here very much, departs this week for River Forest, where she again takes up her studies.

Visiting in Milwaukee. Early last week, Mrs. August Krecklow and son Harold departed for Milwaukee in their car, where they will visit for some time at the home of Mr. and Mrs. Louis Krecklow. They were accompanied by Mr. Krecklow, a son, who has been visiting here for the summer.

Work Progressing Nicely. Work on the new school building for Manley is progressing nicely at this time, the founding having been completed and the brick work above the ground progressing very nicely. The basement, which is mostly above the ground, will probably be raised to the first floor by the end of this week. The floor of the basement is to be concrete and has not as yet been run, but it is expected it will be soon. The progress on the building, notwithstanding the unfavorable weather, has been satisfactory.

Celebrated 54th Wedding Anniversaries. On Sunday, September 7th, at the home of Mr. and Mrs. Henry Taylor, of Louisville, occurred the celebration of the passing of the 54th anniversary of the wedding of the parents of Mrs. Fred Flaishmann, Henry Taylor and wife, who were united in marriage on September 6th, 1876, the year of the Centennial, the event being solemnized at Janesville, Virginia, which is but a short distance from Cumberland Gap. Mrs. Taylor's maiden name was Miss Ellen Gibson.

Nearly a Two Billion Bushel Corn Yield Forecast

Excessive Heat of August Cuts the Total 10.4 Per Cent; Potato Prospects Reduced

Washington, Sept. 10.—The lowest crop yield in 20 years or more, except possibly in 1921, was predicted by the Department of Agriculture Wednesday as weather reports continued to show large sections of the drouth area still unrelieved.

Corn received another staggering blow from the excessive heat of August, the prospective yield falling off 10.4 per cent during the month, for a prospective crop of only 1,983,000,000 bushels. As now forecast, the corn crop will be the smallest since 1901 and the first in 29 years to fall below 2,200,000,000 bushels. It will be 24.2 per cent less than 1929 production and 25.6 per cent less than the five-year average. The actual shortage is estimated at more than 700,000,000 bushels.

Continuation into August of the record-breaking drouth in most of the states affected in July and an extension of drouth injury northward into states that had not previously suffered severely damaged a wide variety of late crops.

Potatoes Fall Off Prospects for potatoes were reduced by 34,000 bushels, hay more than 1,000,000 tons, and serious declines were recorded for beans, grain sorghums, buckwheat and vegetables for canning. Important declines were shown for tobacco, flaxseed, soy beans, cow peas, sweet potatoes, sorgo and cane for syrup, broom corn, grapes, cabbage and various northern vegetables.

Pastures, which were the poorest on record a month ago, declined to a new low level on Sept. 1, and milk production per cow was reduced 6.4 per cent below the corresponding date a year ago.

Egg production per hen is sharply lower in the drouth-affected states and on Sept. 1 averaged about 6 per cent less than a year ago.

Spring wheat and barley have been yielding well in proportion to the straw and the estimates have been increased since Aug. 1 by 17,000,000 bushels of spring wheat, 75,000,000 bushels of oats and 17,000,000 bushels of barley.

Increased Estimates The estimates for rice, sugar beets and a few fruit crops have been increased slightly, but the net average for both food and feed crops is sharply downward, with opportunity for material recovery rapidly dwindling.

With the exception of potatoes and sweet potatoes, and a few other crops, the shortage of food products is not yet pronounced. The market shortage of beef and mutton, pending necessity of selling livestock in the drouth areas tends to hold down the price of meat animals, with the result that farmers face the combination of low yields and low prices. Prices at the farm on Aug. 15 were the lowest in any August since 1915.

Wheat production now is estimated at 897,761,000 bushels as against 805,790,000 bushels in 1929. Of that, 597,392,000 bushels is winter wheat; 60,950,000 durum wheat and 189,419,000 bushels other spring wheat.

Nebraska Relieved The oats crop is estimated at 1,390,892,000 bushels, and the condition at 80.3 per cent of normal.

While rainfall during the first week of September materially relieved large sections of the drouth area, much of Pennsylvania, Maryland, Virginia, West Virginia, Kentucky and parts of Tennessee, Michigan and most of Iowa were still largely unrelieved.

Substantially normal moisture conditions have been restored in Kansas, Nebraska and South Dakota, pasture crops are satisfactory, plowing has made fine progress and much winter wheat has been sown.

There have been good rains in parts of Missouri, Illinois, Indiana, Ohio, Wisconsin, Minnesota and in the south Atlantic coast area and the extreme lower Mississippi valley.

Secretary Hyde's conference with drouth relief officials was believed to have been delayed 10 days or two weeks as a result of insufficient information in 18 of 21 states queried to present a comprehensive picture of local situations.

The condition of the various crops on Sept. 1 in percentage of a normal were announced as follows: Corn, 51.8; durum wheat, 69.8; other spring wheat, 63.1; oats, 80.3; barley, 74.7; buckwheat, 51.5; flaxseed, 54.1; rice, 80.6; grain sorghums, 48.8; hay (tame) 66.9; beans, 61.5; peanuts, 61.6; apples, 47.8; peaches, 48.2; pears, 66.8; grapes, 52.3; potatoes, 63.4; sweet potatoes, 57.6; tobacco, 63.6; sugar beets, 85.2; broom corn, 60.8.

Raise Predicted Durum wheat indicated production was placed at 50,950,000 bushels compared with 48,200,000 bushels indicated a month ago and a crop of 52,380,000 bushels last year. Other spring wheat shows an indicated crop of 189,419,000 bushels as against 174,931,000 bushels a month ago and production of 175,626,000 bushels last year.—Bee-News.

NEBRASKA HAS MANY COMMERCIAL FISH HATCHERIES

Nebraska boys of this and the coming generation need never utter the plaint of their fathers that they were cheated of a boy's birthright—fishing. Fishing, like many other pleasures that nature was slow to endow this state with, is soon to become a natural adjunct of every running stream.

The Nebraska Game, Forestation and Park Commission is rapidly stocking many state owned lakes with game fish. The United States bureau of fisheries at the request of Congressman Chas. H. Sloan recently sent agents to test the waters of the Blue river for the purpose of determining what kind of fish would do well there. The agents made tests all up and down the stream both of water and fish food inhabiting the streams and declared that bass would do well in the Blue. This is a preliminary step to stocking the stream from the federal hatcheries.

Commercial hatcheries are becoming quite common in the state. The above views show scenes from the Buffalo Creek Hatcheries at Haigler, owned by Mendehall brothers. The upper picture shows four of the nine ponds devoted to raising bass fry and mature trout every year. The picture of the lower left shows how fresh water is introduced into the ponds from springs. The picture at the lower right shows one of the ponds which is host each spring and fall to thousands of migrating wild fowl.

Raising fish commercially is not difficult work. They multiply rapidly. The fry at the Mendehall hatchery are fed finely ground live which is cooked and spread on the water. When it sinks to the bottom the little fellows find it. They fry also die on plan life that is native to the ponds in which they live.

A number of such plants are now in operation in the state. Where ever there is a sufficient amount of fresh water, bass and trout can be raised commercially and profitably in Nebraska. A market is found near at home. Omaha and Lincoln distribute an immense amount of fish. The Pullman company buy heavily of Nebraska trout and bass for their dining cars.

LOCAL NEWS

Waukegan, Ill.—Informed of a statement by Senator Dill of Washington, that he had been told detectives employed by Congresswoman Ruth McCormick were looking up his record at Spokane and elsewhere.

Mrs. McCormick said Friday night: "I don't know anything about Senator Dill's charges. But if he did make such a statement it is absolutely untrue. I am much too busy with my campaign to give the matter any further attention." Mrs. McCormick was here to speak in behalf of her candidacy for the senate as republican nominee. Senator Dill is a member of the senate committee investigating primary expenditures in Illinois and elsewhere.

Morris Frazer, of Utica, Nebraska, who is preparing to resume his studies at the University of Nebraska, was here Wednesday to visit at the Phillip Hrz home and in company with Gilbert Hrz was a visitor in Omaha.

Sheriff Bert Reed departed this morning for Lincoln where he spent the day looking after some matters of business.

W. H. Mark of Union was a visitor in the city Thursday for a few hours attending to some matters of business and visiting with friends here.

Attorney C. E. Tefft of Weeping Water was in the city for a short time today visiting with friends and looking after some matters of business.

Fred W. Koester of Twin Falls, Montana, was here today from Weeping Water to attend to some matters in connection with his father's estate in the county court.

W. E. Contryman and son, of Ogallala, Nebraska, were in the city today for a short time looking after some matters at the county court and visiting with old time friends.

Peter Gradoville came in this morning from Chicago where he has been in attendance at a meeting of the Burlington painters which has been in session there for the past few days.

Fred Lugsch and Carl Ofc were in Glenwood last evening where they attended the banquet given by the Glenwood fire department on the occasion of the dedication of their new fire truck.

Charles L. Carlson and Fred G. Morgan departed this afternoon for Denver where they will spend a few days attending the meeting of the Veterans Association of the Burlington that is holding its sessions this week.

SEVEN KILLED IN AMPHIBIAN CRASH Mexico City, Sept. 9.—Five persons were instantly killed and two fatally injured in a crash of the Sikorsky amphibian Maya two miles from Merida, Yucatan, Tuesday. The plane burned after it fell. Those killed were the pilot, Capt. Jorge Llerenas of the Mexican army; Salvador Flores Costo, Costo's wife, sister-in-law and small daughter. The fatally injured were another pilot, Alonza Reyes Flores, and Emilio Cebada.

Boost in Rates on First Class Mail is Wanted

Postmaster General Brown Plans to Make Suggestion to the Next Session of Congress.

Detroit.—Postmaster General Brown said Thursday night he would recommend an increase in first class postage at the next session of congress. Addressing the National Association of Postmasters, Brown said one half cent more an ounce on sealed letters and "minor changes contemplated in the rest of our rate structure" would "wipe out our present strictly postal deficit and balance our budget."

He added that if congress could be persuaded to "adhere to the rule laid down by the founders of our government that adequate postal revenues must be provided by law before additional charges against the service may be incurred," the result would be a solving of the perplexing postal deficit problem "for all time."

Says System Illogical. "There is not more logic and justification in asking the government to transport your private mail for less than cost than there would be in asking an electric light company to light your house, or a telephone company to furnish you long distance service for less than cost," said Brown.

Since 1916, he said, the second class mail rate has increased 82 per cent, third class 21 per cent, and parcels 10 per cent, but the present first class rate has been in effect since 1885 except for a brief emergency period during the World War.

Economically speaking, he said, the 2 cent rate of 1885 is equivalent to 7 cents now.—State Journal.

Hurricane Hits North Carolina Coastal Region

120-Mile Wind Causes Damage in Cape Lookout Vicinity—No Loss of Life Reported

Raleigh, N. C., Sept. 12.—Striking with sudden fury at Cape Lookout, 15 miles from the port of Beaufort, a tropical hurricane howled up the North Carolina coast this afternoon, but was believed to have passed out to sea tonight without causing loss of life.

The full force of a 120-mile-an-hour wind from the southwest buffeted the Cape Lookout vicinity at 5 p. m., demolishing a dozen buildings and damaging the coast guard headquarters slightly. Inhabitants of the vicinity sought shelter in the guard buildings.

Reports received here early tonight indicated the fierceness of the storm was abating. At Cape Lookout, the wind had fallen to 16 miles an hour by 9:30, but at Cape Hatteras and northward, the coast was still battered by a 50-mile-an-hour gale.

Earlier, Hatteras had recorded a 60-mile velocity.

Communication Crippled. Communication with the coastal area was badly crippled. Information of the damage at Cape Lookout was given coast guard division headquarters at Norfolk by radio telephone. Commercial telephone lines were put out of commission, but little other damage was listed in available reports.

Morehead City and Beaufort, neighboring towns within a few miles of Cape Lookout, did not feel the full force of the storm. Their telephone, telegraph and power facilities were disrupted by a 50 to 60-mile gale early in the afternoon, but there was no other damage except the uprooting of trees and the unroofing of one building.

Shipping Unharmed. A dispatch from Norfolk said weather officials there did not expect the storm to be felt to any great extent in that region, as they believed the center had already curved back into the Atlantic, whence it came about 2 p. m., with the blow at Lookout.

No report had been received of any shipping in distress. Except for the coast guard and radio compass stations at Cape Lookout, the only buildings are residences. The full extent of the damage will not be known until tomorrow, when communications are expected to be restored.—World-Herald.

CHESTER WHITE BOARDS I have a number of very fine Chester White boards, ready for service, for sale. Also new blood line for former customers. Eligible for registration. Address Paul Mann, Manley, Nebraska. s11-8tw.

FOR RENT Seven room modern house, close in. Apply to Mrs. Victoria Cornferr, 1022 Granite St., Plattsmouth, s11-2tw.
