Were Disappointed.

Earl Lancaster and family, with all the young folks were over to Plattsmouth on last Sunday evening where they went to attend the services at the Christian church, they did not find the church open and no services were held. They went to the Methodist church where they expected to find services, but found none, but the Epworth League was in session. They then went to the Presbyterian church where they found no services but the young people's service. They then returned to the Methodist church where a song service was being held. HARD FOR BANK ROBBERS

The Home State bank at Louisville is not taking any chances on being surprised by daylight robbers and stickup men, adopting as a safety measure a system of patent locks to the main door of the bank. The persons who gain entrance to this bank are going to be known in the future or there will be nothing doing on getting into the bank. The patent device on the lock makes it possible to release the catch when any of the customers or residents known to the bank officers comes to the door, electric connections releasing the Yale lock and the customer comes in, the door closing and locking and when the customer is ready to leave the door is released. This plan will have a tendency to lessen the chances of a stickup and where the customers are practically all known to the bank officers, does not work any inconvenience on the patrons and helps make robbery less probable.

Appetites Not Big; Host Shoots His Guests

Angered Dakotan Kills One, Wounds Two at Watermelon Party; Believed Is Insane.

Steele, N. D., Sept. 29.—Angered because guests at his farm home did not eat enough watermelon to please him, August Waulian, 61, shot one man to death and wounded two other persons near Tappan Sunday. Waulian is in jail today while county authorities prepared to test his sanity.

Edmund G. Moti, 31, was killed as he was stepping into his car with a 2-year-old child in his arms preparatory to leaving the Waulian farm after quarreling with his host. He died from a shotgun charge which pierced his chest. The baby was uninjured and fell into its mother's lap as Moti dropped dead in the seat beside her.

After shooting Moti, Waulian wounded Henry Etten, 30, and Carl Sonneburg, 10, and then chased them across the fields while Mrs. Moti managed to start the car and escaped. Waulian fled but was arrested when he returned to his home early today.

Waulian, a widower who lives alone, had invited the party to eat watermelon at his home, authorities said, and became angry after the Motis declined additional helpings. Alarmed at their host's actions, the party was preparing to leave when Waulian appeared with a shotgun and opened fire.—World-Herald.

GRAIN BOATS HELD BACK

Winnipeg.—Not a bushel of grain budgeted out of the lakehead ports Monday by boat as wheat prices shriveled to unheard of levels on the Winnipeg market. Farmers continued to draw their grain market in large quantities and grain trains rumbled toward the widespread lakehead yards as terminal storage increased and prices fought to climb from rock bottom.

More than 2,300,000 bushels of grain were marketed on the prairies Sunday and more than 1,500 cars were loaded with grain for movement eastward, but no grain boat moved out of the lake head harbors, where elevators now hold 72,804,000 bushels. Awaiting unloading at the lake head are 6,500 cars, and more than 9,000 cars are on the way east.

MARKET TAKES TAIL SPIN

New York—Caught in another whirlwind of selling, the stock market went into a tail spin Monday and landed in a bog with an altitude averaging less than ten points above the low ground of last fall's collapse. Slightly more than two hundred stocks established minimum prices for the year. Net losses ranged generally from \$1 to \$6 a share, with a few of larger size. All groups were affected, but the oils, coppers, rails and farm implements suffered most severely.

The market's course during the forenoon was upward, with the exception of a brief interval of selling at the opening, and advances of \$1 to \$3 were made by numerous industrial and utility leaders. Early in the afternoon, however, bearish professionals, springing out vulnerable spots, selected two or three selections and chiseled away patiently until the entire market became unsettled. As was frequently the case last week, the hardest drive was saved for the last hour when 1,300,000 shares were unloaded, an unusually heavy volume, swelling the day's total to 3,762,290 shares, the largest turnover since late in June.
