not draw well, and after a short time they were surprised to find the room was fairly populated with bees, and following which honey which melted with the heat ran out of the chimney and down the wall. Nothing daunted the ladies and they routed the bees and cleaned the chimney and were able to serve one of their excellent meals, which has characterized this band of willing workers in the past.

MADE A MERRY PARTY

Five young men of Union smelled pheasants in the air last week and departed for the hunting fields. They were Donald McQuinn, Stacey Niday, Paul Mattison, Ben Anderson and Lucean Banning. They arrived at the home of Tom Mattison, uncle of Paul, and routed that good natured scout out of his nice warm bed, and he sat in a chair while four of the young men slept lying crosswise over the bed, while Doctor Niday slept in the car. They were out however, early for the hunting and were able to get some good birds, but not over the quota. However, one of the young men had not been getting any birds and as they were going along some flew up right in front of him, and he pulled on them with a fine hair sight and pulled both barrels and then looked disgusted, thinking the shells were no good, and was going to take them out and replace them when he found that there was no shells in his gun. We did not say which one it was.

The Woman's Auxiliary will meet at Miss Augusta Robb's Friday Nov. 7.

Mrs. Merritt is improving the last few days. Hope to see her down town soon.

Do not forget to take dinner with the ladies of the M. E. Aid Society Tuesday at Propst hall. Dinner and supper. The street commissioners, Ira Clark and Orval Hathaway, have been overseeing the spreading of gravel on the village streets, making it possible for all sections of the town to have a way of getting out to the highway.

Mrs. W. M. Barritt left Tuesday afternoon for Omaha where she will be joined by her sister, Mrs. Bryan, leaving on Thursday for McMinnville, Oregon, to spend several months with their brother. After Christmas they expect to go south to California and Arizona for the rest of the winter.
