### OMAHA WOMAN ENDS LIFE

Omaha—Mrs. Bertha Anderson, sixty, widow of J. Victor Anderson, former district superintendent for the Union Pacific railroad, and for several years matron at the Union Pacific headquarters building here, early Tuesday night shot and killed herself at her apartment. The body was found by her nephew, William E. Hungerford, when he returned home. A note left by Mrs. Anderson indicated that despondency over the loss of her position, which she resigned last Saturday, led her to take her life. She fired one bullet thru her head.

In one of several notes written by Mrs. Anderson and made public last Tuesday she complained that she had been "framed" by three unnamed women at the headquarters building and as a result had lost her position. This note was addressed to an official of the railroad. A second note, addressed to Hungerford, listed property and cash totaling about \$22,000.

**Confirmation and Baptism Service.**  
On next Sunday morning, December 14, at 10 o'clock a special confirmation and baptism service will be held at Trinity Lutheran church, north of Murdock, in which five adults will be confirmed and a number of children as well as three adults will be baptized.

Everybody is cordially invited to attend these special services.

### Fight Hoover Emergency Relief Program

Congress Prepares Drastic Changes in President's Relief Plan; See Income Tax Boost.

Washington, Dec. 7.—Drastic changes in President Hoover's emergency relief program by congress loomed Sunday night as senate and house prepared for two major battles. In one it appeared a foregone conclusion the president's limit of \$25,000,000 for drought relief will be boosted to the \$60,000,000 mark already approved by the senate agriculture committee.

In the other there was strong probability the president's request for \$150,000,000 for emergency good road and other construction projects would be substantially changed. The house appropriations subcommittee already has slashed this sum to \$110,000,000.

Looming behind this confused program was threat of a move to boost income tax rates a full 2 per cent, as proposed by Senator Borah (R.), of Idaho.

Borah's suggestion to meet the treasury deficit, estimated upwards of \$400,000,000, by a raise in taxes brought quick opposition from administration leaders.

The administration, it was made emphatic, will fight any move to increase the income tax rate.

Senator Smoot of Utah, chairman of the senate finance committee, declared: "I do not anticipate any increase in income tax rates over the normal rates existing at present."

Chairman Hawley of the house ways and means committee said: "There will be no increase in federal tax rates over the rates on 1928 incomes."

Despite administration warnings to hold appropriations down to budget estimates, however, there was demand by progressives and democrats that the appropriations should be ample to fit the present depression. They declare that whatever funds are needed to get business and agriculture out of the rut should be made

### MORE DEATHS IN THE FOG

Brussels—Queen Elizabeth of the Belgians, accompanied by her staff, visited the death stricken villages of the Meuse valley Sunday, entering the homes of several of the sick and sympathizing with the bereaved. Three more deaths, bringing the total to sixty-seven, and the fact that many are still suffering despite the lifting of the fog were advanced as arguments that the deaths were caused by noxious fumes released from an industrial plant.

These statements caused the judicial authorities to proceed with post-mortem examination of several of the victims, despite official statements that the deaths were due alone to the cold fog. Sensational statements as to poison fumes continued to circulate. Eye witnesses said they noticed a narrow dark cloud which originated in a neighboring height and which rolled along the valley.

Cresmont, England—Fear that the mysterious fog borne malady which has taken a toll in men and beasts in the Meuse valley in Belgium may be spreading to England was caused Sunday by the inexplicable death of ten cattle on a farm near here. A certain element of fog has prevailed over the Yorkshire region the last few days, but only one farm has been affected.

Bombing of a church is blamed on the pastor's habit of broadcasting. But isn't it a rather rough way for the invisible audience to express displeasure?
