

# Here's the Ideal Xmas Gift

## Instant Light Aladdin KEROSENE Mantle Lamp

Think of the endless, almost priceless, joy and comfort every member of a household lighted by oil would derive from an Aladdin. An abundance of the highest quality of white light instantly the year round for a lifetime from kerosene. No other gift gives its recipient so much lasting service and satisfaction nor is as constant a reminder of the thoughtfulness of the giver. Let an Aladdin head your family gift list this year.

Come in and let us show you an Aladdin in operation. See the modern styles, and the beautiful new glass and parchment shades.

### GREENWOOD

There is quite a liberal amount of the new corn being delivered at the Greenwood elevators at this time.

J. H. Grady and Carl Hanson were shelling and delivering corn to the Peters elevator on last Thursday.

E. L. McDonald was looking after some repairs on his home in Greenwood and getting it in condition for the winter which is sure to come.

P. A. Sanborn, the machinery man, was a business visitor in Omaha on last Monday, driving over to the big city to look after some business matters.

O. F. Peters and son, Glen, were over to Omaha on last Saturday remaining until Tuesday where they were visiting and at the same time looking after some business matters.

Mathews and Peterson are making a mounted saw rig for Gust Brockhage which he will use for the sawing of wood, not alone for himself but for whoever may want wood sawed.

M. O. Ingraham and wife and Miss Esther Ingraham and Henry Wilkins and wife were over to Crete on last Tuesday evening to a turkey supper, they driving down in their car for the occasion.

Mrs. Fred Hartsook who is mother of Mrs. George Trunkenbolz is very poorly at her home in Eagle, and her daughter, Mrs. Trunkenbolz has been at the bedside of her mother to assist in her care.

Mr. G. W. Holt, who was at San Jose, Ill., where he accompanied the body of Mrs. Holt for interment, there former home, returned home last week and is resuming his duties as agent of the Burlington here on the Monday.

Frank J. Doud, who has been here for a time during the absence of G. W. Holt and also visiting with his folks and other friends in Greenwood, departed on last Tuesday for his home at Edgar where he is operator of the Burlington.

Mrs. Dewey Headley who has been so very ill for some time is reported as being somewhat improved at this time but still not in her former health. It is hoped by her many friends that she may soon be restored to her former good health.

**Buys Place in Greenwood.**  
Oscar Stewart, who held a sale last week and is leaving the farm on account of ill health and who is at the hospital at Omaha at the present time, made the purchase of the home of Mr. and Mrs. M. E. Petersen, and who are to vacate the place for the new owner moved on last Wednesday to the property of Earl Hurlbut, which is about a block west of the place where they lived before. Fred Hoffman with his big truck did the moving.

**Has Come Home.**  
Oscar Stewart, who has been in the hospital for some time past and where he underwent an operation, has so far improved that he was able to return home late last week. He is still quite poorly but is making some substantial improvement and it is hoped by his many friends that he will soon be in his usual health again.

**Home From Hospital.**  
Mrs. W. E. Palmeter, who lives a number of miles northeast of Greenwood and who has been quite ill for

some time, was at the hospital at Omaha last week but was able to return to her home on Thursday and it is hoped that she will continue to improve and that eventually will have regained her former health. It will be remembered that Mr. Palmeter was at one time engaged in the blacksmithing business in Greenwood and the folks are well acquainted with the Greenwood citizens.

**Miss Carnes Arrives.**  
Miss Carnes is the daughter of Mr. and Mrs. Ted Carnes, the salesman of the Chevrolet, and we mean Teddy, and while he is always very pleasant he was more so this time and we wondered, but were told afterwards it was a girl and all doing nicely. So we guessed. Well here is to you Teddy, much joy and may the young lady be a comfort to you always.

**Brother Dies in West.**  
John Connelly received a telegram announcing the death of his brother, Luke Connelly, in Los Angeles, California, and stating that the remains would be shipped to Denver for burial. John started for Denver on last Wednesday morning at about four o'clock, and was expecting to make the trip to Denver that day, and be there for the funeral.

**Completes Picking Corn.**  
Lloyd McGrady was hustling the first of the week into the picking of his corn, which he thought would stand the remaining in the field as long as the weather was good, but on the first of this week he had some seven teams at work in the field and with what he had picked before expected to get the corn out last week which contained some 125 acres.

**Will Work at Home.**  
John Ballenger, who has maintained a shop on main street for the past more than a year, has found with the very closeness of the times and the money matters, that it does not pay to maintain the shop here as he has rent to pay, and has therefore concluded to move the shop to his home where he has room for work and thus save the rent which he would have to pay here. He will be at the home and ready to look after the wants of all who may need anything in his line.

**Pick Neighbors Corn.**  
The neighbors of Roy Comstock, who has been sick all fall, went to his place on last Wednesday and picked his corn, putting it in the crib and thus getting it out of what bad weather the coming months have in store. This is characteristic of the people living in the vicinity of Greenwood to look after the needs of their neighbors and assist in every way possible, making it a pleasure to live in the vicinity of Greenwood.

**Leaves For Los Angeles.**  
On last Wednesday Art Kimberley and the family departed for Los Angeles, they driving in their auto and will get south far enough to miss the extreme cold weather should any come. They will expect to make the trip in about ten days or two weeks.

**Adopted Small Child.**  
Uncle John J. Mefford returned last week from a trip to Kansas City where he accompanied a little granddaughter to the home of Preston Mefford where the little one will make her home in the future and become the daughter of Mr. and Mrs. Preston Mefford. Uncle John also had a visit with the son and family while there. He returned and thus re-joined uncle Samuel Arons from his work carrying the mail as he was looking after the work during the time when Mr. Mefford was away.

**Greenwood Transfer Line**  
We do a general business—make trips regularly to Omaha on Monday and Thursday, also to Lincoln Tuesday and Friday. Pick up loads on those trips. Full loads at any time. FRED HOFFMAN.

**Sure Looks Fine.**  
Greenwood is to be congratulated on their enterprise and community spirit—it is the creation of the municipal Christmas tree which occupied the intersection of the main street near the bank, and which is just off the highway and where it can be seen by the people passing either in auto or train. The decorations are beautiful and when lighted at night make a most magnificent appearance. On Christmas eve there will be a program at the foot of the tree as well as programs at the different churches.

**Suffers Stroke Last Week.**  
Wm. Bulk who has attained a good age and who notwithstanding his advanced years and lack of strength was able to get about and visited in town with his many friends suffered a stroke of paralysis on Friday of last week. He has been kept to his bed since altho considered by the physicians and friends as being slightly improved. His many friends are hoping that he may soon have regained his former health.

**An Apple a Day.**  
It has been said that an apple a day will keep the doctor away, and while that might be hard on the doctor it would be good for the people. Another thing is now agitating the people and it looks now like they are solving it. The city of Greenwood are installing a new electric siren, which will have a range of from five to seven miles owing to the atmospheric conditions, and this will be a signal to notify, not alone the people of Greenwood, but also of the surrounding county of a fire or an attempted burglary of business houses, banks, or farmers homes, also to tell of the breaking out of a fire and everybody will hold themselves in readiness for service in any case whatever. This will put the town and entire surrounding community

in position to catch whatever raiders may seek to penetrate a theft of any kind for hidden switches will be arranged that will trap them unaware but at the same time make no disturbance in the immediate vicinity of where the person is.

### CHILDREN KILLED BY AUTO

Chicago—An autoist whose machine plowed into a group of school children, killing two and injuring five, was spirited away from a group of angered Bellwood citizens Thursday night and lodged in the jail at Maywood after threats had been made against his life. F. A. Beukema, the autoist, said he had not seen the children, who were returning from a band rehearsal. Those killed were Jerry Felkner, ten, and Frank Vices, thirteen. As he was lifting the bodies into his car, preparing to take them to the police station, a group surrounded him, shouting threats.

**PROGRAM AND PLATE SUPPER**  
To be held at Cedar Creek school, Friday evening, December 19th. There will be a fine program and all are invited.—Jean Ingersoll, Dora Soennichsen, teachers. d15-2tw-1td

**TRAP SHOOT SUNDAY**  
Ducks and Geese, cash prizes. At the Ernest Hild farm west of Myland. d10-2td-1tw.

## Watson Denies Report of Break with President

**Insists Republican Leadership of White House and Senate Are Not Divided.**

Washington—Hostilities between President Hoover and the rebellious senate quieted down Friday as the death of Senator Overman of North Carolina brought a truce. Senate republican leaders turned to the ambitious task of bringing about a new co-operation movement on relief legislation with the understanding that before Mr. Hoover strikes out again at their recalcitrant members he will confer on strategy. The administration forces have made it plain that they did not like the tactics employed by the president in accusing those who sponsored relief legislation outside his program of "playing politics at the expense of human misery."

Senator Watson of Indiana, the republican leader, who has been striving to smooth over the senatorial feelings and at the same time bring about a closer co-operation between the white house and senate, issued a statement saying the republican leadership and the president are not divided.

"Of course," he said, "I delivered no ultimatum upon the president. I and others of the party do not always agree with the president on ways and

means of accomplishing the ends we both desire. But the republican leadership of the senate and the president are not divided, however much we may differ temporarily over methods of carrying out the administration's program, which, of course, we all are endeavoring to do."

Vice President Curtis was among those asked by the disgruntled senate forces to convey to the president the resentment felt in some quarters over his denunciation of the super-relief advocate. He was at the white house for the regular cabinet meeting, but made no comment later.—State Journal.

### MARRIAGE DEBATE WANTED

Hanover, N. H.—Interest in the Bishop Manning-Judge Lindsey controversy caused three Dartmouth student organizations to invite the pair to participate in a public debate at Hanover on the companionate marriage question. The telegrams sent to the bishop and the judge read:

"The Arts, the Round Table and the Dartmouth Christian association invite you to take part in a public debate on the social issues involved in companionate marriage, the discussion to take place in Hanover on some date in the future convenient to you both."

## Women Review 10 Years' Work in Politics

**Mrs. Catt Relates Amusing Incidents to Joint Congressional Committee**

Washington—Ten years of service have just been celebrated here by the Women's Joint Congressional Committee, clearing house for federal legislative interests of 18 national women's organizations.

In an amusing speech at a committee dinner, Mrs. Carrie Chapman Catt recalled inside incidents of her contacts with Congressmen at a time when women were a new factor in politics, indicating the changes which have taken place in the political background since the committee was founded shortly after women were granted suffrage.

Five acts of Congress are attributed largely to the efforts of the organizations represented in the joint committee. They include a statutory provision for the maintenance of the women's bureau in the Department of Labor; the Sheppard-Towner Act and a renewed appropriation for its operation; the Cable Act, providing independent citizenship for women irrespective of marital status; a compulsory education law for the District of Columbia, increasing the school attendance; and provision for a federal institution for women prisoners.

Under the leadership of Miss Elizabeth Eastman, its new chairman, the joint committee starts its second decade, meeting regularly once a month while Congress is in session. Its tentative program includes measures which provide for entrance of the United States into the Permanent Court of International Justice, continued support of the federal program of maternal and infant hygiene, amendments to the Cable Act to remove remaining discriminations against women, establishment by Congress of a federal department of education, adequate appropriations for the office of education and adequate appropriations for the children's bureau and the women's bureau in the Department of Labor and for the bureau of home economics in the Department of Agriculture. The proposed blanket amendment to the Constitution for so-called "equal rights" is opposed on the ground that such an amendment would be self-defeating as to equality, and destructive of valuable existing laws.

Under the leadership of Miss Elizabeth Eastman, its new chairman, the joint committee starts its second decade, meeting regularly once a month while Congress is in session. Its tentative program includes measures which provide for entrance of the United States into the Permanent Court of International Justice, continued support of the federal program of maternal and infant hygiene, amendments to the Cable Act to remove remaining discriminations against women, establishment by Congress of a federal department of education, adequate appropriations for the office of education and adequate appropriations for the children's bureau and the women's bureau in the Department of Labor and for the bureau of home economics in the Department of Agriculture. The proposed blanket amendment to the Constitution for so-called "equal rights" is opposed on the ground that such an amendment would be self-defeating as to equality, and destructive of valuable existing laws.

### FAVORS AN INCREASE FOR PARCELS POST

Washington—Citing a parcel post deficit of \$15,570,730 last year, assistant Postmaster General Tilton Thursday urged adoption of the 5 percent increase in parcel post rates proposed by Postmaster General Brown to the interstate commerce commission. He issued a statement saying the postoffice department was helpless to deal with the deficit.
