Poultry Markets are all lower and it is hardly possible to quote you a price now for Saturday. My opinion is, now, that we will pay you 15c for Hens and Smooth Springs Saturday. But do not guarantee this. So, if you have many to sell, call 391 at my expense and get the price. The very low price on eggs is causing many people to sell their hens, and I am told that we may expect lower prices on both. We want your stuff and will pay you all we possibly can.

## Seed Potatoes

Stenner's Seed Potatoes are all treated according to a formula by U. S. Dept. of Agriculture and will give you a full stand of stalky, broad-leaf plants that shade the ground better and have been proven to produce 30 per cent more yield. Naturally a clean, more saleable crop.

Stenner Seed costs no more and we will have plenty as we have our own warehouse in Minnesota.

Omaha market requires \$400,000 worth of potatoes per year. Sales of home grown have increased from 25 to 135,000 in the last 10 years.

Last year (1930) some 20 odd cars were shipped out of Omaha for the first time so far as we can find out. All of these came from fields grown from Stennerized seed and went to the most exacting markets of the east. Not only this, but they proved exceedingly satisfactory. We can grow them as good here as anywhere. It's the seed that counts.
