House Membership is Urged

Effort Made to Get Better Representation of the Farmer After Reapportionment

Washington—An increased house membership to prevent states from losing representation under the new reapportionment law was demanded Monday before the house census committee by advocates from widely separated sections. The last minute effort to get action at this session on proposals to amend the law that goes into effect automatically March 4 is being made by members for the twenty-one states losing twenty-one seats.

Maintaining the agricultural states affected would be inadequately represented under the new distribution, the proponents headed by Representative Gibson of Vermont, urged adoption of the Thurston bill to increase the house loses one of its two members.

Gibson said it was "practically impossible" for one representative adequately to represent more than 250,000 people, adding his state had a population of 269,000 or nearly 80,000 more than the average member would have under the new law.

Representative Clancy, of Michigan, said sixteen states, with an aggregate population less than New York state, had thirty-two votes in the senate as compared to the former's two. Representatives Hare, of South Carolina, and Thurston, of Iowa, also urged the larger number.

SAYS ST. PAUL POSTMASTER WILL BE REAPPOINTED

Washington, Feb. 9.—Demands by Representative Maas (rep., Minn.) for the removal or renaming of postmaster Charles J. Moos, St. Paul, were met today by a postoffice department announcement Moos "ultimately" would be reappointed.

First Assistant Postmaster General Coleman disclosed the intention to rename Moos in hearings before the house postoffice committee on the Maas bill to prohibit postmasters from continuing in office more than one year after their terms have expired. Such legislation would force the removal of Moos, whose term expired in January, 1930.

Delay in the appointment was attributed by Coleman to efforts to connect Moos with the St. Paul lease under investigation by the Blaine committee. He insisted there was "no basis in fact for these rumors," and represented Brown as opposed to renaming Moos while he is "under fire."

BUSINESSMAN IS A SUICIDE

Chicago—Charles F. Shipman, prominent Chicago businessman, shot and killed his wife, and ended his own life here Sunday after allaying the fears of friends and relatives. Even as Shipman fired the shots that ended two lives Charles Meyerholz, Mrs. Shipman's brother who came here from Pennsylvania to prevent just such a tragedy, was asleep in an adjoining room. Shipman evidently had planned the tragedy for some time. His wealth, friends said, was virtually swept away in unsuccessful wheat operations on the board of trade, of which he was a member. Further losses at the race track were said to have thrown him into the depths of despondency.

ENGLISH WHEAT IMPORTS FROM RUSSIA ESTIMATED

Gov. Bryayn to Appeal to the People

Intends to Keep Books on Legislators Who Vote for or Against His Bills.

Governor Bryan intends to keep books on members of the legislature. If the members vote for his bills they will be credited with voting to save money for the state. If they vote against them he will mark them down as opposed to saving taxes. The governor announced Monday that he promised people during the campaign to oppose taxes and to save money for the state. If the members of the legislature not to increase taxes. In addition to keeping books on the legislators Governor Bryan may go back to the people and in public addresses tell the voters of the matters pending before the legislature. He has requests from the counties of Adams, Jefferson, Dodge and Cherry to speak at public meetings. "I promised to come back and tell them if things do not go right," said Governor Bryan. "Later on I may devote some time to public addresses. I have delivered a budget message to the legislature expressing changes desired in the form of the state government to save money of taxpayers. Tax money is now being wasted. I recommend abolishment of positions and reduction of costs, payroll and expenses of departments, whether payable from fees or taxes. We can save three-quarters of a million dollars in the governor's departments. We can save \$5,000,000 in state institutions. I believe this can be done without injuring the state service. "To bring it to the people in tangible form I propose to make up a set of books showing profit and loss. Those who vote for these measures will be credited with profit to the taxpayer in dollars and cents. Those who vote against the measures will be placed under the head of loss to the taxpayers in dollars and cents. The way to reduce taxes is to reduce. When asked who would determine the amount of profit and loss he said he had placed the figures in his budget and that he is responsible for the figures. Governor Bryan pointed out that he had recommended that the welfare department be placed under the state superintendent. He now finds this was done by a law passed five days before the code law, so there is, in his opinion, a conflict in the two laws now existing. Secretary Radke of the governor's office was absent Monday on account of illness. His physician has diagnosed his ailment as grippe and has advised him to remain in bed a few days.

BURY PRECEDENCE HATCHET

Washington—Mrs. Alice Longworth and Mrs. Dolly Gann, sitting at the same small table, laughed together Monday night, while National Women's Press club merrymakers played a funeral dirge over their buried hatchet. FOREIGN PROTESTS LOOM

Washington—Proposed legislation to restrict importations of foreign oil into the United States loomed Monday night as a possible source of foreign protests. While state department and Venezuelan legation officials declined to comment on the international aspects of the Capper bill to impose limitations on foreign petroleum importations, reliable reports in official circles Monday night were that Venezuela had made informal legislation. The grounds of the representatives were said to have been that it would be discriminatory.
