MYNARD HOME MAKERS MEET

The meeting of the Mynard Home Makers was held at the home of one of our club leaders, Mrs. C. L. Wiles, on Monday afternoon, March 2nd.

The meeting was called to order by the president, Mrs. Elbert Wiles. After a short business meeting, the lesson "Planning the Built-in Cabinet" was given by Mrs. C. L. Wiles. Mrs. Spangler being absent on account of illness.

The members also made some plans for their achievement program which will be held soon. At the close the members joined in singing the club song "Old Dog Tray" and also practicing other club songs.

At a suitable hour, a very delicious luncheon was served by the hostess.

FOR SALE

Several hundred good barrels, good for feeding troughs, water barrels or garbage cans, 50c each. See Mr. Williams at Smith Bros. camp on Missouri river. m9-15w

Sues Local Truck Operator for Sum of 100 Thousand

Samuel R. Robertson and Joseph Murphy of Omaha, Bring Suit Over Auto Accident.

From Wednesday's Daily—Suits aggregating \$100,000 have been filed in Omaha by Samuel R. Robertson and Joseph Murphy, live stock agents of that city, against Joseph Mrasek and his son, William Mrasek of this city, the suits being for personal damage alleged to have occurred through an auto and truck collision.

The plaintiffs in their action state that they were riding in an automobile on the night of January 27, 1930, alleging that the car in which they were riding was struck by a truck belonging to Joseph and William Mrasek, driven by Robert Jordan and who was accompanied by William Mrasek. They allege that the truck sideswiped the car in which they were riding, Mr. McNurlin being killed and the plaintiffs alleging that they received permanent injuries from the accident. Each of the plaintiffs are suing for \$50,000.

Since the accident, Mr. Jordan, the driver of the truck at the time of the accident, has passed away.

HARRISON RAPS PRESIDENT

Washington — President Hoover was charged by Senator Harrison with pocket-vetoling the Wagner employment bill, because of its democratic origin. In a statement thru the democratic national committee, the Mississippi senator said "it is evidently the administration philosophy that it is better that a few million people should go hungry for a year more than to have their agency relieved by a democrat."

Harrison said "every laboring man competent to speak for the workman's organizations" who appeared at congressional hearings on the bill had supported it. Arthur Woods, chairman of the president's employment committee, and Secretary Doak, before he entered the cabinet, were cited as supporters.

THE LAWN

In the Better Yards and Garden Contest it is now time that people should begin to arrange their lawns. There is a considerable space in front of and around every residence on a 44 foot by 140 foot lot. The lawn should be open in the center, well kept, weedless and in good condition. Flower beds and odd specimens of plants should be kept around the edge of the lawn rather than in the center. As soon as this snow disappears every home-owner should immediately inspect the lawn and street parking. If there are any low places in the lawn they should be filled with rich soil. The parking should always receive the same treatment as the lawn. Rake the lawn and parking thoroughly. All thin and barren spots should be sown with a three to one mixture of Kentucky Blue Grass and White Clover seed. Get your lawn and parking or street border in the best possible condition early. It will insure you much pleasure and comfort.

Gardens and yards which otherwise might have been beautiful have been spoiled by ill-kept lawns, and others that are below average have been given added attraction by a lawn properly cared for. Too many gardeners however, consider the lawn the last resort and merely scatter a few seeds on a bare spot, trusting in luck that a velvety green carpet will grow.

First: When should the lawn be started? Though the best time to seed is in the last part of August, and early in September, excellent results can be obtained by starting in March.

Second: What is the proper amount of seed to use? The usual amount is a pound for every 250 square feet of ground to be seeded.

Third: What is the best fertilizer? The best fertilizer is a good top dressing of bone meal, one pound to every 200 square feet of lawn.

Fourth: When should the lawn be cut? New lawns should be cut first when the grass reaches a height of about four inches. Then cut it weekly. Do not rake off the clippings for they protect the lawn and help conserve the moisture. Continue to cut the lawn through the autumn, just as long as the grass continues to grow keep at it with the mower.

Declamatory Contest to be Held Friday

Very Interesting Event Will Be Staged at the High School Auditorium—Many Entries

Final plans for the local declamatory contest have now been made and the entire contest will be held in the high school auditorium Friday night beginning at seven o'clock p. m. It had been thought some weeks ago that it would be necessary to hold the contest in two sections with one division at the Methodist church in the afternoon, but this arrangement will not be necessary. Admission prices will be fifteen cents to all school people and twenty-five cents to all others. There will be at least twenty speakers and a fine contest is assured. Several fine music selections have been provided for featuring the Boys Glee Club, the Girls Glee Club, the Robinson and Vestetta Robertson. The critic judge has been selected from the faculty of the Misner School of Speech in Omaha.

Miss Mary Jane Tidball, director of the contest has been assisted by Miss Florence Bejehley, Mr. L. L. Starrett and Mr. C. K. Kvasnicka. Winners in the contest Friday will enter the county contest at Nehawka Friday March 20th and the sub-district contest at Auburn March 27th. On April 10th, Plattsmouth will be host to the District Declamatory contest which will bring to this city winners and runners-up in contests covering sixteen eastern Nebraska counties.

The program is as follows:

- Oratory.**
"Diplomacy and Good Will" — George Luschnisky
"Where Are the Nine?" — Paul Iverson
"Lest We Forget" — Madge Garnet
"Automatons Or Men?" — Edward Wehrbein

"Danny Boy" — Fred E. Weatherly
David Robinson
Going Home — Dvorak
In Italy — Girls Sextette
"Kamano-Austro" — Rubenstein
Vestetta Robertson

RIVERVIEW CLUB NOTES

The February meeting of the River-view Club was held at the home of Mrs. Frank Hull. The meeting was opened in the usual way by the singing of our song for this month which was "Juanita."

A short business session was held and it was decided upon to send two men to our next Project Leaders Training Meeting at Murray. Mr. Major Hall and Mr. Harold Hull were selected as the two to get the lesson planned by our County Extension Agent Mr. Wainwright.

The lesson on "Selection of Kitchen Cutlery" was then given by our leaders, Mrs. Creamer and Mrs. Joe Campbell. A very complete display of kitchen knives was shown and the good and bad points discussed. The leaders also showed some good kinds of graters, sharpeners and can openers.

Convenience and efficiency is the result of using the proper kind of kitchen cutlery.

The meeting adjourned and will meet again March 5th. Mrs. Hull served refreshments at the close of the afternoon, assisted by Mrs. Harold Hull, and these were very much enjoyed by all.

Thursday evening March 5th, we met at the home of Mrs. H. L. Gayer and held our local achievement program.

The club members and their families were present.

An interesting account of the aims and purposes of our year's work with interesting items of what our club has done, was read by Mrs. Frank Hull. Mrs. Gayer gave a short talk on the "Value of Keeping Home Accounts," how her records have helped her and the value of the records in the future.

Then the meeting was turned over to the two men, Mr. Major Hall and Mr. Harold Hull, who very ably discussed the topic of "Practical Home Problems on the Farm" including heating, humidity, insulation and some remodeling which would aid in solving these problems.

The talks were given with the use of blue print charts and many samples of material. The men also showed each of the other men how to make of wire a broom-holder and lid hold-

er which will prove to be useful articles for their wives.

Mr. Nickles, the lumberman of Murray, had presented each project leader a knife-rack and one of these was shown and the use explained by Mrs. Creamer.

Group singing was one of the enjoyable features of the evening led by the social leader, Mrs. Major Hall. At the close of this program a short business meeting was held by the women. Games and conversation were then indulged in and a very de-
