# Most Beautiful of Flowers

ber of Lily Family Described by A. L. Tidd.

"Consider the lilies of the field "The homes in the crient; glass how they grow," is a familiar biblifound but for the seeking. The stately Iris of various parts of Asia church full of love for all people, Minor, and rightly did the guest lights a candle, of the word, and by teacher say that Solomon in all his lost soul to a state of grace. The these. Some of these Iris were carbackward until he lands at the very lers to the Mediterranean countries. again. His coming back is vastly rope. Iris is the name of the mythwith some other poor member, and Iris Society in the introduction to tries to make himself believe that his book on Iris, says: "Portland, garden that will rival the beauty of When the church hears the voice these world famous places.

Dr. B. Y. Morrison, Horticulturist of the Department of Agriculture of the United States says: "There are today several flowers which are in great popular favor with notable collections, both small and large and with great centers of activity in the will go to Detroit following the clos- ious waiting before His throne, and gardens of hybridists in this country and Europe. The wealth of the ages is available for our gardens, and there is no treasury richer than that Hebrews and Mehammedans each had ron, now under construction, was one souls will be born into the Kingdom. of the Iris. A story is told that in great admiration for the Iris, and in We know that heaven is interested an ancient time during a great tam- some instances worshipped the Iris. in the salvation of men, there will ine in Japan, the Japanese people were ordered to destroy all merely ornamental plants, and to devote all waywardness, and found their way the space of their garden soil to the production of food. But the Japanese women to preserve the Iris to obtain a face powder from it, when by the edict of the government was forbid to grow the Iris in their gardens. planted them on the roofs of their houses. Even today in Japan, the Iris may be seen growing on the roofs of many Japanese houses.

In many parts of France early dwarf Iris may be seen growing on decision to take part in the inter- the top of the stone, brick or tile walls surrounding the fields of the small French farms, which give great olor to the spring landscape.

In 1576 the first published list named nine species of Iris from Southern Europe. In 1601 twentyeight varieties were described. In 1823 some twenty distinct varieties were catalogued by an American pioneer nurseryman by the name of Prince at Flushing Long Island. Between 1830 and 1850 the florists and gardeners began to sow seeds which rapidly brought forth hundreds of forms of new Iris. Sir Michael Foster ranks among the first of American nurserymen and florists whose worth while for the excellent plot be submitted to the growers and ex- 1905 brought forth many new varwork between the years 1890 and

advance of Iris culture. There are many other flowers that our gardeners love. The rose has been a universal favorite wherever cultivation has come, and has been the flower of the English Kings. The cherry blossom has been beloved in Japan, and the tulip in Holland. But none of these have become so universal in their culture as has the Iris. And none are more gorgeous in the dainty shades of coloring than is found in the Lris gardens in this

country. Longfellow has paid tribute to this wonderous and beautiful flower in his poem entitled: "Fleur de Luce." me just take time to read this little poem, or poem, or a portion of

"Beautiful lily, dwelling by still rivers, Or where the sluggish meadowbrook delivers Its waters to the weir!

"Thou laughest at the mill, the whir and worry Of spindle and of loom, And the great wheel that toils amid the hurry And rushing of the flume.

"Born in the purple, born to joy and pleasance. Thou dost not toil nor spin, But makest glad and radiant with thy presence The meadow and the lin.

"The wind blows and uplifts thy drooping banner, And round thee throng and run The rushes, the green yoemen of thy manor, The outlaws of the sun.

"The burnished dragon-fly is thine attendant. And tilts against the field. And down the listed sunbeam rides resplendent

With steel-blue mail and shield. "Thou art the Iris, fair among the fairest, Who, armed with golden rod

And winged with the celestial azure, bearest The message of some God. "Thou art the Muse, who far from crowded cities

Hauntest the sylvan streams, Playing on pipes of reed the artless ditties That come to us as dreams.

"O flower-de-luce, bloom on, and let the river Linger to kiss thy feet! O flower of song, bloom on, and make forever

The world more fair and sweet."

The ancient races of the Greeks,
