Bryan Seeking Views of State Legislators

Personally Favors the First Weeks of June for the Special Session—June 8th Favored

Lincoln, Neb., May 19.—The first or second weeks in June were suggested today by Governor Charles W. Bryan as the most expedient time for the special session of the Nebraska legislature to work out a finance program for the next two years.

"I want to take into consideration the views of the members as to when it is most convenient to them

to meet," the governor said. He expressed a desire to hear from the representatives and senators upon the subject.

Governor Bryan said he believed the second week of June might be the most acceptable.

Discussing his conference Monday with Lieutenant Governor Theodore W. Metcalfe of Omaha, Governor Bryan said they had agreed that neither of them had any authority to call a conference of legislative leaders or to designate the personnel of the conference in an attempt to reach a budget solution.

"I expressed to Mr. Metcalfe, however, a desire to have the benefit of receiving any information from any member of the legislature, regardless of party affiliation, who had a personal or detailed knowledge of the actual needs of any particular spending agency of the state," he said.

The governor added that he is "checking and rechecking the possible needs of the various state activities for which it is necessary to provide funds by taxation."

The problem before the governor and the legislature, he added, is not in determining what any particular city may want for promotion of its own interests or business, but the minimum amount on which the departments and institutions can operate.—World-Herald.

HAS LEG BROKEN

From Wednesday's Daily—

Stephen Wiles, nine-year-old son of Mr. and Mrs. Guy Wiles, residing southwest of Murray, was very seriously injured this morning when he was kicked by a horse. The boy had gone to the barnyard with his father, who was engaged in milking and the boy was standing near one of the horses which was annoyed in some manner and launched a kick at the boy that knocked him down. The animal kicked the boy several times before he could be rescued and it was first thought that possible the animal might have kicked him in the head. It was found as soon as the boy was rescued that his left leg had apparently been broken and he was hurried to the office of Dr. J. F. Brendel at Murray and who brought the injured boy here to the offices of the Drs. Livingston where an X-ray was taken by Dr. J. S. Livingston and the limb set. It was thought at first that the boy might have to be taken to the hospital at Omaha but the break was clear and set in fine shape and it is thought that the boy will be able to get along nicely, but will be confined to his bed while the leg is healing.

Burlington to Ask for Removal of Two Trains

To Take Off No. 66 From Omaha at Midnight and No. 15 Going to Omaha at 8:03 a. m.

A group of Burlington officials comprising L. B. Lyman, assistant to General Manager Edward Flynn, Mr. Rohwitz and Mr. Fried, general passenger and freight agents and several other minor officials, were in the city Tuesday afternoon to consult with Chamber of Commerce officers as to the proposed changes to be made in the train schedule of the Burlington that will affect this city.

The change that is proposed to ask of the state railway commission is the removal of trains No. 66 and No. 15, operating between this city and Omaha. Train No. 66 now leaves Omaha at midnight as a mixed train and returns at 8:03 the following morning as No. 15, it serving to bring down what freight is scheduled to this city from Omaha and also attending to the local switching.

The railroad company shows in their proposed request to the commission that by reason of auto travel their ticket sales for the station here have fell off to such an extent that they do not average one a day for train No. 15 and which in no way permits the operation of the train which costs \$1,375 a month.

To the matter of mail service the railroad states that No. 15 carries one sack of Chicago newspapers and one sack of first class mail that can be delivered at Omaha and sent to this city via the Missouri Pacific at 9:42 a. m.

The Burlington, to give passenger service to Omaha, has agreed to make a flag stop for No. 25, fast express from Chicago and which reaches this city at 9:58 a. m.
