New Motor Link from Canada to

This Fall Because of the Rainy Season

Mexico City-The international opened provisionally, will represent until the next harvest. an expenditure of \$20,000,000 when completed. It is 1240 kilometers, or approximately 775 miles, long.

At present, however, although all motorists in the United States do not know it, this highway is closed to general traffic, for during the rainy season passage is considered far too dangerous. Provisional opening was primarily for the purpose of permitting machinery for the continuance of construction to pass over the road. Tourist travel is expected in the fall, when the rainy season is
