WEEPING WATER

S. J. Ambler was busy notwithstanding the very mellow weather in the varnishing of the wood work in two of the rooms of his home. Thus getting the same in good condition and keeping it thus. N. C. Neison, Andrew Olsen, Peter Olsen and Ole Olsen and Earle Towle were over to Plattsmouth on last Tuesday, where they were called to look after some business matters for a short time. Wm. Van Every, following his stay at the hospital and the recovering from the operation which he underwent, has just had his teeth extracted and is feeling much better. He is expecting to return to his work on the farm on Monday. Mrs. Tay Richards of Lincoln, but formerly of near Wabash, has been rather poorly and has been at the Lincoln General hospital where she has undergone an operation for her health and is still receiving treatment and is showing good improvement.

LOCAL NEWS

Has Excellent Gate.
Al Ralston who does lots of trucking and is a rustler to make a living, like every one has some inventions on his hands and has been using them to very good advantage. Passing through the farming districts it has been his observation, that where there are gates one has to get out of their car, open the gate, drive through, then stop the car, go shut the gate and then climb back into the car and drive on. Of course this is the usual procedure also with a team. The matter of making a gate which can be opened by a car working off the bumpers and working both ways occurred to him and he has completed a gate which works by simply striking a piece of wood which acts like a trigger and releases the gate from its fastening, the force of the car sending the gate wide open, and allowing the car to pass through when as the hinges are set on an eccentric, the gate swings back to normal position, closed, and locks and remains fastened until it is again released by another car. Mr. Ralston has named his gate the Ralston Motor Vehicle gate and has obtained a patent for the same. Drop in at the barn and see how it is to be and see how it works. You will surely say it is an excellent gate and well saves the time of the driver, whether it be a truck or passenger car, and whether driven by man or woman. Farmers sometimes complain that parties come to their place and especially where they reside a distance from the road, and in entering, leave the gate open until they may return out again. Sometimes they go out altogether, the gate is open and the crops exposed to what wandering animals might be at large or allowing what animals are in the pasture to get out and wander away. This gate will prevent all this and save much time for the farmer or any one who desires to pass through the gate in a car.

BIG FRUIT CROP FORECAST

Washington—A plentiful supply of fruit this year was forecast by the agriculture department on the basis of June 1 condition. Pears, citrus

fruits and California peaches, plums and prunes, the department said, are not likely to equal last year's large production, but sizable yields are in prospect. Fruit trees generally escaped with very little damage during the winter, and frosts this spring caused only minor damage. The one uncertainty is whether the 1930 drought has depleted the subsoil moisture to a damaging extent. Indications point to a large apple crop in all sections. The peach crop probably will be almost half again as large as the 1930 production if the June 1 prospects hold good. Pears are below average in the most important sections and production may be 15 percent lower than a year ago.

Why Firestone DEALERS give you the GREATEST TIRE VALUES

THE Firestone organization own and control their own business—every employee a stockholder.
Firestone buy their crude rubber direct from the plantations. Firestone buy their cotton in the primary markets, and have their own most efficient Cord Fabric Mills.
Firestone have the most efficient tire factories in the world, with daily capacity of 75,000 tires.
Firestone make tires only for Tire Dealers and Car Manufacturers.
Firestone do not manufacture special brand tires for others to distribute—but do manufacture a complete line of tires bearing the Firestone name and guarantee, for their Service Dealers and Service Stores.
This line of tires not only meets the price but beats any special brand tire distributed by mail order houses or others, in quality and construction.
Firestone have invested \$25,000,000 with their Dealers to establish the most economical distributing and servicing system.
Come in today—let us show you the *Inside Facts* from cross sections—that you may understand the *Extra Values* in Firestone Tires.

Has Tonsils Removed.

Bert Jamison, the genial hustler for Weeping Water and to obtain anything which will benefit the city, ever having his own town in mind, keeps rustling to that end. Bert has not been feeling the very best of late and has been going to Lincoln to have a specialist look after his health. He had his tonsils removed as they were standing between him and the best of health. He stood the ordeal very nicely, though he has a very sore throat.

New Business For Weeping Water.

In fact the city has two new businesses, one Hans Johnson who has recently established himself in a refreshment parlor where he handles soft drinks, cool and invigorating lemonade, also a fine line of confections, cigars and tobaccos of all kinds. The other is the new photograph gallery which has been established just north of the Spencer J. Marshall shoe and clothing store, and by the way Spence is carrying a very fine line of shoes and men's work clothes. The photograph gallery has been instituted by Roy Dickover of Louisville who has a gallery in both places. He devoted his time to the Louisville studio on Mondays, Wednesdays and Fridays, while he is here on Tuesdays, Thursdays and Saturdays. At other times and all the time that he has an attendant at the studio to look after the business.
