

Murray

L. K. Kniss and wife were visiting with friends and also looking after some business in Lincoln on last Tuesday.

Will S. Smith and wife were over to Plattsmouth on Saturday of last week where they were guests at the home of Mr. and Mrs. C. A. Rawls. Aubrey Townsend, the barber, was a visitor in Murdock with the folks for over Sunday, returning to the work here early Monday morning.

Aubrey Hopkins and son, Marion, of Plattsmouth, were in Murray on last Monday looking after some business matters and also taking a load of corn home with them.

Ralph Kennedy, the carpenter, has been restoring the home of Mrs. J. C. Ellington of Plattsmouth, which was so badly damaged by the lightning which struck it on June 20th.

Walter Allen, son of Mr. and Mrs. C. W. Allen, who departed last week for San Diego, where he has been assigned in the navy, writes that he arrived safely and is liking the work very well.

J. A. Scotten, Ralph Kennedy and Fred L. Hill completed the placing of a new roof on the home of Mr. and Mrs. O. A. Davis, which has added much to the appearance and the usefulness of the home.

The management of the ball park have arranged to have the fences surrounding the park painted and will also have the expenses paid by the placing of signs of the business men of Murray on the fences.

The Beulah Sans home has just been repainted with the famous Cooks paint with an expert from the factory here as designer and executor of the scheme of the blending of the colors to the very best advantage.

Mr. and Mrs. Pont T. Wilson enjoyed a visit on last Sunday from Mr. and Mrs. Roy Belms of near Myrdar, and Mr. and Mrs. A. D. Crunk and daughters, Fern and Frances, of Murray. All enjoyed a very pleasant visit.

Mesdames A. C. Long, Ralph Kennedy and Wm. Sporer of Murray and Mrs. Homer Miller of Plainview, who is visiting here for the present, were all visiting with friends and also doing some shopping in Omaha on Monday of this week.

Mrs. Rose Kendel who has been troubled for some time past with repeated attacks of appendicitis, was taken by her family physician, Dr. J. F. Brendel, to the St. Elizabeth hospital at Omaha, where she is to undergo an operation.

W. E. Palmeter of near South Bend, formerly residing here and engaged in the automobile game with A. D. Bakke, was a visitor in Murray on last Saturday and was guest of Mr. Bakke, as well as looking after some business matters.

Albert Churchill and wife, who are making their home at Stratmore, California, arrived in Murray on last Saturday night and have been visiting with Mr. and Mrs. M. G. Churchill and many other friends and relatives. They will remain for about two weeks.

Dr. and Mrs. J. F. Brendel and son, Richard, were visiting for the day on last Sunday near Elmwood and were guests at the home of Mr. and Mrs. George Mooney. They sure enjoyed the day nicely as well as the very fine dinner which was served by Mrs. Mooney. Mesdames Brendel and Mooney were pals when they attended the state university years since.

Business Is Good, Thank You.
So the proprietors of the Murray bathing beach feel for they are having a very fine business this summer and with one of the very best places for bathing and swimming, with an abundance of good pure water and treated for all purification, and changed constantly they feel that their place is equal to any in the country. Large crowds frequent the place every day and evening, and as the place is concrete the surround-

Worn Piston Rings Cost You Money
—for they not only lose power for you, but the "blow-by" causes improper cylinder lubrication and dilutes your crankcase oil. Then bearings burn out. If you're not sure you've got good rings, better see us today.

MURRAY GARAGE
A. D. BAKKE, Propr.

ings graveled and electrically lighted, with a number of life guards and ropes for all to hold to who desire, they have every safety appliance for the care of the people who come, and all are finding this a very pleasant place to attend.

Visiting In North.
Mr. and Mrs. Charles V. Barrows departed on Tuesday morning via their car for Draper, South Dakota, where they go to visit with relatives and where they will visit for the coming two weeks. They will, with their car, have an opportunity to drive to whatever point they may desire and this will enhance the pleasure of the trip.

Visiting Here With Friends.
Mr. and Mrs. Lee K. Kniss and their kiddies, who make their home in Los Angeles, arrived in Murray one day last week and are visiting with the relatives and friends here. They drove from the coast and enjoyed the trip very much as they are the visit here. They are finding the weather rather warm for their visit but they are enjoying the visit just the same.

Rock Bluffs To Celebrate.
There is to be an old fashioned celebration by the people living in the vicinity of Rock Bluffs and those who formerly resided there, for there were a large number of people who formerly made their home in and around that once thriving city. Arrangements have been made to celebrate the day properly in the grove of Mr. Hutchison, living about a mile north of the old town site. There will be an abundance of shade and parking room for the cars, so come and bring your basket, filled with good things to eat, meet the people whom you knew in the years that have slipped away. There will be plenty of good shade and plenty of good pure ice water for you to drink.

Will Locate in Washington.
Dr. Dunken L. Strong and wife of Lincoln, while on their way to Washington, D. C., stopped on last Saturday night for a short visit with their old time friends, Dr. and Mrs. G. H. Gilmore. Dr. Strong has been assigned to the position of superintendent of the division of Archeologist, with offices at Washington. He will have charge of this research in the states of the plains.

Celebrate at King Hill.
Earnie Hinkle, Charles Kenedy and eight more couples from Omaha, and Dr. and Mrs. G. L. Taylor and the kiddies from Plattsmouth, and Ralph Kennedy and family of Murray, were all enjoying a picnic on last Sunday at the cabin which Messrs. Hinkle and Charles Ken-

Bindweed Spread by Road Grader
Road graders working through the county lead themselves well to the spread of bindweed. Many places have been noticed and reported where the weed was not present a few years ago but is growing in large patches now. These places are along the roadside and are spreading into the nearby fields.

This weed, commonly known as Creeping Charlie, European Morning Glory, Small Flowered Morning Glory or Field Bindweed is classed as the most destructive weed in Nebraska, and is spreading very rapidly.

The perennial, trailing, twining plant, is very noxious due to its deep root, cordlike, creeping fleshy roots that often form mats in the ground. When a plow is run through one of these mats they snap and break like heavy strings. Observations made in some places prove that the roots extend a depth of sixteen feet.

At varying intervals buds form on the roots and give rise to a new plant. With this fact in mind it can readily be seen what will happen when a plow or grader is run through a patch of the weeds. The blades will tear off and carry parts of the root a great distance. When these root segments finally drop off they soon make their presence known by a heavy green matted growth.

This is the noticeable thing that is happening along our roadsides, and the more serious problem is "What Can Be Done About It?" These weeds can be killed by one of two methods. By intense cultivation, scraping the top off the ground with a blade often enough to keep the green from showing. This method will eventually starve the roots out. The second and most recent method is the use of chemical treatments such as calcium or sodium chlorate.

Several patches of bindweed were treated in different parts of the county last fall. Both the wet and dry methods were used at the rate of two pounds per square rod. Although a crop could not be grown on these areas this year, very little or not bindweed is in sight.

Just how the weed is going to be checked along the roadsides a much debated question and while all the deliberation is going on the weeds are increasing. Some cooperative plan between the highway department and the land owners might be worked out wherein the land owner would pay the highway department a nominal price to get the weeds killed. This perhaps would bring more uniform and complete results than having each owner treat his own. The cost of the chemical would

nedy have recently constructed on the south slope of King Hill. They report an excellent time there Sunday afternoon.

There Is Joy But Not A Boy.
Yes there was joy for there arrived at the home of Mr. and Mrs. Martin Sporer last Wednesday a daughter and all are getting along nicely. Early the following morning the people of Murray were awakened before the dawning, by what was supposed to be some one practicing on a flute. But it was later found out that it was only Grandfather Wm. Sporer practicing whistling for he had so broad a smile that he feared he would never be able to whistle again, but he is. He is getting along very nicely now.

Harry Puls Some Better.
On last Sunday Mr. and Mrs. Otto Puls were over to Omaha where they went to visit with their son, Howard, who is receiving treatment at one of the hospitals of that place and found their son somewhat better. They left a car there for him to use when he felt like getting out and hoping this would hasten his convalescence.

FOR SALE OR TRADE
I have a pure bred Poland China boar, ready for service, with papers. Will trade for a pedigree Hampshire boar. Write or see Will Minford, Phone 1502, Murray, Neb. j1-tfw.

Presbyterian Church Notes.

Morning worship at 11 a. m.
Evening service at 7:30 p. m. (Young people's meeting).
Wednesday evening prayer meeting at 7:30.
You are cordially invited to worship with us.
J. C. STEWART, Pastor.

MURRAY MAN INJURED
Tom Noel, 36, of Murray, was injured Tuesday morning north of Martel when the truck that he was driving was turned over on the state highway. He was taken to the St. Elizabeth hospital at Lincoln where an examination showed that he had suffered a broken ankle and possible head injuries.

Driving east, Noel, according to persons near the scene of the mishap, applied his brakes suddenly in an attempt to avoid striking a Rock Island train. The stop was too quick and the truck, containing a heavy load of gravel which he was taking from Wilber to the point of construction on the highway near Martel, turned over. A passing motorist took the injured man to the hospital.

At the hospital, the man who had delivered him, left before attendants could question him. Noel, dazed, was unable to tell of the accident.

Cass County Farm Bureau Notes

What Is Certified Seed?
It is the work of the Experiment Station to test carefully the most promising varieties of small grains in order to determine which ones are superior. Once this has been done the next step is to increase a supply of foundation seed for distribution. However, unless this seed is followed up it soon becomes lost. Here is where Nebraska Crop Growers' Association in cooperation with the Agricultural College and County Farm Bureaus offers its crop inspection and certified seed service. Upon request, the crop inspectors are traced to seed sources, and examined before cutting and again after threshing to determine the mixtures, diseases, weed content and general quality. Seed from fields which pass these inspections is listed as certified seed and is available to anyone who wishes to get reliable seed of the best standard varieties available.

Most of the certified seed is available as released, sacked seed tagged with the blue certified seed tag of the Nebraska Crop Growers' Association. The price is very reasonable, considering the expense and care to which growers go to supply this seed. A sales card is given with each sale of certified seed showing the certificate number of the grower, the field and threshed grain inspection report and which certifies the buyer to get reliable seed of the best standard varieties available.

Buyers who desire to become certified seed growers should secure foundation seed from the purest lots listed.

The Nebraska Crop Growers' Association will assume no responsibility for the seed herein listed or for sales which may arise from this list. Prospective buyers are urged to secure a sample of grain from the different growers before buying. Care is taken to list only careful, honest, conscientious growers and it will be regretted if the names of those who prove otherwise are reported. For further information, write the Secretary, Nebraska Crop Growers' Association, Agricultural College, Lincoln, Nebraska.

Home Products Contribute Much Toward Living.
That home products used equal or surpass the value of food purchased, was revealed to the twenty-one home account keepers who met last week to study homemaking from the business angle.

These women were also amazed at their low average meal cost. This was secured by dividing the total food cost, purchased and home products used by the total number of meals served. The number of meals served had been recorded daily for six months.

Using their own accounts of expenditures for the six months, an estimate of the total expenditures for the year was made. It will be interesting at the end of the year, to see how near they came to the estimates made. Expenditures include entire food purchase, clothing for the family, shelter, operating and development costs.

Certifies Grain.
Bryan Tharp of the College of Agriculture, inspected the grain fields of Eugene Day, Edwin Steekley and George Domingo last Friday. Among the fields inspected at the Day farm was one of Nebraska 50 lb. wheat which is one of the latest developed selections from the College of Agriculture experimental plots and has many excellent qualities such as winter hardiness, stiff straw, and high yield. Another field was Comfort barley of the tall type, developed selections from the College of Agriculture experimental plots and has many excellent qualities such as winter hardiness, stiff straw, and high yield. Due to the fact that two different lots of foundation seed of Comfort barley, which differ somewhat, were originally distributed, there are now two types of Comfort barley being grown. One type is somewhat taller and has a stiffer straw than the other. The yields and smooth bearded character of each type are apparently the same.

Mr. Day has another field of Rosen Rye which is very good. According to Mr. Tharp this is one of the best fields of rye he has inspected. At the Steekley farm a field of Comfort barley and Nebraska 21 lb. oats is a selection from ordinary Kherson but has outyielded it 10 per cent.

At the Domingo farm a 35 acre field of Comfort barley was inspected. The uniformity, absence of smut, and evenness of the heads were outstanding features of Mr. Domingo's barley.

Open Until Noon, July 4th Store will Also be Open Friday Night till 9 P. M.

HINKY-DINKY . . .

A Store Favored By Hundreds of Women For All Food Purchases!

Why? Comparison has shown that every item in the Hinky-Dinky store is priced low and savings are not limited to merely several "features." Women have learned that thorough, consistent thrift is gained only by buying complete needs at low prices.

making will find others' Vacation Camp at Camp Brewster an ideal spot for a happy, restful, and economical vacation.

Four dollars and seventy-five cents will cover all expenses while at camp for four days, August 11-14. Enrollment blanks may be secured at the Farm Bureau office.

4-H Camp.
"My, I can hardly wait until July 29th," is heard whenever one is with a group of 4-H girls and boys. July 29-August 1, are the dates for the 4-H camp at Bellevue Institute and many are already planning what they shall take with them.

Camp fee this year is \$2.75 plus six potatoes and six eggs. Any 4-H club member or leader may secure application blanks from the Farm Bureau office.—D. D. Wainwright, Case Co. Extension Agent, Jessie Baldwin, Ass't Co. Extension Agent.

STRUCK ON HEAD BY PITCHED BALL, FARM YOUTH DIES

Struck on the head by a pitched ball during a baseball game near Springfield, Neb., Sunday afternoon, Earl Dunn, 25, Sarpy county farmer, died Monday. Dunn, relief pitcher for a Springfield team, was hit by a ball thrown by Fred Spill. The game was being played at the Logan Gallentine farm four miles northwest of Springfield.

Dunn appeared to be only stunned. Death was probably caused by blood clot, Dr. L. C. Hissbeck said. Dunn lived with his mother, Mrs. Alice Dunn.

Surviving also are four brothers, John and Arthur of San Fernando, Cal., Glenn of Cheyenne, Wyo., and Norman of Springfield; two sisters, Thelma of Springfield and Mrs. Laura Brunning of San Fernando, and his grandmother, Mrs. Emily Bishop of Springfield.

Costs for the offense and which was paid over by the defendant and he was released from custody as sent on his way rejoicing. Mr. Coffee was arrested on Saturday night and put up security for his appearance last evening to answer to the charges preferred against him.

Detours between this city and Omaha are now almost as numerous as when the paving was being laid—and all on account of a couple of viaducts, the progress of which isn't any too encouraging.

FINED FOR TRAFFIC VIOLATION

From Wednesday's Daily—Last evening Judge C. L. Graves held a short evening session of the city police court and in which he took up the complaint filed by the members of the night police force charging Victor Coffee, of Omaha, with the violation of the traffic laws of the city, including driving through a stop sign and also for operating his car at a rate of speed greater than the city ordinances allow. After hearing the evidence in the case Judge Graves gave a fine of \$8 and

costs for the offense and which was paid over by the defendant and he was released from custody as sent on his way rejoicing. Mr. Coffee was arrested on Saturday night and put up security for his appearance last evening to answer to the charges preferred against him.

Detours between this city and Omaha are now almost as numerous as when the paving was being laid—and all on account of a couple of viaducts, the progress of which isn't any too encouraging.
