TARIFF RECEIVES ATTACK
Washington—The ultimate value of President Hoover's moratorium proposal was described by Senator George as resting upon "the use we shall make of it." Attacking the Smoot-Hawley tariff, which he blamed for the world trade losses of the United States, the Georgian, in a statement issued thru the Democratic national committee, said "President Hoover properly recognizes that military and naval disarmament must come by international agreement; likewise economic disarmament."

"There is not the slightest disposition to criticize or embarrass the efforts thus far made for the president to stabilize world conditions," he said, "and a downward revision of tariffs here and in Europe may well be expected to hasten materially the return to normal conditions."

PRISONERS KIDNAP GUARD
Jefferson City, Mo.—Two Missouri penitentiary convicts kidnaped a guard in the crowded business district of the city, forced a convict chauffeur to drive into the country where they forced him out of the car and drove away with the guard. The guard, Harry Williams, had accompanied the convicts, R. E. Miller and Harry Wilman, to a local physician's office by automobile. When they returned to the car, they forced the driver, Jack London, to drive them northwest from Jefferson City. London reported he had been thrown from the car at Elston, sixteen miles northwest of here. He said the two convicts threatened him with knives, apparently stolen in the physician's office.

Identify Trio Under Arrest
Officer and Customers Say Right Men Were Apprehended—To Be Returned to Nebraska

Denver, Colo., July 11—The three Max, Neb., bank bandits will be returned over to Sheriff Paul Davis of Dundy county tomorrow morning for return to Benkleman, where they will be tried, Captain of Detectives Armstrong announced tonight.

All of the men confessed their part in the holdup. D. E. Gallatin, cashier of the Max State bank, and Forest Clements and J. H. Hall, who were in the bank at the time of the robbery, arrived at the police station here this afternoon and identified the bandits.

Police recovered about \$1,500 from the trio. They insisted that was all they obtained in the robbery, but officials of the bank at Max fixed the amount at \$2,300.

The men were O. T. Handley, 38, said to have served a term in the Iowa penitentiary on charges of embezzlement; George Savage, 48, and Enos W. McCollum, 33. All are Denver residents. McCollum is the father of three small children.

Their capture resulted from Captain Armstrong's "hunch" that he knew the owner of the automobile which was described in reports of the Max robbery. It had six yellow wire wheels and Armstrong said it belonged to Savage.

All Sign Confessions.
Armstrong said that identification of the witnesses was unnecessary as all signed written confessions of the crime.

Witnesses of another Nebraska bank robbery, the Webster County bank of Red Cloud, were expected to arrive tomorrow morning to attempt to identify the men as the perpetrators of that holdup. Armstrong said as soon as the Red Cloud witnesses viewed the suspects they would be given to Sheriff Davis.

The men are O. T. Handley, 39; George T. Savave, 48, and Enos W. McCollum, 33.

Two women, Mrs. Goldie Handley, 26, wife of Handley, and Pearl Robinson, 45, said to be the sweethearts of Savage, also are held for questioning. They are expected to be released for further appearance at the trial in Nebraska.

Taken At Hotel.
The men were caught early today at the Regent hotel after detectives had traced their disappearance through a local driverless car company and through their Denver residences.

Savage rented a car July 1. The driverless car company had not heard from Savage since and feared

Bryan Now Has Two Code Heads on Payroll
Executive's Official Family in Jumbled Condition—Consolidated Several Offices

Governor Bryan now has two real, sure-enough code secretaries in his official family while two of the erstwhile code departments—agriculture and labor—are being administered by a "deputy secretary" and a "commissioner"—and fifth, public welfare, has no head at the present time, being somewhat "shot to pieces" in the governor's reorganization program.

State Engineer Roy Cochran, otherwise secretary of public works, is a holdover from the Weaver and McManen regimes and from the first Bryan administration. While Governor Bryan did not formally report him and submit his name to the legislature for confirmation, the law provides that a code secretary shall hold his place until superseded by executive order. Apparently, Cochran is a fixture in this administration and retains his former status as a code secretary. His salary remains unchanged at \$7,500 a year.

The other full-fledged secretary is E. H. Luikart, whom Bryan named to that position last week. Before that Luikart was functioning under the title of "deputy secretary." He was shoved up to the top rank, without change of pay, to conform with the state law which provides that the secretary of trade and commerce shall be ex officio receiver of all failed banks. Some doubt has been expressed as to the authority of a "deputy secretary" to take these institutions over. The salary is \$5,000 per annum.

Governor Bryan has consolidated the "deputy secretary" job with that of "secretary." This was said that Luikart might continue to draw pay as "deputy" out of the fund appropriated for salaries and wages of employees of the department, since the legislature failed to provide anything for the "secretary." Accordingly, Luikart will do his regular job titles and get his salary under another.

INSTALL 44 SHOWERS FOR CHILDREN IN CITY
Kansas City, July 12.—Forty-four public showers attached to fire hydrants have been installed by the city water department to offer relief for children from the heat. The showers will be available daily from 8 o'clock in the afternoon until 7:30 in the evening.

FILIPINOS MAKE A SHOWING.
Manila—Filipinos held a huge demonstration here in an attempt to further convince United States Senators Pitman of Nevada and Haves of Missouri that the people of the islands were united in their desire for independence. Filipinos paraded past the senators, who reviewed them from a stand in front of the legislative building. Many carried posters asserting they were economically prepared and asking for liberty or death, and independence at any price.

The demonstration was perhaps the largest ever seen in the islands. Newspapers estimated the crowd along the line of march at between 100,000 and 200,000 and the marchers at 50,000 to 75,000.

Both the American senators gave brief speeches in which they said the demonstration was most convincing proof of the desires of the island inhabitants.

SABATH CALLS FOR NAMES
Chicago—Congressman Sabath, democrat, wrote to President Hoover urging him to make public the names of "certain persons" selling short in all commodity markets, as mentioned in the president's statement at Friday's press conference in Washington and to designate them "public enemies." In his statement, President Hoover made it clear that his attack was not upon legitimate hedging operations, but only upon those of "a limited number" of speculators who, he said, sold grains and other commodities short "to depress prices."

"In Chicago we have designated men guilty of lesser crimes than theirs, as 'public enemies' and therefore you should let it be known that if they persist in their destructive activities that their names will be given to the public and designated properly as public enemies," the congressman wrote.
