

UNION ITEMS.

Rex Young passed through Union on last Tuesday morning, en route for Lincoln, and was accompanied by his friend, John B. Roddy.

Drs. G. E. Gilmore and W. T. Hughes, of Murray, were called to Union on last Tuesday morning to look after some cases of sickness.

Mr. R. C. Comstock, a member of the Nebraska Masonic Home at Plattsmouth, was a visitor with friends in Union on Tuesday of this week.

John Banning and wife of Alvo, were visiting for the evening at Union one day early this week, guests at the home of Mr. and Mrs. Joe Banning.

Fishing was no good this year and after having remained for a time at Kamp Kill Kare, Mr. and Mrs. Daniel Lynn returned to their home in the city.

W. A. Taylor, J. W. Woodward and Joe Green, with the help of Mr. E. E. Leach, were unloading a car of lumber for the D. Ray Frans lumber company.

Frank Bauer and nieces, Deede and Punk, and J. B. Roddy, were down to the Catron Mill on last Sunday where they were enjoying a dip in the swimming hole.

Miss Nola Banning, with a number of her girl friends, are enjoying a number of days this week at the Crete lakes where the Campfire Girls are gathering.

One of the children of Virgil Meade is having a siege with scarlet fever, and no doubt is finding the disease, very trying with the exceedingly warm weather.

Mrs. Minnie Anderson departed early this week for Plattsmouth where she will visit for some time at the home of her daughter, Mrs. V. T. Arn and family.

Rev. C. O. Troy, pastor of the Methodist church of Plattsmouth, was a visitor in Union and guest at the home of Mr. and Mrs. W. H. Porter one evening last week.

George Stites made a hurry up trip to York on last Monday to secure repairs for the machinery at the elevator which was disabled until the new part was received and placed in place.

Mr. and Mrs. Geo. M. Porter of Lincoln were visiting in Union last Saturday with W. H. Porter and wife and were picnicking at Kamp Kill Kare, cooking and eating their supper at the camp.

Making Good Progress.
The paving crew which are putting in the concrete pavement between the Union corner and Nebraska City, are making good progress and at the close of work on Tuesday were at the county line and it is expected that by the fore part of next week they will be at the end of the old pavement east of Union. The loading apparatus will then either be moved to Wyoming or may be determined to keep it where it is at Union and haul the materials via the bridge west of town and thus save the moving of the loading chutes and not have to seek another place to load and to rebuild new chutes.

Mrs. Kendall Some Better.
Since the return of Mrs. Rose Kendall to the hospital at Omaha, she has been showing marked improvement which is very pleasing to her host of friends and relatives and the hope is entertained that she may soon be able to return home entirely cured.

Will Meet Friday.
The Woman's Auxiliary of the Episcopal church will meet on Friday July 17th, with Mrs. W. E. Reynolds when they will look after the business which calls them together and also will enjoy a social hour as well.

Restaurant Changes Management.
The Ira Clark restaurant which has been operated by Mrs. Clark and their son, with the assistance of Mr. Clark whenever he could get away from the barber shop, and which has entailed to much strain on Mrs. Clark, and keeping both she and Mr. Clark worn out. It has been judged therefore better to lease the place to someone else, and so the cafe has been placed under the management of Stacey Niday, who is a young man, who is a hustler, and will be conducted jointly by he and Mr. Clark, altho Mr. Niday will have the management of the place.

Not Afraid of Snakes.
Some campers from Omaha were located at the picnic grounds and while it was reported that there was a large snake there it did not frighten them, but when informed that there was a cross bull in the pasture they made their getaway in double quick time.

How About the Old Settlers.
There was a call for a meeting of those interested in the matter of having the Old Settlers picnic which was to have been for Saturday night, and no one appeared for the meeting. So again there is a call for the

Union, Nebr.

same place, the library room, and at 8 o'clock on the Saturday night, July 15th, Judge C. L. Graves, who was the secretary for the past forty years, was a hustler and spent both time and money for the benefit of the association and always made a success of the picnic as well as the association. It will take some work and some money to make the affair a success. What will be done about it?

Paul Griffin Some Better.
Paul Griffin, who has had a very severe affection of his throat, and which made it necessary to take him to the hospital at Omaha, was taken there intending to go to the Methodist hospital of that place, but as there was no room he was taken to the Emergency hospital, where he was treated. Mrs. Griffin accompanied him, remaining for a number of days until the lad was some better. On Tuesday, he was reported as being somewhat easier and showing good improvement.

Trading Range on the Market is Narrow

Dealing in Bonds of Moderate Proportions in Sessions During the Past Week.

New York—The bond market moved back and forth last week within an extremely narrow range and trading on the whole was moderate. The average closing price for thirty representative issues, consisting of ten bonds each of public utilities, railroad and industrial companies, affords a quick concise view of the market's price movements. The average on Saturday was 95.9 compared with 95.0 on Friday, July 3. Fluctuations among the great bulk of domestic corporate loans were of the narrowest sort most of the time. However, the foreign group, especially the German issues, contributed its quota to the week's developments. The trend in the latter was pretty steadily downward. The German 5 1-2s and 1965 with sales approximating \$2,500,000 at par value was the most active issue by a wide margin. The nervous action of these obligations was only one fact indicative of the apprehension over the financial outlook for that nation. Other foreign obligations declined irregularly.

The movement in domestic corporate issues was far less positive. The superiority of the balances of international payments issued a week ago by the commerce department was charged by Dr. Ray O. Hall, former department official, in a letter to Secretary Lamont. He accused the department of suppressing facts showing the United States alternately inflating and deflating the world. Statements as to prohibition's effect on tourist travel to Canada and the influence of the Smoot-Hawley tariff on merchandise imports also were suppressed he asserted. Hall, until a month ago assistant chief of the department's division of finance and investment, prepared the economic study of international trade and computed intangible as well as tangible items that go into it. He was discharged after a heated dispute with Dr. Grosvenor Jones, head of the division.

CLAIMS FACTS SUPPRESSED

Washington—Suppression of facts and falsification of figures used in computing the "balances of international payments" issued a week ago by the commerce department was charged by Dr. Ray O. Hall, former department official, in a letter to Secretary Lamont. He accused the department of suppressing facts showing the United States alternately inflating and deflating the world. Statements as to prohibition's effect on tourist travel to Canada and the influence of the Smoot-Hawley tariff on merchandise imports also were suppressed he asserted. Hall, until a month ago assistant chief of the department's division of finance and investment, prepared the economic study of international trade and computed intangible as well as tangible items that go into it. He was discharged after a heated dispute with Dr. Grosvenor Jones, head of the division.

WEDDING IS CALLED OFF

San Diego, Calif.—Plans for a brilliant wedding Saturday afternoon at which Edwin Triplett Putman, daughter of Lieut. Col. and Mrs. Russell B. Putman of the marine base here, was to have become the bride of Lieut. William V. Deutermann, United States navy, were shattered by a telegram from the prospective bridegroom, missing since Friday. The telegram to the Putman family stated there would be no wedding. An hour later the Rev. M. L. Kain, pastor of All Saints Episcopal church, who was to have read the ceremony, received a wire from Lieutenant Deutermann which said simply "Your services will not be required this afternoon." Lieutenant Colonel Putman said: "There is nothing I can say except that the wedding has been called off."

WINS TRIP AND BANQUET

K. P. Spence, district agent of the Bankers Life Ins. Co., of Des Moines, Iowa, who for the past three years has had charge of the work here, has been awarded a free trip to Lincoln for a banquet as the award for his excellent work. Mr. Spence in June, wrote over \$10,000 in policies for his company. He will be gone for several days on the outing.

HAY SPRINGS FARMERS BUILD HUGE WAREHOUSE

Hay Springs, July 14.—Max Kutschara and Ed Hoffman, farmer near here, have started construction of what they claim will be the largest potato warehouse in the state. When completed it will have a capacity of 100 cars.

Cass County Farm Bureau Notes

Copy furnished from Office of County Agent Waincott

Pullets Should Be Well Fed.
Withholding feed, mash particularly, is making culls out of laying hens and a bunch of scrawny runts out of the growing chicks.

"Full feeders kept before the chicks will do more to prevent disease and control worms than all the remedies on the market," says Joe Claybaugh, poultry specialist from the Agricultural College.

The low price of eggs has discouraged poultry raisers, as a result they are letting the pullets rustle for themselves. This will result in a thin, immature flock of pullets this fall. Early pullets well cared for should be into good production by the last of November. If they have not been fed liberally, they will go into the laying house very much underweight in size. The result will be that they will not get into production until January or February.

More For Your Grain.
Hogs and cattle will probably pay more for wheat than the elevators according to recent feeding tests conducted at the Nebraska Agricultural College.

The tests showed that it takes 6 1/2 bushels of wheat, 24 pounds of tankage and sudan grass pasture to produce a hundred pounds of gain on hogs. Taking out forty cents for pasture and 75 cents for tankage leaves \$4.85 which six dollar hogs would pay for 6 1/2 bushels of wheat, the work and the overhead expense of raising the hogs. Five dollar hogs net on the farm, would pay \$3.85, and four dollar hogs would net \$2.85.

Further tests showed there is nothing to the idea that wheat makes lower grade pork than corn. In all the comparisons, the wheat fed hogs graded as high and in some cases higher than corn fed hogs.

Heavy two year old steers on 65 day feeding test last fall put on 100 pounds of gain with 380 pounds of cracked shelled corn, 197 pounds of cracked wheat and 157 pounds of alfalfa hay. They were given a grain ration of two-thirds corn and one-third wheat and they seemed to like it better than similar cattle liked corn alone. Such steers, bringing six cents net on the farm, would pay \$5.25 for the grain, work and overhead expense on each hundred pounds of gain. Without including the labor and overhead, the \$5.25 would amount to over fifty cents a bushel for the ground corn and wheat.

D. H. I. A.
During June 332 cows were on test in 24 herds in the Cass-Otoe-Johnson D. H. Assn. with an average of 850 pounds of milk and 30 pounds of butterfat produced per cow. A total of eight cows were culled and sold for beef. Six were bought as replacements.

Forty cows produced between 40 and 50 pounds of butterfat; 19 cows produced between 50 and 60 pounds butter fat. Sam Pickering of Unadilla had the high herd in the five to fifteen cow class. His ten registered and grade Jerseys average 989 pounds of milk and 44.8 pounds of butterfat.

H. L. Severe of Palmyra had the high herd in the class of over 16 cows. His twenty-three registered Holsteins averaged 1187 pounds of milk and 38 pounds of butterfat. Pastures were found to be real good this month and cream prices ran very low. One of the best and cheapest cost per cow, rations this month consisted of 690 gr. corn and cob meal, 200 bran, 100 cottonseed meal, which amounts to 82c per cwt. with 11% digestible protein.

Mother's Vacation Camp.
Even tho times are hard, mother should have a three day vacation this summer. Miss Mary-Ellen Brown, in charge of women's extension work at the agricultural college, says: "It is generally the mother in the family who must keep up the morale of the group."

1931 Mothers' vacation camps have been planned with that fact in mind. The programs will be more inspirational than ever this year. These three days of pure enjoyment should help any mother cheer up her children and help her husband "get along" while prices of farm products are low.

Local women will attend the camp at Brewster on August 11 to 14. Four days vacation for \$4.75. Enrollment blanks may be secured at the Farm Bureau office.

To Make the Jelly "Jell."
Three-fourths cup of sugar per cup of fruit is about the right proportion for good jelly, Florence J. Atwood of the Agricultural College says. Too much sugar makes a soft syrup jelly; too little sugar results in tough jelly of poor flavor. Cane and beet sugar are the same chemically, and both give satisfactory results.

Rapid boiling produces a clear jelly. The kettle should hold four times as much as the amount of mixture to be boiled, and a large flat bottomed kettle is better than deep one. The mixture should be stirred until the sugar is dissolved, then boiled rapidly until the mixture "sheets" from a spoon in two distinct drops. The jelly is then ready to be poured into the glasses.

HUDSON IS A MATCHMAKER

Hermest Beach, Cal.—Mr. and Mrs. G. Edward Hudson, the latter the mother of Aimee Semple McPherson, fled their honeymoon cottage here following an invasion of reporters, photographers, friends and idly curious. They sought the cottage after their return from their recent marriage at Longview, Wash. Mrs. Hudson declined to reveal their destination, but as her husband placed the last bags in their automobile, she gave out a few items of news. In December, she said, she expected to become a great grandmother, the happy event being anticipated in the home of Mrs. Roberta Semple Smythe, Mrs. McPherson's daughter.

And Hudson has entered enthusiastically into his wife's plans to find a husband for Mrs. McPherson. Hudson said he even had the husband picked out—a personal friend, he amplified, whose introduction to the famous evangelist he intends to negotiate as soon as possible.

Why Drive in Danger WHEN THE WORLD'S SAFEST TIRES COST SO LITTLE?

FIRESTONE Tires are the safest tires in the world, because of inbuilt patented construction features—Gum-Dipped Cords, Patented Double Cord Breaker, and Tough, Thick Non-Skid Tread, which give—

- 58%** longer flexing life in every cord
- 56%** stronger bond between tread and cord body
- 26%** greater protection against punctures and blowouts
- 25%** longer non-skid wear
- 25%** to 40% longer tire life

Firestone saves millions of dollars annually through economies in buying, manufacturing and distributing to give these extra values at lowest prices in the history of tire building. We have a complete line of Firestone Gum-Dipped Tires for you to choose from. Every Firestone Tire bears the name "Firestone", and is doubly guaranteed by Firestone and by us.

Come in TODAY—we will make full allowance for the unused mileage in your old tires. Let us show you how little it will cost you to equip with Firestone High Speed Tires—and eliminate the danger of worn tires.

this time. Members interested in competing may secure more definite information from their local leader.

4-H Club
4-H club members are saying "Only two more weeks until camp, then four days crammed full with class periods, stunts, swimming, playing and camp surprises. I can hardly wait until time to go."

Four days of camp for \$2.75, six eggs and six potatoes. Applications must reach the Farm Bureau office on or before July 25th.—D. D. Waincott, Cass Co. Extension Agent. Jessie H. Baldwin, Ass't. Co. Extension Agent.

CHRISTIAN SCIENCE
The subject of the Lesson-Sermon read at all Christian Science churches and societies on Sunday, July 12, was "Sacrament." The citations read are intended to show that Jesus' use of bread and wine at the last supper, when considered consistently with all his other works and deeds, was a concession made for that occasion to indicate and emphasize the necessity for his followers here to live or partake of the life of Christ, thus experiencing the baptism of divine Spirit, for which true spiritual purification there can be no symbolical substitute. One of the citations read

from "Science and Health with Key to Scriptures" by Mary Baker Eddy (p. 4), reads in part: "To keep the commandments of our Easter and follow his example, is our proper debt to him and the only worthy evidence of our gratitude for all that he has done." A part of one Biblical selection is as follows: "If ye be reproached for the name of Christ, happy are ye; for the spirit of glory and of God resteth upon you; on their part he is evil spoken of, but on your part he is glorified." (1 Peter 4:14).

PREACHER ENDS MARATHON
Cotton Valley, La.—The Rev. E. A. Sandifer, forty year old pastor of the Cotton Valley Baptist church, stepped down from his pulpit late at night after preaching continuously for fifty-eight and one-half hours. The preacher began his marathon sermon Sunday morning at 11 o'clock and started expounding the gospel on the subject of "What's Wrong With the Church?" He stopped at 9:30 o'clock quite hoarse, but "feeling fine." About 700 persons occupied pews in the little brick church when Mr. Sandifer concluded his long talk.
