School Enrollment for Year is About Normal

Less Number of Eighth Grade Rural Graduates Cut in High School but Others Show Gain.

With the first week of the city schools in operation the enrollment of the year shows practically normal and with there being very little difference in the enrollment in recent years.

In some of the departments there has been loss and gains in others to maintain practically a balance with the past years. The fact that fewer young people were graduated in the eighth grades of the country schools has served to check the freshmen class this year in the local school but in the other classes and grades there has been gains.

The enrollment this year is placed at 834, while in 1930 it was set at 855, and in 1929 it was 837, so there is but little change in the number attending.

The St. John's parochial school where for the first time the policy of free tuition has been tried out, shows an enrollment of 130 in all of the grades of the school. The grades from the kindergarten to the eighth grade are carried in this school in addition to the religious educational work.

If you want the best in school supplies for the least money, buy at the Bates Book and Stationery Store in Plattsmouth.

CAPTAIN DONAT INJURED From Friday's Daily—

Henry Donat, captain of the Plattsmouth high school football team, is the first casualty of the team, suffering an injury to his right knee yesterday afternoon in the practice scrimmage at the athletic park. The injury will lay the skipper of the team up for a few days at least and causes much gloom in the camp of the Plattsmouth who are to meet the Wahoo tribe here on September 25th, probably minus the services of the captain. Donat suffered a similar accident last season in one of the practice scrimmages with the Pacific Junction team and was out for several of the first games of the season. The team and fans are hopeful that the elongated captain of the team can be back in the game, however, to help in the victories of the blue and white in a short time.
