Sheriff Bert Reed, who has been gravely ill from pneumonia since Sat-urday evening, remains about the same, there being some slight im-provement after a very trying night.

Two trained nurses are here to as-sist the family in the care of Mr. Reed. The illness seems to have originated from intestinal flu and which has caused the lungs to be af-fected, making it a difficult case to care for. The patient this morning seemed rational and with little fever.

The friends are anxiously await-ing word from the bedside of the sheriff and trust that he may soon be able to be on the highway to recovery, but his case is still serious.
