

# Nehawka

Milton Baichazar was visiting with friends in Murray for a time on last Saturday afternoon.

Elmer Philpot was looking after some business matters in Weeping Water on last Monday afternoon.

Mr. and Mrs. Frank Lemon were over to Lincoln on last Sunday, driving in their car to visit with their friend, Miss Blanche Creamer.

Albert Popp of Lincoln, accompanied by the good wife were visiting with their old time friends and relatives in Nehawka on last Sunday.

D. C. Rhoden, sr., of Murray is reported as being quite poorly and while everything is being done he does not show the improvement which is desired.

Charles Snyder of Hamburg, Iowa, and who has made it a practice to come to Cass county to pick corn every fall is here again this fall and at work for the farmers.

A. G. Cisney was over to Hartington recently where he took a load of apples for the people there and for which he found a ready sale as there were no apples grown there this summer.

Arthur Wolph and family were guests on last Saturday evening at the home of Mr. and Mrs. Ray C. Pollard and wife for the evening and moving and also their guests at a supper picture show at the auditorium.

Henry Thiele who has been kept at his home and away from his work on account of rheumatism is reported as being much better at this time, but not as yet able to work. However he was able to be down town on last Monday.

Mrs. John O. Yeiser and husband were guests for the day last Sunday at the home of Mr. and Mrs. A. F. Sturm and wife, and while Mr. Yeiser was compelled to return home to look after his business, Mrs. Yeiser remained for a longer visit.

Albert Wolfe and daughter, Gladys were guests for the day and for a very fine dinner at the home of Mr. and Mrs. W. C. Maxfield of Weeping Water last Sunday. The telephone exchange requires that some one remain and care for it. Sometimes it is Albert, sometimes the wife and sometimes the daughter. On last Sunday it fell to Mrs. Wolfe to look after the exchange.

The little baby of Don Rhoden, Jr., which has been at the hospital at Omaha for some time, and which was very serious for many days is reported as being much improved at the hospital, where it is being cared for and it is hoped that there will be such improvement, that the little one can be returned home within a week or so. The little one which was at the Methodist hospital was sick with pneumonia.

### Sorghum for Sale.

Eighty-five cents per gal. furnish your own container, 2 1/2 miles north of Nehawka.—Elmer Philpot.

### Received Serious Injury.

While R. M. Pierce was doing some moving with an obstreperous span of unmanageable mules they became frightened at some object or fancied object and put their idea into action by running away. In their so doing they threw Mr. Pierce from the mower and a portion of the same hatching him on the hip, causing a very serious contusion, which required a number of stitches by their family physician, Dr. D. E. Hansen to close. However while Mr. Pierce was quite severely injured he is getting along nicely but it will be some time before he is well again.

### Likes Nehawka Fine.

On the tenth of October, 1930, Dr. D. E. Hansen came to Nehawka a stranger, and opened an office for the practice of medicine, and has remained and stuck close to the business and has during the past twelve months made many friends and has found a very fine practice during the time. Speaking of the town, Dr. Hansen says he likes the town and the people and is well satisfied with his location and the many friends which he has made.

### Enjoyed Friends on Sunday.

On last Sunday at the home of Mr. and Mrs. Nelson Berger were assembled a number of friends and relatives who with Mr. and Mrs. Berger enjoyed the gathering very much. There were there for the occasion and for the very friendliness which was served Mr. and Mrs. Johnson of Lincoln and also Mrs. F. W. Wilkins and daughter, Alvera, also of Lincoln. Mrs. Wilkins being sister of Mrs. Berger.

### Has Completed His Work.

Elmer Philpot who has a large field of cane or otherwise known as sorghum, has been very busy during the past few weeks making molasses, and was assisted by the son and wife, they completing the work late last week. He has made a very fine quality of native molasses, much of which he has now on hand and which he is offering for sale, but you must bring your containers, and better make them large mouthed ones as the molasses is thick, and especially when the weather is cold.

### Shipped 200 Eggs from North.

Robert Troop, living north of Nehawka was in the northern part of Nebraska and southern South Dakota where he purchased some two hundred head of hogs which he brought to Nebraska City where he sold them to farmers. He and his father, W. O. Troop were over to Nebraska City for the day on last Saturday.

### Held Masonic School.

On Tuesday and Wednesday of this week there was held in Nehawka at the Masonic hall a school of instruction in Masonry, that the work might be uniform throughout the entire lodges of the order. Dr. Leichtenwainer of Omaha who is grand custodian of the order in Nebraska was

here and gave the instructions on the work of the order and the secret work as well as on the general work and many of the order here were present to enjoy the lectures and to profit by the explanation of the work.

### Nehawka Band Doing Nicely.

The Nehawka band which was organized some time ago has been making good progress and have secured Mr. James Housen of Omaha as their teacher who comes well recommended and it is hoped the band will make good progress in their practices.

### Ships His Cattle.

Eugene Nutzman shipped a number of truck loads of very fine fat cattle to the South Omaha market on last Sunday night and also received some feeders which he is having placed in the feed lots to take the place of the fat ones.

### Mrs. Opp Still Poorly.

John Opp and Mrs. John Kettlehut were over to Omaha on last Sunday where they went to visit Mrs. Opp who is at the hospital, and found her about the same, altho better in some respects and not so good in others. They had hoped that she might return home soon, but are not being promised any definite time by the attending physicians.

### Both Make Visits.

Mr. and Mrs. John G. Wunderlich were over to Avoca on last Sunday, driving in their auto and going to see Mr. Louis Carsten, who when they arrived there found that that gentleman had come to Nehawka to visit friends and relatives and that Mr. and Mrs. Wunderlich were among the ones which he was to visit.

### Enjoyed Grand Lodge Very Much.

On the return of Louis Ross and wife, delegates respectively of the I. O. O. F. and the Daughters of Rebeckah, and John G. Wunderlich and a member of the grand lodge and Miss Laura Easter as member of the Rebeckah assembly, they were all very enthusiastic in their report of the convention which was composed of over 1400 members of the grand lodge and the grand assembly of the Rebeckahs.

### Julius Quite An Artist.

With a few willow switches and a board and a few nails, Julius Ruhman manufactured two very nice flower stands which he had on exhibition in the grocery window of the Sheldon Department store and which are works of art. Better take a glimpse at them and see how you like them.

### Could Not Make It Work.

While Fred Hansen was coming to town and Herbert Stoll was going to the country the latter with a hog crate on the side of his car, they were rounding the corner at the pines northwest of Nehawka and both thinking that they were going to make passage all right, and would, but the hog crate which projected and catching, drew them together with a slight shaking up and also some damage to both the cars. However they were fortunate in that neither were injured.

### Saw Mill Now Operating.

The saw mill which Forest Cunningham has been working on for the past more than a week is now in operation. Mr. Cunningham got things straightened out and was able to saw a few boards on last Saturday evening. He will take care of the wants of the people who may want native lumber made from their trees.

### Entertained at Omaha.

Alfred C. Anderson and wife entertained at their home in Omaha on last Sunday, and had as their guests many of their relatives and friends. There were there from Nehawka Albert Anderson and family, Louis Ross and family, Dan Anderson and family, Arthur Wolph and wife and their daughter, Evelyn, who are spending several weeks here from their home at Long Beach, also Mrs. Bedella Stander and daughter, Miss Gertrude of Louisville. A very fine time was had as well as the very fine dinner which was served.

### United Brethren in Christ.

Otto Engebretson, pastor. OTTERBEIN CHURCH Bible church school 10 a. m. Morning worship service 11 a. m. (Visitors day). Prayer meeting at G. A. Murdoch Wednesday night. Ladies Aid Thursday Nov. 5 at Mrs. Murdoch.

Young Peoples Christian Endeavor meets at Guy Murdoch Friday, Oct. 30th. The young people are requested to come dressed in their work clothes as there's a surprise in store for you. Everyone welcome.

### NEHAWKA CHURCH

Bible church school 10 a. m. Evening Gospel service 7.30 p. m. Y. P. S. C. E. will have a wainer roast and Hallowe'en party this week. They will meet at the parsonage Nov. 5. We were glad for our first group of young people at our last meeting. The boys club went on an observation tour last Saturday. Roy Snyder received the prize for observing the most things while on the tour.

The Ladies Aid meets with Mrs. J. Lloyd Nov. 4th. Sunday is visitors day in our churches. We want you to visit at one of our services. Come—we will look for you. "The loving kindness of Jehovah is from everlasting to everlasting upon them that fear Him, and His righteousness unto children's children." Ps. 103:17.

When and where did you ever buy 500 sheets of typewriter paper for 85¢? This is the price of a good paper, we have a cheaper one still, 500 sheets for 80¢ if you want it. Bates Book and Stationery Store.

NEW LIGHTS FOR STATUE  
New York—Mlle. Josee Laval, daughter of the French premier, waved her hand over a silver globe atop the Empire State building and the statue of Liberty in New York harbor was bathed in light. As a farewell gesture of good will before sailing for home, the French girl turned on a new floodlighting system which increases the illumination of the famous statue, a gift from the people of her nation forty-five years ago.

NEWSPAPER SERIOUSLY ILL FOLLOWING STROKE  
Arlington, Oct. 27.—Fred Henerman, wealthy farmer and a director of the Washington County Fair association, is critically ill at his home east of Arlington following a stroke of paralysis.

Wagner and wife, Anna Wagner; William Wagner and wife, Rose Wagner; Jessie Nichols and husband, James Nichols; Amanda Morgan and husband, Morris Morgan; Jesse Wagner and wife, Neddie Wagner; Addie B. Gilbert and husband, John Gilbert; Emma Graves and husband, Hod Graves; Nancy Graves and husband, Wallace Graves; Frank G. Arnold and wife, Effie D. Arnold, are defendants, ordering and directing the undersigned Referee in said cause to sell the following described real estate, to-wit:

ISLAND OF CYPRUS REVOLT  
Nicosia, Island of Cyprus—Despite the presence of military, naval and air reinforcements and the arrest of a number of ring leaders, the island of Cyprus still was seething with revolt Sunday night, and fresh outbreaks occurred during the day. A crowd of 6,000 persons attending the funeral of a youth killed in the first day's rioting last week attacked police here in the capital, hurling stones and shouting maledictions against the British rulers. Bluejackets from the cruiser London, which arrived Saturday were fired on at Acn by mobs agitating for union with Greece and the sailors retaliated with six shots, but inflicted no known fatalities. Several police and rioters were injured in other encounters there.

EIGHT MILE GROVE LUTHERAN CHURCH  
Sunday, Nov. 2nd. 9:30 a. m. Sunday school. 10:30 English services. Harvest Home and Reformation festival.  
The Journal Job Department is equipped to turn out anything from calling cards to sale catalogs.

# LOCAL NEWS

From Monday's Daily—  
Mrs. C. P. Curtis of Sedalia, Missouri, is here to spend a few days visiting at the home of her sister, Mrs. Val Burke and family.

Judge James T. Begley and Court Reporter Glenn Woodbury, were at Nebraska City today where they attended a session of the district court.

Mr. and Mrs. Searl S. Davis and children were at Lincoln Sunday where they spent the day at the home of Mr. Davis' mother, Mrs. Mary M. Davis.

Walter L. Pierpont, secretary of the Chamber of Commerce of Omaha, with Mrs. Pierpont, were here Sunday to visit with friends and looking over the city.

Mr. and Mrs. H. D. Royal, Mr. and Mrs. M. A. Derlece and Miss Nellie Nerig of Lincoln were here Sunday to spend a few hours visiting with Judge C. L. Graves and going to Rock Bluffs for a short visit.

Elmer Briggs, who for the past two years has been engaged as a baker at the Woodbury bakery in this city, departed Sunday for Goodland, Kansas, where he is to be located in the future. Mr. Briggs is an expert baker and will give Goodland the services of a splendid qualified baker.

From Tuesday's Daily—  
Attorney C. E. Teft of Weeping Water was in the city today for a short time attending to some matters in the county and district courts.

Mrs. William Hunter and daughter, Miss Helen, who have been visiting P. Conway, Nebraska, and other points of interest in the west, returned home last evening.

Mrs. Belle Stoner of Glenwood, came over Monday afternoon to visit for a short time at the home of her son, Hillard Grassman, returning this afternoon to the Iowa city.

John McCarver and Mr. and Mrs. Ed Ingram of Leola, Mo., were in the city Monday for a short time. Mr. McCarver coming in to make claim for the compensation of his son, Robert McCarver, who was drowned in the Louisville flood of 1923.

From Wednesday's Daily—  
Fred Ethrede of Greenwood was in the city today to look after some matters of business and visiting with the old time friends.

County Judge A. H. Duxbury and Attorney A. L. Tidd were at Lincoln today where they spent a short time looking after some matters of business.

John Lutz is spending a few days at St. Louis with his daughter, Mrs. Harry King and family and enjoying the many points of interest in the Missouri city.

Philadelphia—Officials of radio station WELK said a university of Wisconsin football banquet here Saturday night had been cut off the air three times because of two "damns" and a "hell." They denied newspaper reports published Sunday that the cutoffs were due to two "damns" and an explanation of why Senator Robert LaFollette of Wisconsin failed to accompany the team to Philadelphia for its game with the University of Pennsylvania.

The explanation for the senator's absence was given in a talk by George Lewis, business manager of the team, who said "Senator Bob is staying home for an interesting reason—there's going to be an increase in the LaFollette family." Senator LaFollette married his secretary, the former Miss Rachel Young of Washington, September 17, 1930.

J. J. Begay, announcer at WELK denied that mention of the expected birth in the LaFollette family accounted for one of the cut offs. "They can talk about that all night if they want to," he said. "There's nothing wrong with that. Athletic director of the team, who said 'Senator used the word 'damn' and a third speaker said 'hell' and that accounts for the three interruptions to the broadcast." Jamieson is president of the New York chapter of Wisconsin alumni.

Partial returns showed only two former labor ministers retaining their seats. These were George Lansbury, public works, and Sir Stafford Cripps, solicitor-general.

Nancy Lady Astor, Virginia-born member of parliament, running as a conservative, was returned from Plymouth with a majority of about ten thousand—comparing with the bare 211 with which she scraped through in the last general election in 1929.

Sir Oswald Mosley, wealthy young chief of the "new party" who campaigned under the protection of strong-armed guards, failed to retain his house of commons seat.—World-Herald.

Dessau, Germany—Adolf Hitler's national socialist party scored heavily in the communal elections in the state of Anhalt, where it captured only two seats in the 1927 election. The party won twelve seats at Kemberg, ten at Zerbt, nine at Balleinstadt and fifteen in the city of

# National Cabinet Wins in Britain by a Landslide

Ramsay MacDonald's Own Seat However Has Not Been Reported—Laborites Lose

London, Oct. 28.—A smashing victory for Ramsay MacDonald's national government was indicated at daybreak today on the basis of returns from 288 parliamentary constituencies.

Supporters of the national government won 261 seats in the house of commons, the opposition had 25 and two winners were independents. A total of 327 seats remained to be reported, one of them being Mr. MacDonald's. This report is expected later today. Every member of the national cabinet so far has been returned to power.

The conservatives won by far the lion's share of the victory. Of the 261 supporters of the government, 222 are conservative members, four are national labor members and 35 are liberals.

Only two outright advocates of the liberal policies of David Lloyd George survived the avalanche.

Near Conservative Majority.

The overwhelming victory of the national government forces was made plain by the latest tabulation of the popular vote, which showed conservatism, 4,909,328; national labor, 2,869,203; communist, 37,132; liberal, 845,840. The vote so far gives MacDonald the "doctor's mandate" he asked.

The conservative preponderance indicated it might be possible for that party to dominate the next parliament. With less than half the returns in, their 222 seats put them only 86 short of a majority.

The government forces swept out of office labor's most important leaders, chief among them being Arthur Henderson, foreign secretary of the MacDonald labor cabinet, who broke with his lifelong friend and refused to follow him into the national ministry.

J. H. Thomas, dominions secretary who stuck by Mr. MacDonald, showed the other side of the picture by again winning his seat in the house.

Drift in Labor Centers.

Chief among the surprises of the election was the strength shown by the national government in some of the industrial constituencies where labor was supposed to be firmly entrenched. Even the labor strongholds in Lancashire felt the drift.

The labor members who formed Mr. MacDonald's last labor ministry were almost all turned out of the house of commons.

Among these were Miss Margaret Bondfield, the nation's first woman cabinet member, who had the labor portfolio; Tom Shaw, war; Herbert Morrison, transport; J. R. Clynes, home secretary; Arthur V. Alexander, first lord of the admiralty; H. B. Lees-Smith, president of the board of education; and Sir Ben Turner, minister of mines.

Mosley Defeated.

Partial returns showed only two former labor ministers retaining their seats. These were George Lansbury, public works, and Sir Stafford Cripps, solicitor-general.

Nancy Lady Astor, Virginia-born member of parliament, running as a conservative, was returned from Plymouth with a majority of about ten thousand—comparing with the bare 211 with which she scraped through in the last general election in 1929.

Describing the present safety of planes has been developed to a high degree. The element of chance has not been eliminated, nor will it be eliminated in the present type of plane construction. It is his opinion that aviation has progressed as far as it ever will with the orthodox design and the equipment available at this time.

Before trans-Atlantic air crossings can be made with the same certainty that one makes them on an ocean line, there will have to be something new in aircraft design.

Thus the man who predicted that lone ocean flights would be but a routine matter in 1930 admits his over-optimism and maybe he has put his finger on the trouble in diagnosing the reason for the failure of his prediction. After all, it is quite possible that our aviation experts have been trying to scale a 100-foot wall with a 50-foot ladder.

Thus the man who predicted that lone ocean flights would be but a routine matter in 1930 admits his over-optimism and maybe he has put his finger on the trouble in diagnosing the reason for the failure of his prediction. After all, it is quite possible that our aviation experts have been trying to scale a 100-foot wall with a 50-foot ladder.

Describing the present safety of planes has been developed to a high degree. The element of chance has not been eliminated, nor will it be eliminated in the present type of plane construction. It is his opinion that aviation has progressed as far as it ever will with the orthodox design and the equipment available at this time.

Before trans-Atlantic air crossings can be made with the same certainty that one makes them on an ocean line, there will have to be something new in aircraft design.
